

NEW StudentVUE and ParentVUE Apps

There are two brand new apps for StudentVUE and ParentVUE available now in the App Store both for Apple and Android devices. These apps have been developed and modernized to optimize the end user experience and will be the only apps supported going forward. They allow for parents and students to see up to date information about the student's academic performance and other school related activities.

When the app has been downloaded the user must select the district they are wanting to connect to. They can allow location services to find their district, put in the zip code or enter the District URL by clicking Enter Manually.

Once you are connected to the district, you'll be prompted to login. You can select the applicable option.

Region 1 Schools

To login you will need to create an account and activate it. You will need an activation key provided by your school district. Do you have an activation key and would like to activate your account?

No

Already Activated

Yes

- **No** – Closes the application without login in. If you do not have an activation key and need one, you'll contact your district.
- **Already Activated** – Takes you directly to the login screen. Only select this option if you have already created a ParentVUE account and know your login credentials.
- **Yes** – Opens the Account Activation window to begin the setup process.

Login with your username and password. You can optionally have your username and password saved.

The image shows two side-by-side login screens for Edupoint School District. The left screen is for ParentVUE (purple header) and the right is for StudentVUE (green header). Both screens have a username field (containing 'ahilton' on the left and 'shilton' on the right), a password field, a 'Login' button, a 'Forgot Password' link, and a 'Login With Google' button. A red box highlights the username and password fields on both screens.

Account Activation (if you do not have login credentials)

If you do not have login credentials, the account activation screen will display. If your district has a privacy statement, you are prompted to read and accept the terms.
