

November 12, 2019

Dear Parents/Guardians,

We are currently studying the Native American tribes of Idaho. Each student has selected the project they wish to complete. This project is something they must create, make, or do. This will be completed at home.

Attached to this letter is the project your child has chosen along with some websites to reference from home. All of the websites I have provided have been previewed for appropriate content. The project descriptions link is under the "Idaho History" tab on our classroom website. If you are unable to have your child research via the Internet from home, please write me a note, and I can get paper copies for your child.

I ask that you connect with your child and encourage them to work on their projects at home throughout the next few weeks. **Projects will be presented in class on Monday, December 16, 2019.**

Please do not feel the need to purchase materials to create these projects. These projects can be done with recycled objects, paper, etc. You can come to me with any concerns about supplies, and I will do my best to get your family the resources needed.

If you have any questions or concerns, please do not hesitate to email, call, or drop by after school. My students are very excited to get their projects started!

Happy Learning,

Mrs. Rice
