

Step 1: Click on Manage your Google account

Step 2: Turn on 2-Step Verification and Click on the App password below it.

Step 3: Generate an App password and copy it. (Hint, Choose mail and your OS)

Step 4: Configure the Notifications Channel in the Skedler application as shown below (**Note, Paste the generated password in the Sender's password box, the outgoing server is smtp.gmail.com, and the port will be 587**)
