

Data Sharing Working Group - Jan. 24th Meeting

Attendees: Sarah, Grant, Miranda, Jocelyn

Agenda

- Data Sharing recommendations progress
 - Heading leads report on their progress
 - [Atlantic Canada Modelling Data Sharing Best Practices](#)
- SDM workshop made some progress on recording available datasets:
 - [modellingCoP_dataDirectory](#)
- Establishing milestones
 - Aim to wrap up our sections by the next meeting on Feb. 28th
 - Peer review each others' work by our last meeting on March 28th

Meeting notes

- Miranda raised the work of the SW NS Bioreserve (sp?) and she will pass along the contact info of Cliff Drysdale and the work that they need to aggregate dataset metadata
- Jocelyn did a demo of the prototype data catalogue website
- We have decided to fill out metadata in this spreadsheet ([modellingCoP_dataDirectory](#)) for all open datasets by our next meeting on Feb. 28th
- We will continue to work on our data-sharing recommendations. These will live as static pages on our data catalogue website
- We will aim to finish our data sharing recommendations by March 28th. We should have time for review from others during this period.
