What you have read? What do you think of any of these? Any thoughts or observations, list anywhere below: • The Bluest Eye: They're always trying to ban this book • .Why the bible? Is it all of the violence? • I understand that some of the books are romances or violent but its hypocritical if they're keeping the bible • It's surprising that many parents would read the whole book, and we wonder if they do. • The Court of ... series by Sara Maas are pretty sexually explicit. I could see leaving this choice up to families to decide if their child is ready for that. • . • . • . • .Many of the challenges seem to have to do with themes of gender and sexuality; would be interesting to see what books have not been challenged • .Interesting that the reason for the challenge is not included for most • . • . • . • . • .
