## How future generations will experience climate change.

Someone born in 2020 will be 70 in 2090.

How much warming they live through will depend heavily on the choices we make this decade.

🌞 [Video: Bringing the Sun Home](#) - Utah solar supporters discuss the recent passage of legislation enabling **plug-in solar** in the state. (1:45:15)

[Scientists Explore Large-Scale Geoengineering To Slow Glacier Melt](#) - At a time when the impact of climate change is undeniable, some researchers suggest we need to start work on far more ambitious approaches for tackling these problems.

👨‍🌾 [Regenerative Agriculture: Five Ways We Can Save Our Soil](#) - Humans are directly linked to the land. For millennia, farmers have kept us healthy by growing food in the soil. Now farmers have another vital role: keeping our soil healthy to not just feed our future but to preserve our planet as a beautiful, benign, and productive habitat for all life on Earth.

[Why Burping Bovines Are A Big Climate Opportunity To Watch](#) - Belching cows release methane, a very powerful climate pollutant that is accelerating how fast the planet warms. Is it possible to help cows produce less methane, while helping farmers and the climate?

**VIDEO - [Rare Earth Element Waste](#)** - Rice lab's flash Joule heating extracts valuable elements from fly ash, bauxite residue, and electronic waste. (Facebook Video)

**VIDEO - [The Power of Big Oil - 3 part PBS series](#)** - Part One: Denial

**PODCAST - [Crisis and Change: Conversations With Leaders—Climate Solutions](#)** -

**PODCAST - [Climate One](#)** - Climate & Democracy With Jamie Raskin, Heather McGhee And Rebecca Willis

**PODCAST - [Outrage+Optimism](#)** - The Environmental Music Prize

## 4.16

**PODCAST - [America Adapts](#)** - Undocumented Workers, Wildfires and Climate Change with Dr. Michael Mendez

**PODCAST - [How to Save a Planet](#)** -

**PODCAST - [Crisis and Change: Conversations With Leaders—Climate Solutions](#)** -

**PODCAST - [Climate One](#)** - Breaking Down Climate Misinformation with Amy Westervelt and John Cook - 4/15 - Fossil fuel companies have spent decades casting doubt in public about climate facts that their own scientists validated in internal company research.

**PODCAST - [Outrage+Optimism](#)** - The Way Out is In

**PODCAST - [Pathfinding Through the Improbable](#)** - Drew Lanham's way of seeing and hearing and noticing the present and the history that birds traverse — through our backyards and beyond — is a revelatory way to be present to the world and to life in our time.

**STREAMED SERIES - [Solving for Zero](#)** - Explore the future of climate innovation. It covers everything from why the world needs to get to zero emissions to various ingenious solutions that people are working on. Bill Gates

## 4.9

**VIDEO - [Carbon capture: the hopes, challenges and controversies](#) | FT Film**

**PODCAST - [Crisis and Change: Conversations With Leaders—Climate Solutions](#)** -

**PODCAST - [Climate One - 3.26 - Coping With COVID And Climate Fatigue](#)**

**PODCAST - [Outrage+Optimism](#)** - the Future is Intersectional

**VIDEO - [This simple trick could prevent wind turbines from killing birds](#)** - In Norway, researchers painted one blade black, So birds were less likely to collide with it. The experiment was a success - bird deaths fell by 70% at the Smøla wind farm.

**VIDEO - [VW Beetle converted to electric in a day](#)** - We managed to convert this classic VW Beetle to electric in a day (LO) fascinating video of the process - it can be done!!

## 3.20

**PODCAST - [America Adapts](#)** - Much Ado about Climate Change: Theater as a Stage for Climate Communication and Inspiration with Playwright Crystal Skillman

**PODCAST - [How to Save a Planet](#)** -

**PODCAST - [Crisis and Change: Conversations With Leaders—Climate Solutions](#)** -

**PODCAST - [Climate One](#)** - Playing With Fire: Russia, Ukraine And The Geopolitics Of Energy

**PODCAST - [Outrage+Optimism](#)** -

## 3.12

**VIDEO - [The Francis Factor at Nine Years: Synodality and Solidarity, Reform and Resistance](#)** - This timely and lively discussion addressed the war in Ukraine; divisions in the Church; and Pope Francis' impacts and challenges with perspectives from the Vatican, the U.S.-Mexico border, Catholic University of America, and Georgetown.

**PODCAST - [Climate One](#)** - Turning Air Into Stone: Tech-Based Carbon Removal

**-PODCAST - [Outrage+Optimism](#) - Future of Food** - A food revolution is germinating across the globe. The linear model of growing, producing and distributing food is destroying nature, damaging human health and devastating farmers - and it is also a major cause of climate change.

## 2.26

**PODCAST - [America Adapts](#)** - explores the challenges presented by adapting to climate change, the global movement that has begun to drive change, and the approaches that are already working.

**PODCAST - [How to Save a Planet](#)** - Earthlings, we've got work to do. Climate change. We know. It can feel too overwhelming. But what if there was a show about climate change that left you feeling... energized?

**PODCAST - [Crisis and Change: Conversations With Leaders—Climate Solutions](#)** - Tonya Allen, president of the McKnight Foundation, and John Palfrey, president of the John D. and Catherine T. MacArthur Foundation, address the growing threat of a changing climate

**PODCAST - [Climate One](#) - [Cow Poop And Compost: Digesting The Methane Menace](#)** - Nationally, 37% of methane emissions come from cows. "Enteric fermentation" - a polite way of saying burps and farts - accounts for 27% of a cow's methane emissions. 10% is from manure

**PODCAST - [Outrage+Optimism](#) - [Every Country Could Be Carbon Negative With Erika Mouynes](#)** - "It doesn't matter what your economy is. It's just a matter of deciding of protecting your areas and committing to it."

