

# **Z-Health - T-Phase Professional Certification Course**

**The high speed, practical assessments and drills in T-Phase are the keys to unlocking the body's sticking points and long-held neurological threat.**

T-Phase is the most diverse course of our core curriculum, and will address many systems from a neurological perspective: somatic, visceral, lymphatic, autonomic, sympathetic/parasympathetic, respiratory, peripheral nerves, scars, fascia, and more.

**Once your payment is complete for T-Phase, you will get access to the course materials, including:**

- Full Course Recording
- Course manual
- Course PowerPoint
- Research Archive
- Additional Course Modules

**Additional Registration Benefits include:**

- Live attendance at an in-person at no additional cost
- Reattend the live course for free, for life!
- Access to future updated material
