

DARKYDD TOS AND PRICE

▼ How to order ▼

Write me a note on FA/or DM via discord, don't forget what type of commission you want to order, references, all suggestions.

Payment goes via **paypal** or **credit/debit card** on **Boosty**; **Hypolink**; **Easystart**; **Lavatop**

ATTENTION! If you have realistic reference or references with shading please give me flat pictures of your char too, it is important to draw your char the right way.

▼ TOS ▼

1. Please, look closely at the sketch stage at the pose it will be possible to fix pose only at the sketch stage, at line stage look at the right details of char and all fixes can be done should be about right char details, and on flat color stage the right colors of your char. If you missed some mistakes on the line stage or will have another pose idea it will be impossible to change or fix it if it's already flat colors stage.
2. Please be clear with all fixes, the redline is always the best variant to show how exactly you want me to fix anything, but the clear and understandable text will be good too.
3. I do not do private orders at all. All my work will be posted publicly. The exception: if it's a gift for a friend on an important date, then art will be still published after the important date.
4. Feel free to post my artwork for you anywhere you want to, just don't forget to mention me as an artist.
5. You can't order line, and after that order coloring this line, and after that order add a BG on the same art. I work on art only once. And i will not change or fix finished arts even for payment.
6. If you don't have a reference or any art with your char it will have to add payment as design creation, i do not create/change designs without add payment.
7. I can complete artwork to a predefined date, but you must warn me about that right when you make an order. Min. 14 days for work without background, and no additional pay for that, but 20 days minimum for art with a background.

▼ PRICE ▼

You can see all types of commissions that i accept. If some position is not in price, then i will not accept it as a commission(example: i don't accept noncolored lineart order).