## 2.19

**ON DEMAND FACEBOOK WEBINAR - [Like a Tree: How Women, Trees, and Tree People Can Save the Planet](#)** - In this talk, Jean Shinoda Bolen shares insights and ideas from her book 'Like a Tree'. Which grew out of her experience mourning the loss of a Monterey pine that was cut down in her neighborhood.

**VIDEO - [Zero-Emission School Buses: A Healthier Future for Children](#)**

**VIDEO - [EPA Administrator Michael S. Regan - Clean Energy and Protecting Communities | The Daily Show](#)** - This week, Michael Regan appeared on The Daily Show with Trevor Noah, where he spoke about his goals as EPA Administrator — making it clear that fighting for climate justice is his No. 1 priority.

**VIDEO - [Effects of climate change taking root in the wine industry](#)** - Farmers who grow the grapes have seen the effects of climate change in the soil, in the roots of the vines and the yields of their crops. (CBS 60 Minutes)

**VIDEOS - [60 Minutes climate change archive: What climate impacts](#)**

**PODCAST - The [America Adapts](#) podcast** - It explores the challenges presented by adapting to climate change, the global movement that has begun to drive change, and the approaches that are already working.

**PODCAST - [How to Save a Planet](#)** - Earthlings, we've got work to do. Climate change. We know. It can feel too overwhelming. But what if there was a show about climate change that left you feeling... energized?

**CLIMATE ONE - [The Enablers: The Firms Behind Fossil Fuel Falsehoods](#)**. PR firms, ad agencies, and law firms work behind the scenes to protect the fossil fuel industry and slow down the clean energy transition.

**OUTRAGE+OPTIMISM - [2% FOR 1.5](#)** - This week Yuval Noah Harari, historian and bestselling author, joins our hosts to talk about his new campaign focused on how investing just an extra 2% of annual global GDP in developing eco-friendly technologies and infrastructure would be enough to prevent catastrophic climate change, while also creating lots of new jobs and economic opportunities.

## 2.12

**VIDEO - [EPA Administrator Michael S. Regan - Clean Energy and Protecting Communities | The Daily Show](#)** - This week, Michael Regan appeared on The Daily Show with Trevor Noah, where he spoke about his goals as EPA Administrator — making it clear that fighting for climate justice is his No. 1 priority.

**PODCAST - The [America Adapts](#) podcast** - It explores the challenges presented by adapting to climate change, the global movement that has begun to drive change, and the approaches that are already working.

**PODCAST - [How to Save a Planet](#)** - Earthlings, we've got work to do. Climate change. We know. It can feel too overwhelming. But what if there was a show about climate change that left you feeling... energized?

**CLIMATE ONE - [THE ENABLERS: THE FIRMS BEHIND FOSSIL FUEL FALSEHOODS](#)** - PR firms, ad agencies, and law firms work behind the scenes to protect the fossil fuel industry and slow down the clean energy transition. Despite the industry having knowledge of the climate crisis as early as 1959, they continue to resist any change.

## 2.5

### VIDEOS -

**[3 questions to build resilience -- and change the world](#)** - Every moment of movement is a chance to become more aware of yourself and the world around you, says Zen Buddhist nun Sister True Dedication.

### PODCASTS -

**[Outrage + Optimism](#)** - O+O's inimitable hosts, Christiana, Tom and Paul, will soon be together again in conversation. How we've missed them. Find out what they're outraged and optimistic about as they survey the year ahead in our welcome to 2022 episode

**CLIMATE ONE - [REWIND: Should We Have Children In A Climate Emergency?](#)** - Climate disruption features in the headlines nearly every day, moving deeper into our personal lives. In these uncertain times, how do we weigh the decision of whether or not to bring more children into the world?

## 1.29

**CLIMATE ONE - [State of the Unions: Navigating Job Creation and Climate Change](#)** - Only about 10 percent of U.S. workers belong to a union. But in fossil fuel industries, labor groups are working to protect jobs and navigate the transition to a renewable economy. How can we ensure protections for good, family-supporting jobs in climate-friendly fields?

## 1.22

### VIDEOS -

**["Understory: A Journey Into The Tongass,"](#)** - New film documents threats to Tongass National Forest, need for protection (40 min)

### PODCASTS -

**CLIMATE ONE - [REWIND: Should Nature Have Rights?](#)** - Western law generally treats the natural environment as property, with all rights held by its owners. But more jurisdictions are making the argument that natural systems — from rivers to forests to glaciers — are entitled to their own legal rights to exist and thrive. (LO) Again, I listened to it while I compiled the Dump. Fascinating stuff!

### 3.5

From Tina and me - **FORESTS AND CLIMATE - Dogwood Alliance** I just listened to the Tedx talk from 2017. It is excellent. Thank you, Tina. This is a valuable direction for us, I think.

[Forests & Climate | Dogwood Alliance](#)

### 2.26

**U.S. Forests and the Climate Emergency | Danna Smith | TEDxAsheville**

Standing forests represent our best available technology for removing carbon from the atmosphere and storing it long-term. Meanwhile, the rate and scale of logging in U.S. forests for wood, paper and fuel, especially in the South, are among the highest in the world and have significantly contributed to the degradation of forests' ability to stabilize our climate.

<https://www.dogwoodalliance.org/our-work/forests-climate/>

### 2.19

From Carol H - **Forbes published an interview with Bill Gates**; some of it was on the 60 Minutes program, but it includes some more details of his recommendations and involvement in investments.

<https://www.forbes.com/sites/kerryadolan/2021/02/14/how-to-solve-climate-change-bill-gates-wants-you-to-know-two-numbers/?sh=f1ba596531fd>

From Greta - **Bill Gates Talking with Kara Swisher:**
