

Albuquerque's #1 Carpet and Rug Cleaning Service

We carry out [Carpet Cleaning](#), both for tiles and rolls in offices, hotels, cinemas, private homes... No matter the surface or the condition, if the carpet is not damaged, we will recover it without a doubt.

The cleaning system is wet, there is no better way to dissolve the dirt that is inside, to later be able to extract it together with the germs, soap residue, etc. We eliminate 100% of solid residue from the interior, that is, your carpet will be as clean as the first day.

During the carpet washing process, in addition to removing all the dirt and stains caused by food, drink, pets, urine, dirt from outside, mud, intense traffic... we carry out a [complete disinfection and deodorisation](#) by applying germicides to the treatment. Keep in mind that germs are responsible for bad odors. We assure you that all odors will disappear, from tobacco, pets, humidity... and without masking them with air fresheners. They simply disappear.

Another very important and differentiating aspect of our system is that at the end of the wash, your carpet will be completely dry, clean, disinfected and deodorized. Ready for use. This is the only way to be able to assess the real state of the carpet once the cleaning process is finished, which ensures that stains will not appear, as occurs with systems that do not achieve immediate total drying.

It is evident that a professional service is one that, in addition to carrying out a total [cleaning of the carpet](#), offers a comprehensive service adapted to the needs of the client, this means that you do not have to worry about anything, we take care of moving the furniture, to adapt to their schedule, not to interfere with their work system, allowing them to carry out their activity with the minimum of inconvenience. In short, to apply everything that our clients have been teaching us since 1992.

If you need carpet cleaning for Offices, Restaurants, Hotels, Cinemas, Nursing Homes and Nursing Homes, in short for large carpet surfaces, we offer you the possibility of visiting them to prepare a budget adapted to your needs and the possibility of carrying out a fully customized demonstration. free and without commitment. We are sure that it is the best way to convince you.
