I am in Santa Barbara until Sunday (8/26) morning, and I would like to do any task for any person, to the best of my abilities, for free. I am a graduate of USCB, with a BA in Music Composition, have good computer skills (basic abilities in several programming languages, as well proficiency in Microsoft office software, etc.). I am a 22 year old male, with a fairly skinny body, but I am willing to attempt any sort of physical activity to the best of my abilities. Feel free to contact me to inquire about other qualifications I might have. You can email me, or reach me by phone: (831) 566 - 1155. It will probably be easier to reach me by phone.

Some limitations:

I have no money.

I have no transportation except walking.

I won't do anything that prevents me from doing something someone already asked me to do.

I also have the pictured basketball and novel, which you can have for free. I'm not as angry in real life as I look in those photos.

EDIT: Basketball is gone, novel is gone, but anything is still available.

Dear my colleagues,

Below is a message from our custodian workers' union organizing against the school administration's unilateral decision on work-shift changes.

Last winter I interviewed some of our campus custodial workers for my "Environmental Justice for janitors" paper, and I found out that since 2009 the school administration has forced many workers to take 2 a.m. shifts. According to the union, the admin will try to implement the 2 a.m. shifts among most custodian workers starting this fall (see the petition for details at <https://www.change.org/petitions/ucsb-fm-management-and-mark-fisher-senior-associate-vice-chancellor-allow-fm-custodians-to-continue-working-the-evening-shift>).

My interviews with custodial workers show that 2 a.m. shift workers have difficulties adjusting their bio-rhythm between day and night on Monday morning and Friday night. They also suffer a sense of loneliness (since they work at night alone on each floor). Besides, during the night the air-circulation system is off but opening building doors for air circulation is prohibited for security reasons. This poor ventilation condition can cause health problems among custodians who have to use two kinds of chemicals (soap and disinfectant) for several hours every night.

By using the budget crisis as the excuse, the UCSB administration has not only cut their wages and hours but also forced them to work at night, making them more invisible and placing them in more precarious and inhumane work environments.

Please take part in their struggle and show the admin that the custodians' workplace safety issue is deeply linked to everyone's well-being and the school's unilateral decision on the work schedule will make the campus a safer place for no one. Signing the petition could be a first step to show our solidarity.

Yours,  
Sunny Lim

Hello Eileen,

I wanted to give you an update on the issue with the shift change for the custodians. The change in schedule has recently been pushed back to the end of September. I first created a petition and was going to look for professors alongside custodians but it was really difficult with the schedules of the professors over the summer. I have created an online petition that we will be handing to Mark Fisher, the Senior Associate Vice Chancellor. The custodians and laborers are currently organizing and have passed around their own petition and plan to turn it in to Mark Fisher soon but we are worried that may not be enough so we are asking

for professor support as well. I have attached to this e-mail some of the personal stories of these custodians so that you can see how this change will greatly affect their lives and I am also sending you a link to the online petition.

<https://www.change.org/petitions/ucsb-fm-management-and-mark-fisher-senior-associate-vice-chancellor-allow-fm-custodians-to-continue-working-the-evening-shift>

Thank you and please let me know if you have any questions. Please feel free to forward this online to petition to other professors.

~Vanessa Guzman

“So can I ask the reason you are willing to do anything for anyone? Haha”

“Of course.  
I'm not just willing, I want to do this actively. It basically comes down to free time and my desire to be busy. Also it's great to meet people and to give. Also it's a really good way into situations I haven't been in before.

I could give a list of reasons, but that wouldn't really explain the purity of my desire to do anything for anyone without any hidden motive or expectation.”

“Okay okay I can see that. What are you going to do if someone asks you to do something in the sexual nature? Haha.

Title: Piece for Four Guitars in Scordatura

Summary:

Instead of any attempt at evoking a mood, feelings or a situation, this piece instead attempts to deal with the physical reality of the guitar and it's capabilities for sound production. Instead of attempting to escape into a fantasy of a situation more exciting than a music performance, this piece explores the sonic drama available in the resources of the guitar as a concrete object, with various subtle musical references to the types of textures that the guitar has been involved in historically.

"Cool im about five miles from u so would be easier to pick u up and bring u here rather than packing up table and carrying it in and out. That will just mess up my low back and glutes worse than they are from carrying my lid around. What time should i pick u up? I can teach u massage moves with u on table and then u can practice on me.

"Hey Ky,

I'm sorry that you went through all this trouble, but I'm not going to be able to do massage with you. I told my partner that we were going to do it, and she was uncomfortable with the idea, and I want to respect that.

I'm sorry you went through so much trouble.

Thanks,  
Eliot"

"Not a problem, eliot. You seem like a nice respectful guy. I wish you luck with your plans."

