(00:01) yes all right class hello students of the conservative College I'm going to explain Ukraine in about three minutes for you there's an old political statement that says never let a crisis go to waste and sure enough the Democrats are going to take this Ukraine crisis and let me tell you how they're going to spin it get ready gas is currently \$6 a gallon in California the economy is a is crashing everywhere inflation is up 8% The Residency of Joe Biden is a colossal failure so here's why Russia is still being allowed to permeate the Ukraine border

(00:57) under no other Administration would this be allowed but now they're going to take this crisis and use it as a justification for the economy going south mark my words so I can come back and sing I told you so oh I told you so watch your news screens watch your TW your tweets you're going to begin to see Democrats using Ukraine as the excuse for a fallen economy they never waste a crisis so now as we go into the midterms they're going to now say that the reason the economy is so bad is because Ukraine they never waste a crisis but I

(01:53) don't want you to be deceived I'm GNA pull back the curtain for you tonight right now so that you can be prepared for the lies of the liberal left that's going to come at you every day starting today mark it down you're going to begin to see that the reason that gas is through the roof is not because of Biden it's a sacrifice that we must be willing to make right now to defend Ukraine otherwise Ukraine would have been shut down weeks ago we would have made one phone call and shut it all down but we're not going to do it

(02:37) because it is Biden himself that is promoting the Fiasco so that they can come back now and have a shield for their fallen economy but there's one problem Mr Biden and you need to know this well we're not the same dummies we were 10 years ago or even five years ago we've been awakened we will match our awakes to your woke any day of the week we know the truth we will never be lied to again we know how to find the truth and we understand you're a failure you should not even be where you are you are an absolute

(03:19) abysmal failure on not one level not two levels not seven levels but on every level God's going to expose your hand sir you're going to be exposed everywhere you turn as a failure because that's what you are so be aware dear Toto's Army never be in the dark be aware and know what's going on behind that curtain with that fake Wizard of Oz and now you know the rest of the story I love you all bye-bye
