

Let me enhance your IG

What's up Nate, mate?

Looking at your recent video 'Effective Boxing Workout with Heavy Bag' I see inspiring dedication to your craft. Professional quality, clear speech alongside having crisp Boxing Technique.

I looked at your instagram to give you a follow. Your page has great motivation and training posts but I noticed a lack of information posts to help the lives of your audience.

To help a wider array of people I have ideas for different posts I can make for you.

I attached three pages of an example post.

Would you like me to send over the other pages?

Best regards
