Homework 2

CMP 128: Programming through Web
Fall 2021

Create a resume

This assignment is due by 11:59 PM on Thursday October 7, 2021

In this homework, you will be creating a resume using HTML and CSS by following the layout of the resume in this image (<= Please click to access the image)

- This resume can be yours or a fake person as in my image provided above
- Use HTML elements to create the structure of your resume
- Use CSS to style your resume like the image that I have provided above. You are required to use external CSS. Your CSS files must be placed in a folder called **CSS**
- All the images that you plan to use on your site must be placed in a folder called **images**

Submission

- You are required to submit a zipped folder of your html page(s), CSS, and images on Blackboard.
- No late submissions will be accepted.

Instructions

- Please ask questions if you feel lost.
