December Maintenance Report

- Over the Thanksgiving break, Middleton Heating and Air repaired the HVAC units that were down at Peake.
- Over Thanksgiving break, Nabholz replaced the 4 student size commodes with 4 adult size commodes in the teacher restrooms on the East side of the building.
- TIPS has approved the quotes from Ketcher and Company for the roof repairs at AHS. We are waiting for Ketcher and Company to get those repairs scheduled.
- We have auctioned off and sold all of the playground equipment and all of the leftover kitchen equipment that was left in the old Perritt Building.
- Besides the issues already mentioned, all other calls for repairs have been for just general routine maintenance issues.
