

SL: Anger creates rich people INSTANTLY!

Hey %FIRSTNAME%

A lot of people in this world are angry, but not angry enough. Even when they are angry, they are angry in the wrong way. Most people get angry about irrelevant things such as politics, society, the economy, or anything that has literally no effect on them on a day-to-day basis.

The reality is that nearly everyone who does get angry either doesn't know how to use their anger or channel their anger in a productive way, which in the end leads them to nowhere in life.

I get it. They may think that the world has done them wrong and they're angry because of it, but the truth is that they're angry because:

- They drive an average car.
- They work an average job.
- And they're in average shape (AKA unfit).

So let me ask you, do you plan on doing something different? And if so, let me teach you how to channel that anger and focus it effectively, as I did once for myself. An infinite amount of energy and motivation was waiting for me, and it's all I needed to become rich. You will want everything your way, and you will want it INSTANTLY, so do yourself a favour and stop wasting your time being one of these people angry at the world and instead become rich now!

P.S Only those who channel their anger in the right, focused way end up being rich and making money so make sure that's you!
