

OUR PHILOSOPHY – TAILORED SUPPORT HOUSES

Client centred

TSHS places each client at the heart of everything we do.

- We deliver flexible, creative and person-centred support designed to maximise opportunities for growth, independence and development.
- Our aim is to empower individuals to reach their full potential while promoting long-term wellbeing, stability and positive life outcomes.

Appropriate, meaningful support and Advocacy

TSHS delivers personalised support designed to maximise each client's opportunity to build confidence, develop new skills and achieve optimal levels of independence. We empower individuals to make informed choices, strengthen their autonomy, and ensure their voices are heard and respected at every stage of their journey.

Recovery, Rights, Respect

TSHS builds meaningful, therapeutic relationships and delivers personalised support that promotes recovery and long-term stability.

We are committed to upholding and advocating for the rights of those we support, treating every individual with dignity, respect and compassion at all times.

Inclusion, Identity and Integrity

TSHS actively promotes inclusion both within our homes and across the wider community. We support individuals to develop and embrace their own identity while fostering a strong sense of shared belonging.

Our approach is underpinned by integrity, ensuring that inclusion, respect and authenticity are embedded in everything we do

Non-judgemental

TSHS actively fosters a non-judgemental, compassionate culture and is committed to challenging stigma and reducing prejudice within the wider community. We work to break down barriers that may limit opportunity, ensuring the individuals we support are valued, understood and included.

Good Outcomes

Tailored Support Homes and Services (TSHS) delivers positive outcomes for clients, supporting their ongoing wellbeing and stability while enabling them to achieve their meaningful life goals.

OUR PHILOSOPHY – TAILORED SUPPORT HOUSES

Our why- the reasons why we offer support in the way that we do..

Because everyone deserves to live a full life	Because independence should be accessible to all- whatever that looks like	Because well being is the key to good living
Because differences should be celebrated	WHY	Because people need support in the form that is specific to them
Because where you have come from should not define your possibilities.	Because home should be a safe place for everyone	Because life skills need to be learned, developed and supported
