Course Selections

Students should enrol in a well-rounded and complete program. Because we are a full-time school, students should take the courses that they require, then choose option courses to complete their program of studies. Course selections determine scheduling of courses, so it is important to plan strategically. **Changing courses once the schedule is set may not be possible.** Repeating failed courses in the second semester of the next school year may not occur because planned classes are not available. Students must have pre-requisite courses and prerequisite grades for all courses they select. Course selections will be based on final Semester 1 marks and current Semester 2 marks. However, should your mark improve over the course of the second term, changes to streaming can be made prior to the end of the year.

Please provide your marks from your core courses of your current grade level, including current grades if in progress.
