Backstory

- Born into slavery, Thasmih had gone through several owners by her sixteenth birthday, being forcibly separated from her family in the process
- She was freed shortly after the start of the Clone Wars, when separatist forces captured the planet she was on
- Promptly signed up, and got assigned to tour unaligned worlds convincing people to join
- After a year, this was changed to infiltrating Republic-held worlds to help train and motivate Separatist cells
- Refused to give up when word came down that they were making peace with the newly-proclaimed Empire
- Has spent the intervening years flitting from world to world in search of her family, taking down Imperial officials whenever she gets the chance