Title:(free stuff) Any Chore for Anybody, or various fruit tarts - ALL FREE

I am in Santa Barbara until Sunday (8/26) morning, and I would like to do any task for any person, to the best of my abilities, for free. I am a graduate of USCB, with a BA in Music Composition, have good computer skills (basic abilities in several programming languages, as well proficiency in Microsoft office software, etc.). I am a 22 year old male, with a fairly skinny body, but I am willing to attempt any sort of physical activity to the best of my abilities. Feel free to contact me to inquire about other qualifications I might have. You can email me, or reach me by phone: [\(831\) 566 - 1155](tel:8315661155). It will probably be easier to reach me by phone.

Some limitations:

I have no money.

I have no transportation except walking (currently in Isla Vista).

I have no computer of my own so it might take me a while to respond to emails when I'm already doing something, if you want to reach me sooner, then call me.

I won't do anything that prevents me from doing something someone already asked me to do.

All the fruit was harvested today off of local fruit trees:

- it's ok to contact this poster with services or other commercial interests

CHUANLI YUSHENG  
BANK OF EAST ASIA (CHINA)  
66 Huayuanshiqiao Road, Pudong,  
Shanghai, China

Dear Friend,

I am Mr.Chuanli Yusheng , the Vice President and Branch Manager of The Bank of East Asia (China), Huayuanshiqiao,Shanghai Branch. I know you may be wondering why I am contacting you for this despite all the friends and relations that I have but I decided to do this with an unknown person to avoid any form of blackmail in the future. Mr.Alvin Peter Kappelman Jr was an account holder with my bank branch. I have been his account officer for 11 years before his death. He died during the World Trade Center bombing in September 11 2001. Since his death, the management of my bank has made series of efforts to locate his family but all efforts were proved abortive. I also carried out series of research to find his family but it was confirmed that the mother who was the only surviving member of the family died at the hearing of the son's death. He was already divorced before his death and due to this fact; no one was able to claim the fund he deposited in my bank legally because there was no will to it. He had a secret dollar account with my bank worth the sum of \$9,300,000.00 (Nine Million, Three Hundred Thousand United States Dollars).

My purpose of contacting you now is this: My bank during the last executive board meeting resolved that if by the end of this year and there is no beneficiary to the said account, the account will be confiscated and the fund sent to the bank treasury and this is where I am interested in and wants you to come in: I want you to come in as the Next of Kin/Beneficiary to this account. I have all the titled documents to back your claim and as the Vice President and Manager of this branch, it is in my power to carry out any

form of verification on the beneficiary of the said fund and process the fund wire without any problem. I want you to know that this is legal, 100% risk free as all the titled documents would be changed to your name as the new beneficiary of the said funds, and the fund wired to any bank account you wish to have it wired to. Please note we shall share in the ratio of 50% for me, 50% for you. When the fund finally gets to your nominated bank account.

Thank you so much for your prompt reply to my mail. First let me state once again that I have been prompted to trust you and will depend on you to show me maximum trust, confidentiality and above all follow my instruction strictly. As you will understand the transaction is 100% success assured in as much as you follow my instructions, within a period of 5 banking days we will finish all the documentary aspect of this transaction and money transferred.

I will demand that you give me the privilege to handle the whole issue with my professional experience and position. I have to at this point ask for your sincere confidentiality, please assure me this and keep to it that the next person to you do not know about this transaction as we have to keep it highly confidential. You should know that I am working with the bank and a manager in that matter hence my position and job will be at risk should anybody know from your end.

The basic requirement here is that as you will know I do not want to let my bank know I am behind the transfer so all our communications will be restricted to email. I want to make something clear to you, the fact that I am the Vice President and the Manager of this branch does not guarantee the security of this transaction, whatever we are doing must be done under a very high level of confidentiality. We must pretend we do not know each other, you must never mention my name to any staff of my bank during and after this transaction. This is for our security and safety of this transaction. The issue of documentation is no problem; I will handle that as soon as we commence the transfer process. I reside in the banking quarters here in Huayuanshiqiao, Shanghai (China), and would want us to meet but our meeting will be under a very high surveillance to avoid being seen together until this is over. My bank has some secret security officers that monitor my movement as senior bank executive and I must play safe to avoid being interrogated. I am an American by birth and was transfer here in China from our head branch in Hong Kong. I am ready for this deal to be accomplished and I wish so from you. My bank will have this approved since everything about this deposit is with me and the fund in my branch.

On no account must you discuss this with anyone; whatever you want to ask me please do that by email and I will answer you immediately. The fund would be transferred through a more secured telegraphic wire transfer means with evidence proving the genuine source of the fund and you as the legitimate beneficiary of the fund and no government agency can stand against it. With my experience as a banker in financial matters, I will handle this.

Please get back to me today with the above stated information so that I will be able to

extract the deposit agreement and then make official application of the claim in your name and submit it to the board that meets once every week. As soon as I receive your assurance along with the information above, I will advice you on what next to do. For any question you may want to ask please send it to me by email, I am very ready to answer them. I am guaranteed that they will give the approval instantly as the money is in my branch. I do not want to write so much on the procedure so that you will not be confused but I inform you that it is simple and fast.

