<https://sites.google.com/view/louisvilleweightloss>

## THE MEDICAL WEIGHT LOSS PROGRAM

Unlike many mainstream weight loss methods recommended today, our program does not revolve around performing a complete one-eighty change of your lifestyle. No fad diets, no starving yourself, no strenuous workout plans, and no surgery or medications.

Our protein-based therapy works by mimicking the naturally occurring processes in your body. There are many types of peptides found within the body each serving a unique function. Some of these peptides are responsible for telling the body that it is no longer hungry. By increasing the amount of these peptides in the body, you will feel fuller sooner and for longer. We also add B-12 to boost energy and increase your metabolism.

At your first appointment, you will meet with the weight loss specialists and discuss your medical history, any underlying conditions, your goals, and baseline stats. The doctor will set up a personalized weight loss plan and dosage. Most patients start out at a quarter dose and work their way up to the full dose. As your body adjusts to the increase of proteins, you'll find that mealtime becomes easier and easier. You will begin feeling fuller after eating smaller meals while maintaining your energy levels from the B-12. Our formula is a reliable long-term solution that reduces your appetite, curbs cravings and urges to overeat, and boosts your energy and mood.

**SCHEDULE A CONSULTATION**

Our clinic staff is friendly, welcoming, and willing to answer any and all questions you may have. The well-respected top weight loss doctor will meet with you at all of your scheduled appointments to monitor your progress and make adjustments to the plan if needed. The caring and compassionate team at the Louisville clinic is ready to go on this health journey with you. We offer our patients long term success through a doctor prescribed weight loss plan, no fads, no unrealistic rules, and no fictional supplements.

Call our Louisville clinic at (502) 309-2882 to schedule your weight loss consultation and join the hundreds of other patients who have had success on the program.

## Company Description

Louisville Weight Loss is a medical clinic in Louisville, KY that specializes in medical weight loss. The program helps patients lose weight without hunger, dieting or exercise. The plan is affordable, easy to follow and approved by the FDA. Call us today to get started.
