

# Research Study Note-Taking Template

## Instructions

As you read about the study, answer the questions below about each part of the study to help you organize your thoughts and make the most of the information.

## Before Reading

What do you want to find out by reviewing this study?

- While reading through the study information, I want to find out about...

## Key Terms

Which of the key terms do you want to remember?

- Terms that I want to remember are...
  - 
  - 
  -

## Introduction

Why did the researchers carry out this study?

- Researchers wanted to find out...

Why do you think it is important for education leaders and classroom educators to include families in technology discussions?

- Education leaders should include families in discussion about leadership, hardware, software, and large-scale assessments in order to...
  - 
  -
- Classroom educators should include families in discussions about using technology for teaching, learning, and classroom assessments because...
  - 
  -

## Research Methods

How did the researchers carry out this research study?

- Researchers followed three steps to complete this research study...
  - First, researchers...

- Second, they...
- Third, they...

How do you think including families from diverse backgrounds affects study results?

- Including families from diverse backgrounds in the study helps to...

## Results

What did the researchers discover?

- Researchers found out that education leaders...
- Researchers found out that classroom educators...

How do you think education leaders including families in the decision-making process influences the fair use and accessibility of technology and large-scale assessments?

- When education leaders include families in technology decision-making, ...
- When education leaders include families in discussions about technology accessibility, ...
- When education leaders include families in discussions about large-scale assessment accessibility...

How do you think that classroom educators including families in their teaching and assessment practices impacts the outcomes of students' learning?

- When classroom educators include families in using technology to personalize learning materials and lessons, ...
- When classroom educators include families in discussions about using technology for learning outside of school, ...
- When classroom educators include families in discussions about classroom assessment accessibility,...

## Conclusion

What did the researchers learn from carrying out this study?

- Researchers learned that it is important for education leaders and classroom educators to include families in technology discussions because...

What potential changes in family involvement with technology in education do you think may result from the findings of this study?

- As a result of what researchers discovered in this study, I think the following changes are possible...
  - 
  - 
  -

## After Reading

How can you use what you learned from this study in real life?

- I can use what I learned from reading through this study by...
