## MISSION

The mission of this school-community partnership is to create a safe and supportive environment for students at [SCHOOL DISTRICT NAME]. This mission supports the mission of [SCHOOL DISTRICT NAME] by \_\_\_\_\_.

## STATEMENT OF NEED/PURPOSE OF AGREEMENT

In response to \_\_\_\_\_, the [SCHOOL DISTRICT NAME] conducted a needs assessment of its students. The results of this assessment indicated a high number of students reporting signs of mental health issues, substance use or abuse problems, and exposure to violence. In tandem with the needs assessment, the [SCHOOL DISTRICT NAME] conducted an asset mapping survey to assess what services and supports are available to the students in their school environment. The results of this survey indicated an insufficient number of staff to address students presenting with mental health problems, as well as a lack of information and inadequate knowledge about how to intervene with the reported problems. In response to the high degree of mental health needs of students and staff limitations in addressing those needs, the [SCHOOL DISTRICT NAME] and the [AGENCY NAME] have cooperatively designed a program that provides prevention, early intervention, and treatment services to the students of the [SCHOOL DISTRICT NAME].

During a 2-year period, objectives, which must be measurable are:

- Increase students' and staff knowledge of social and emotional development, mental health, and substance use.
- Decrease reported incidents of violence, substance abuse, suspensions, and absences.
- Increase the number of mental health referrals made by school personnel.
- Increase percentage of students accessing and receiving mental health/substance use services.
