October 6, 2024

Dear MHS Community,

We wish to express our appreciation for the information that has supported our investigation, an investigation that continues through our partnership with the York County Sheriff's Office. School and district administration will pursue appropriate RSU 57 School Board and legal remedies in holding those responsible for this situation accountable given the disruption and the adverse impact on the lives of our students, staff, and greater school community.

As always, we encourage our students, staff, and community to share reports of unsafe behavior as we move forward, especially related to this situation. Students should immediately report unsafe conditions to the closest trusted adult on the MHS campus. Lastly, for those of you who may possess information related to the writing in one of our boys' bathrooms last week, we strongly encourage you to utilize the [Say Something](#) anonymous reporting platform, which is linked above and on our school's website.

MHS staff are looking forward to welcoming students back to campus and returning to academic instruction tomorrow, Monday, October 7. As a reminder, tomorrow is a WHITE day in the rotation. We continue to apply every approach available to ensure a safe and supportive environment at MHS - your partnership and collaboration as a community is paramount to our collective goals. Additional representatives from the York County Sheriff's Office will join us first thing tomorrow morning to aid us in this ongoing effort.

Sincerely,

Dr. Stephen D. Marquis, Superintendent of Schools

Mr. Ty Thurlow, MHS Principal
