

LESSON PLAN

Week of: April 6th - April 10th

Class: Math 1

Assignment Names:

1. Finding Mode
2. Finding Median
3. Finding Mean
4. Finding Range
5. Examining Number Sets

Lesson Activities

This Week Objectives/Goals:

Our goal this week is to review measures of central tendency, including mean, median, mode, and range. Here is a video on Math Antics if you want additional help:

<https://mathantics.com/lesson/mean-median-and-mode>

Activity/Outline:

You have three options for obtaining assignments. Regardless of what option you pick, all assignments are the same. As far as returning work, you can send the responses via Google Docs, you can scan and email the answers, or you can drop off your answers in the drop off box at the middle school.

Option 1: Direct Links to Assignments

[Math 1 Week 2](#)

Option 2: Google Classroom
