

Monthly SEO Support

Are you as tired as I am of seeing those confusing AF SEO support packages? (Honestly, *how* many times can a person say “report” or “dashboard?” 🙄)

Instead of letting you get ripped off by the latest SEO agency to hit your inbox, how ‘bout we set you up with monthly SEO support that will *actually* move the needle for your business?

Timeline:

3-month minimum commitment, then month-to-month

Pricing: \$500/mo

Deliverables:

- **Monthly SEO Report** delivered via Google Docs (with a Loom video explainer)
 - **Includes custom SEO Data Dashboard** (one-time purchase, & setup)
 - Reveals information like: website traffic changes, keyword rankings, heavily trafficked pages, & much more!
 - You don’t just get the data—I’m interpreting it for you. 😊
 - **Highlights opportunities for improvement** (i.e., fix broken links, add meta descriptions, etc.)
- Up to **3 pages available for review & SEO optimization** each month
 - This could be new *or* existing blog posts, landing pages, etc.
 - *\$100 per page for additional pages to be reviewed & optimized for SEO (as my schedule allows)*
- **Telegram/Voxer access** (for the month)

Process:

1. **Give Me Access:** In order to track all the things, you’ll need to share access to your analytics (Google Analytics & Google Search Console are most common), & your site (so I can make any agreed upon changes for your SEO).
2. **Gather the Data:** Once I’m in, I’m grabbing screenshots & taking notes! And pulling it all together in a beautifully organized, easy-to-navigate dashboard inside Google Drive.
3. **Get SEO Support:** You’ll receive SEO Reports monthly, but fear not! You don’t need to make sense of it all on your own. We’ll either meet for a video chat *or* you can connect with me for 1 whole week via Voxer/Telegram. Most clients use this time to ask questions about the report, get guidance to fix SEO issues, and/or optimize existing web pages or blogs.

This is NOT just about giving you the numbers & calling it a day! It's about empowering you & your team to make data-backed decisions that will benefit your business & clients for the long haul.

You in?! Yippie 🎉
