

## Free E-books

Library Genesis - <http://libgen.rs/>

Project Gutenberg - <https://www.gutenberg.org/>

Z Library - <https://u1lib.org/>

Do your shopping when getting college text books!

1. Take a piece of paper and write down the ISBN numbers for each of your classes.
2. Look them up on the college bookstore website and get the price to rent them if that is an option. If not, then note the price to buy them.
3. Look at other options to rent/buy like Amazon Rental, Chegg.com, cheapesttextbooks.com are a few great options.

There's also another tab on the student page with books that are available for loan from the Robyne's Nest office. Not sure if they are still using the same versions but you can check.
