

Dear world leaders,

We are watching you to see what you can change in our world. We have remembered your promises to help against climate change. Ice caps are melting, animals habitats are being destroyed and we are worried for the future of the world. We are writing to encourage you to secure our futures. We think you should encourage...

These are things we can all work towards with your choices!

Our environment and the outdoors are important to us!
How important? Take a look at these photos of us
playing and learning outside! We have the right to learn
in effective ways.

Your choices can decide on our future.

World leaders, we are watching you. We hope you will
make the right choice!

Your sincerely, P5/6 (Written by Jenell and Dhriti)
