

Leader in Me is a school program that aims to empower students to become leaders in their own right. The program focuses on teaching students the 7 Habits of Highly Effective People, a set of principles that can be applied to both personal and professional lives. The program is designed to help students develop a strong sense of self, leadership skills, and a positive attitude towards learning.

The 7 Habits are as follows: be proactive, begin with the end in mind, put first things first, think win-win, seek first to understand, then to be understood, synergize, and sharpen the saw. These habits are meant to help students develop a strong sense of personal responsibility and a positive attitude towards life.

One of the key goals of Leader in Me is to create a culture of leadership within the school. This is achieved through a number of different activities and initiatives, such as student-led conferences, leadership clubs, and community service projects. The program also encourages students to take ownership of their own learning by setting goals and tracking their progress.

In addition to its focus on leadership development, Leader in Me also emphasizes the importance of making connections between home and school. Parents are encouraged to get involved in the program by attending parent-teacher conferences and volunteering in the school. The program also provides resources for families to use at home, such as family mission statements and family goal-setting activities.

Overall, Leader in Me is a comprehensive program that aims to develop the whole student, both academically and personally. By teaching the 7 Habits and providing opportunities for leadership development, the program helps students become confident, responsible, and successful individuals.
