

20% Brainstorm

Consider the following questions:

1. What made you interested in the project in the first place?
2. What did you create over the course of the project?
3. What went well?
4. What challenges did you confront over the course of the project?
5. What did you learn by attempting your project?
6. Who, in the community, have you tried to help through your project?
7. What, if anything, do you believe is the value of projects where students have so much choice and freedom?
