

Northern Waters Environmental School

ILP Proposal

Topic _____

Initial Information

It is important to conduct an initial search for information about your project topic before you delve deep into the project. This ensures that there is enough information for a successful ILP.

Be sure to use reputable sources for this initial search.

Write at least a paragraph about the initial information that you found about your topic. Be sure to use your resources to spell correctly and use proper grammar.

Rationale

An effective rationale has at *least* three good reasons as to why this is a good topic and essential question to study. These reasons should explain what you will learn, how you will learn core subjects through this project (English, social studies, science, and math), as well as how it will be a project that is bigger than yourself. How does it relate to sustainability? How will it help your community? How will you share your knowledge?

Your rationale should be at least a paragraph. Be sure to use your resources to spell correctly and use proper grammar.

What is your essential question?

Parent/Guardian Approval

Please read your child's proposal form and discuss the project with them before signing below. If you would not like your child to study this topic, please your child's advisor an email or call.

X _____
I have read and discussed rationale behind this project, and I approve further study.

Advisor Approval

X _____
I have read and discussed rationale behind this project, and I approve further study.
