REPORT

Shakti: Girl Child Day Distribution Event

Date: 11th October, 2024.

On **October 11, 2024**, the **IEEE HIT Student Branch** marked **International Girl Child Day** with the "**Shakti: Girl Child Day Distribution Event**". This heartfelt initiative was aimed at highlighting the importance of proper health and hygiene practices among underprivileged girls, empowering them to actively participate in their communities.

In the spirit of giving, the team distributed thoughtfully curated **gift hampers**, which included essential items such as **sanitary napkins**, **handwash**, and other personal hygiene necessities, to girls in the localities of **Haldia**, including **Gandhinagar** and nearby communities close to the **Abhinandan Boys Hostel**.

The primary goal of the event was to raise awareness about vital health and hygiene issues that affect girls, encouraging healthier lifestyles and fostering empowerment. This initiative was made possible through the funding raised by the successful "**Quiz-O-Feminine**", an online technical quiz contest held among the students of the institution.

The event concluded with a group photo, capturing the spirit of unity and service. Through **Shakti**, the IEEE HIT Student Branch reaffirmed its commitment to making a tangible difference in society, striving to inspire a brighter, more equitable future for all.
