📖 Part 1: Read the Text

Read the paragraph carefully:

Recycling is very important because it helps keep our planet clean.
When we recycle, we use old things like paper, plastic, and cans to make new things.
This means we don't need to cut down more trees or dig up more metal.
Recycling also helps reduce trash in the oceans and on the land, which keeps animals safe.
It saves energy and helps stop pollution.
Even small actions, like putting a bottle in the right bin, can make a big difference.
Recycling is a simple way for everyone — even kids — to help protect the Earth.

🧠 Part 2: True or False

Circle **True** or **False** for each sentence:

1. Recycling keeps our planet clean.
   ➡️ True / False
2. We use new paper and plastic to recycle.
   ➡️ True / False
3. Recycling helps protect animals.
   ➡️ True / False
4. Recycling makes more pollution.
   ➡️ True / False
5. Kids can help by recycling.
   ➡️ True / False

✏️ Part 3: Fill in the Blanks

Use these words: **recycle – clean – animals – pollution – trees**

1. When we _____, we use old things to make new things.
2. Recycling helps keep the Earth _____.
3. Recycling helps protect _____ in the ocean and on the land.
4. It helps stop _____ in the air and water.
5. When we recycle paper, we save _____.

💬 Part 4: What Can You Do?

Write 2–3 sentences about how *you* can help recycle.

➡️ "I can _____."
➡️ "I put _____ in the recycling bin."
