

Abstract template for Membrane Biophysics conference using MS Word

First Author^{a*}, 2nd Author^b, 3rd Author^c and 4th Author^d

^a *Affiliation and address of first author.*

^b *Affiliation and address of second author, if different.*

^c *Affiliation and address of third author, if different.*

^d *Affiliation and address of fourth author, if different.*

The abstract for the Soft Matter Meet (SMM): Membrane Biophysics 2026 has to be prepared using the following template, utilizing MS Word, and uploaded in PDF format. The affiliations and addresses are to be written in single-spaced 11-point Times New Roman italics. The body of the abstract text (including references and tables) should be single-spaced in Times New Roman regular with a font size of 11 points. The abstract for SMM 2026 should be at most one page **including all text, references, tables, and figures**. Please note that **abstracts that are longer than one page will not be accepted**. The presenting author should be underlined.

Further Instructions:

1. The page margins: Top - 3 cm, Bottom - 3cm, and Sides - 3 cm for an A4-sized paper with text width and height of 21 cm and 29.7 cm, respectively.
2. The font to be used is 'Times New Roman' with justified side alignments. Font sizes are 14pt for the title and 12 pt for the author list, 11pt for text, and 11pt italics for figure captions.
3. No page numbering is required.
4. The title should be in bold characters.
5. References: See the reference below
