# TITLE OF THE ARTICLE

**The title should reflect the main substance of the study specifically, informatively, concisely, and should avoid uncommon abbreviations.**

**English title in Cambria, 14 pt, Bold, Center, Maximum 15 words**

***Judul Artikel dalam Bahasa Indonesia***

**AUTHOR(S), AFFILIATION, AND EMAIL**

Author names should be written in full, without academic titles or position titles.

**Format:**

**Full Name of First Author[1], Full Name of Second Author[2], Full Name of Third Author[3]**

1 Affiliation of First Author, City, Country
2 Affiliation of Second Author, City, Country
3 Affiliation of Third Author, City, Country
**Corresponding author: email@domain.com*

## Abstract

The abstract should be written in English in a single paragraph. It should briefly contain the background, objective, method, main findings, and conclusion of the research. The abstract should be concise, clear, and informative, with a length of approximately 150 to 250 words.

## Keywords

keyword one; keyword two; keyword three; keyword four; keyword five

## 1. Introduction

The introduction explains the background of the study, the legal or scientific issues discussed, the objective of the research, and the urgency or novelty of the article. Relevant references should be used to support the problem statement.

## 2. Research Method

This section explains the type of research, the approach used, the source of data, and the method of analysis. The explanation should be sufficiently clear so that readers understand how the research was carried out.

## 3. Results and Discussion

This section presents the findings of the research and discusses them critically. Authors may divide the discussion into several sub-sections according to the needs of the article. Tables and figures should be placed close to the related explanation.

**Table 1. Example of Table Format**

| No. | Aspect | Description |
|---|---|---|
| 1 | Aspect A | Description of aspect A |
| 2 | Aspect B | Description of aspect B |
| 3 | Aspect C | Description of aspect C |

*Source: prepared by the author(s).*

*Source: prepared by the author(s).*

## 4. Conclusion

The conclusion should directly answer the research problem and summarize the main findings of the article. It should be written in paragraph form, concisely and clearly.

## Acknowledgments

This section is optional. It may be used to acknowledge funding institutions, partners, or individuals who contributed to the completion of the research.

## References

References should be arranged consistently and alphabetically. If available, include DOI or URL.
