

New functionality

Display prices in alternative currencies

Users of higher versions of GOL IBE (Enhanced, Enterprise) get the option to switch the displayed prices to alternative currencies. The booking is made and the travelers always pays the original amount in BSP currency but the user can see the conversion.

Settings in Admin Console

In AdminConsole, in the Dealer settings section, it is possible to add currencies separated by a comma. The conversion rate is regularly downloaded from the GDS.

Alternative currencies:

EUR,USD,PLN,AUD
