

PILOT TRAINING PROGRAM VOLUNTEER REQUEST

About Alliance North: Alliance North is dedicated to championing Public Benefit Flying in Canada. We coordinate volunteer pilots for vital humanitarian missions, from aiding animal welfare organizations in relocating pets and wildlife to safer environments, to transporting non-emergency patients for medical needs. Furthermore, we invest in the continuous education and training of our pilots. Our mission is to harness collective knowledge and expertise, fostering growth and unity among partners and communities through shared Public Benefit Flying endeavors.

Project Background: In collaboration with Emergency Management Ontario (EMO), Alliance North and CIFAL York are developing a training and accreditation program. The main goal of this program is to prepare General Aviation (GA) pilots and ground crew responding during emergency operations in Ontario. This will be achieved through design and delivery of a mini accredited General Aviation Emergency Response Certificate (GAERC) certificate. Pilots and crew demonstrating an acceptable level of subject matter proficiency are accredited to fly with Alliance North and Emergency Management Ontario for emergency response missions.

What Volunteers can Expect: Volunteers with Alliance North should anticipate a weekly commitment ranging from 5-10 hours, encompassing tasks like research, content development, and collaboration meetings. This project offers the chance to actively contribute to emergency response initiatives while working alongside a passionate and diverse group professional in the emergency management and aviation fields.

Volunteer Responsibilities:

- Conduct research on specified General Aviation Emergency Response topics to support the training program.
- Develop multimedia learning modules, including presentations, videos, tests, and assignments, based on provided learning objectives.
- Create and edit engaging video content, graphics, and other visual materials using appropriate software to support training modules and promotional efforts.
- Organize, coordinate, and execute project-related events, workshops, or launches to engage stakeholders and promote the initiative.
- Actively participate in project meetings, collaborating with team members and integrating feedback.
- Act as ambassadors for the project, sharing updates and engaging with stakeholders to raise awareness.
