Warning Flags:

- 1) **PRICE.** Pomsky puppies under \$2500 is most likely a scam in the current market. Some real Pomsies may be under \$2500 but are usually low quality and untested.
- 2) **DISCOUNT.** Offering 30 or 50% off? Scam.
- 3) **AKC papers:** Pomsies are not recognized yet
- 4) Do they have a matching Facebook page and Instagram account?
- 5) Only pictures of puppies ready to go home. You don't see "the journey" of a puppy from newborn to 8 weeks.
- 6) Pictures of puppies all have different backgrounds.
- 7) Pomsky puppies go home at 8 weeks. Scammer sites that have all puppies at 10 wks is a clear sign.
- 8) Payments with Gift cards, Western Union, etc.

This doesn't cover Puppy Mills.

If a breeder is advertising more than 4 breeds, chances are they are a puppy mill. Websites like below, are full of puppy mills:

Lancasterpuppies.com

Buckeyepuppies.com

Greenfieldpuppies.com

www.pomskyforsale.net is a new site similar to Lancaster, loaded with scammers.

There's tons of information on Google. Do your due diligence.

What is a puppy mill and why should you not support them?

Pet Stores - Good breeders DO NOT sell their puppies to pet stores. Pet stores get their dogs from mass commercial farms or from puppy mills.

Support your small breeder by not buying from puppy mills.
