

A medallion on an embroidered imperial robe (above the head of a dragon), with the White Hare of the Moon, at the foot of a cassia tree, making elixir of immortality. The legend exists in various forms all through East Asia. Other cultures too.

The "Moon Rabbit" mixing the herbs of immortality. Deemed worthy of the honor due to his self sacrificing spirit and kindness to others. He is far above the "Dragon" who for all his worldly power and serpentine guile is bereft of the only power worth having. He is only an emporer!

Perhaps you have heard the same truth expressed differently, as great truths are often expressed in many ways, giving all opportunity to learn them.

1 John 3:16 "Jesus laid down His life for us, and we ought to lay down our lives for our brothers". Matt. 10:39 "Whoever finds their life will lose it, and whoever loses their life for my sake will find it."

The rabbit symbol means different things to different people. There is even a children's book where Donald J. Trump is [Thump](#) - a rabbit with blonde hair.

In the [PINK BUNNIES](#) organization, different animals and different colors have great meaning.

White Rabbits are very special. A White Rabbit serves both as a guide to the truth and a gatekeeper to keep out enemies. They must have a spirit of self-sacrificing love because it is quite possible they will be martyred.

While others can operate underground, incognito, disguised in whatever rabbit

hole suits their lifestyle, a White Rabbit must expose themselves to be effective. That carries risk to their person, their family, and the organization.

To mitigate risk, the individual must be expendable in the sense of having familiarity with the cells publically dispensed info, but no familiarity with any sensitive operational info.

Tripcodes with various consequences also act as a deterrent but still, a White Rabbit is prey to all kinds of forest creatures. It's "wabbit season" as Elmer Fudd said, as soon as you leave your hole.

It is in the Eastern tradition of the "Moon Rabbit" that the Spirit of self-sacrifice is represented. Serving as a Matrix-style guide, with an "Alice in Wonderland" connotation, is the preferred duty.

Gatekeepers are necessary, so the "White Rabbit" must also serve as the bait in ambushes and traps (which is the downside with an upside).
