SUPPORT LOCAL, WITH CONVIENCE!

Does your child play Saxophone or Clarinet? If so, then you know that they need reeds!

The reed is the fundamental source of the vibrations that create the sound of the instrument, much like the tires on your vehicle are what grips the surface to move it! Just like tires, the reed wears down over time and will need to be replaced.

Waldens Music, your **LOCAL** musical instrument and accessory store makes reed replacement easy and a breeze!

While some reeds can last weeks or months, it may not always be the case. The best sounding reed is always a fresh one! It is generally recommended to replace your reed every 2-4 weeks, in addition to rotating on a daily basis. Vandoren has a great explanation here:
