

DETCRMWIT

Hello everyone! My name is Skout, the mun of detcrmwit! It's nice to meet you all! I would love to talk about myself, but first I would like to share some rules with you all before any threads start!

- Rusty is a minor, 13 years old to be exact. I am also kinda picky with the character dynamics that he has, especially shipping. Rusty is a very special muse to me.
- This blog is non-mutual friendly, meaning I am willing to write with people that I have yet to follow! Just make sure to message me prior and we can plot together!
- I don't really have many triggers as of now, nothing comes to my mind that really bothers me in particular.
- While I am working on making Rusty's icons, most of the icon art for now is made by @noxatin
