1. Introduction *(11 pt, bold, left align)*

Journal KORIDOR uses an A4 paper size of 210 mm x 297 mm with upper, right, left, and bottom margins of 2 cm each from the edge of the paper with a single space paragraph. The font used is Times New Roman, and the length of the manuscript should not exceed 8 pages, including figures and tables (3000-4000 words). The title of the manuscript should be concise and informative and not exceed 14 words. Articles should meet the standard grammar requirement. Headings in English are organized as follows: Introduction, Methods, Discussion, Conclusion. Acknowledgments (if any) are placed after the conclusion and before the list of references. The appendix is only used when absolutely necessary to support the manuscript, for example, a questionnaire, citation of the law, transliteration of the manuscript, transcription of records, maps, drawings, or tables/charts of the results of the analytical calculations. Attachments are placed after the list of references.

1.1 Tables *(11 pt, italic, left align)*

All tables should be numbered with Arabic numerals. Every table should have a caption. Headings should be placed above tables, left justified. Only horizontal lines should be used within a table, to distinguish the column headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately. Below is an example which the authors may find useful.

Construction of references (11 pt, italic, left align)

This reference guide details methods for citing and formatting reference entries in accordance with principles established by the Publication Manual of the American Psychological Association, Seventh Edition (2020). For more information about APA style, visit <https://apastyle.apa.org/> and <https://apastyle.apa.org/blog> (Spacing after 12 pt)

1.2 Section headings (11 pt, italic, left align)

Section headings should be left justified, bold, with the first letter capitalized and numbered consecutively, starting with the Introduction. Sub-section headings should be in capital and lower-case italic letters, numbered 1.1, 1.2, etc, and left justified, with second and subsequent lines indented. All headings should have a minimum of two text lines after them before a page or column break. Ensure the text area is not blank except for the last page. (Spacing after 12 pt)

1.3 General guidelines for the preparation of your text (11 pt, italic, left align)

Avoid hyphenation at the end of a line. Symbols denoting vectors and matrices should be indicated in bold type. Scalar variable names should normally be expressed using italics. Weights and measures should be expressed in SI units. All non-standard abbreviations or symbols must be defined when first mentioned, or a glossary provided (Spacing after 12 pt)

1.4 General guidelines for the preparation of your text (11 pt, italic, left align)

Please do not change the margins of the template as this can result in the footnote falling outside printing range. (Spacing after 12 pt)

2. Method (11 pt, bold, left align)

This is the contain text of method.

2.1 The First Level of Heading (11 pt, italic, left align)

Heading level: first aligned text to the left and italic, with font-size 11. Each word should start with capital letters except for the conjunctions (title case). The distance between headings and text is 1 (one) space with 11 pt font size. (Spacing after 12 pt)

2.2 The Second Level of Heading (11 pt, italic, left align)

Heading level: first aligned text to the left and italic, with font-size 11. Each word should start with capital letters except for the conjunctions (title case). The distance between headings and text is 1 (one) space with 11 pt font size. (Spacing after 12 pt)

2.3 The Third Level of Heading (11 pt, italic, left align)

Heading level: first aligned text to the left and italic, with font-size 11. Each word should start with capital letters except for the conjunctions (title case). The distance between headings and text is 1 (one) space with 11 pt font size. (Spacing after 12 pt)

3. Discussion (11 pt, bold, left align)

All figures should be numbered with Arabic numerals (1, 2, 3,...). Every figure should have a caption. All photographs, schemas, graphs and diagrams are to be referred to as figures. Line drawings should be good quality scans or true electronic output. Low-quality scans are not acceptable. Figures must be embedded into the text and not supplied separately. In MS word input the figures must be properly coded. Preferred format of figures are PNG, JPEG, GIF etc. Lettering and symbols should be clearly defined either in the caption or in a legend provided as part of the figure. Figures should be placed at the top or bottom of a page wherever possible, as close as possible to the first reference to them in the paper. Please ensure that all the figures are of 300 DPI resolutions as this will facilitate good output. The figure number and caption should be typed below the illustration in 8 pt and left justified [Note: one-line captions of length less than column width (or

full typesetting width or oblong) centered]. For more guidelines and information to help you submit high quality artwork please visit: <http://www.elsevier.com/artworkinstructions> Artwork has no text along the side of it in the main body of the text. However, if two images fit next to each other, these may be placed next to each other to save space. For example, see Fig. 1.
