

CLIMATE TECHNOLOGICAL CHALLENGES IN SCIENCE EDUCATION: INTERCULTURAL DIALOGUES FROM THE GLOBAL SOUTH.

Activities

It is with great enthusiasm that we welcome you to the **International Course “Climate and Technological Challenges in Science Education: Intercultural Dialogues from the Global South”** .

The course aims to promote critical reflections and intercultural dialogues on the multiple challenges faced in the field of Science Education in the context of the climate, technological and social crises that mark the Global South.

The course activities will be made available to participants along with the respective tables, according to the list of access links below.

Remember : The course will have a 40-hour certificate from UFRJ, upon participation in the activities with **60% success** , which consist of: subscribing to the RIEDECT Channel on YouTube, watching and enjoying the video conferences; completing the activities and the general evaluation of the course available in the electronic forms, referring to each panel.
