Please follow concert etiquette guidelines.

All Bands have worked very hard and want to create an aesthetic and thought provoking sense of awe from the audience. To achieve this goal, the Audience needs to create an environment, free of distractions, for both the audience and performers.

Action: -While music is being performed, the audience remains quiet.
-Please remain seated during performances (including children).
-If it's necessary to arrive late, exit during the performance, stand/talk/open wrappers etc., please do so between songs and during applause.
