

Teacher's Guide to MAP Growth Testing

[NWEA MAP Teacher Login](#)

Prior to Test Day

- Each teacher will have to set up their own MAP test sessions. Remember that you need to create one session for Reading and one for Math. [Click on this link for how to set up the test session](#). Feel free to name your test session something simple and short for the primary grades, this will help expedite logging in.
- Please make a copy and edit this [MAP Proctor Slide Deck](#) with your specific testing information.

On Test Day

- Pull up the MAP test session on your computer. Make sure to write down your TEST SESSION NAME and GENERATED PASSWORD. *Note: the Session Password is an auto-generated, four digit number. This number needs to be pulled up on test day since it changes every time you open the test.*
 - [Click here](#) to access how to open up a test session, view page 4 in the slide deck.

During the Test

- Keep refreshing your MAP testing screen to CONFIRM students.
- See this [Proctor Guide](#) (page 3) to troubleshoot during the testing.

After the Test

- Please [update this document](#) if your student did not finish or did not take the MAP test.
 - Try to test the students who have missed the test another day with you. At this point, I don't think I will be able to run a MAP Makeup session due to not having space in the building.
- Please allow MAP overnight to upload the reports to your account.
- Here is a [MAP Reports Quick Summary](#) reference page.
 - To view MAP Growth Reports
 - Log in to MAP (left side on screen)
 - View Reports
 - MAP Growth Reports **there is information by the report giving a description*