I will be waiting to hear from you today, respond to me today if you can so we can proceed. I sent you this mail not without a measure of uncertainty as to what the consequence entails. If you are interested, please send me your: Full names ,Age and address. Telephone and fax numbers. Where I can always reach you and also if the bank wants to reach you on phone) Finally, I shall furnish you with more information's about this operation.

Your Prompt response to this letter will be appreciated.

Kind Regards  
Chuanli Yusheng”

“Yeah that would be fine, where would you like to meet and when? My phone number is [\(831\) 566 - 1155](tel:8315661155), if you want to reach me during the day.”

“Hi Eliot

Friday after 5 could work if you're available...

Thanks,

Steve 683-2279”

“Yeah, that would great, especially if was before 7:30, I'm doing something at 8.

Thanks,  
Eliot”

“Hi Eliot,

Sorry for the delay...I couldn't get online to reply

I think my laptop has crashed so many times that corrupted files, fragments, and complications have me frustrated enough to consider it may be time for an upgrade.

The HP in question may be OK but the AC adaptor seems wobbly and the battery won't hold a charge. I'm pretty sure the port pin is stable, but why buy an adaptor for \$80 when a new notebook is so cheap now.

I bought a used battery that didn't last long so I probably need another adaptor and a "reinstall rescue"...

I can't get your first message to retrieve your # and I know you're leaving soon, but I could meet you at UCSB library or wherever you are if you can call me to arrange it.

Thanks,

Steve [805-683-2279](tel:805-683-2279)"

"Hey Steve,

I'm down to meet in the library at any point today or tomorrow; I'm leaving Sunday Morning. My number is [\(831\) 566 - 1155](tel:831-566-1155), but I'll send you a text message.

So you want me to format your hard rive (which involved deleting all the files on it and installing a new operating system)? If so, what operating system would you like for me to install for you? If you mean something else, let me know.

Thanks,

Eliot Burk"

"Hi Eliot

I'm not really sure and welcome advice, but the AC adaptor is not secure and will continue to cut out and crash since the battery won't hold a charge.

I appreciate your efforts

-Steve"

"I don't have any equipment to help you with your hardware issue, but if you'd like to format your drive, and reinstall windows I could do that for you. Or help you with any software issues.

Thanks,  
Eliot Burk"

## Your ad on Craigs!

"Hey you!

Just was on Craigslist and saw your post on the Creative section. Even though we aren't looking for the same thing necessarily, I always think networking is important with other people who post in creative because we all believe in the same thing. Creativity!

If and when you get a chance I would love to be friends on FACEBOOK!

<http://www.facebook.com/mkancler>

Again, It doesnt hurt to network I always like to think, and if I troubled you, I am sorry. Have a good night!.

Have a great night!

I made it with my friends Mike, Carolyn, and Robin, hopefully that's okay. If you want a different format let me know. If it doesn't work, let me know.

thanks,  
Eliot"

"Thanks Eliot. I'll have a listen."

"Eliot,  
This mix has a great distribution of songs I've come to like a lot, pretty good music, and songs that haven't done it for me. The only artist I was familiar with was Man Man (although I've heard Wuthering Heights, of course). The motto of my dad's favorite radio show ("Idiot's Delight," on WFMU, Fordham University Radio, I think) is "Respect the elders. Embrace the new. Encourage the impractical and improbable, without bias." I'm brewing a mix for you. Thanks.

## Finishing the computer help I started with you on Saturday

"Hey Erich,

This is Eliot. I began setting up some anti-virus and anti-malware software on your computer on Saturday, if you'd like me to finish it some time on Sunday, I would more than happy to do that for you. If you have any other problems I can help you with, let me know.

I seem to have lost my cell phone, which is very unfortunate, but you can still reach me through this email address.

Thank you,

Eliot Burk"

"Please give me a ring or reply ASAP. I will pick you up at Starbuck's.  
The earlier the better! Thanks, E"

"I can meet you any time today, with at least 30 minutes notice via email. Let me know when you want to meet and I can walk over to that Starbucks to meet you.

Thank you,  
Eliot Burk"

"How about 10:45?"

"Okay I'll be there at 10:50 about."

"I'll be there at around 10:55. See you soon. I'll give you a phone number you can reach me at when I get one."

"Hey Erich,  
I don't think I'm going to be able to meet you on Monday (tomorrow). If you have any more questions about your computer, feel free to email me, I hope everything works okay for you.

I'm heading up to Santa Cruz either tomorrow afternoon or Tuesday morning, so I probably won't see you again before I leave.

Best,  
Eliot Burk"

"Could I stop by your house to get the bottle I left there? It's very important to my girlfriend.  
I have a ride.

Thanks,  
Elliot"

"Sorry Elliot. I'm out of town."
