

Article-11v12b - The Covid Cryptic XEC Super-Spreader - Super-Mutator Crisis -
There is an URGENT NEED for President Biden to Declare a State of National
Emergency and to call for Immediate Production of mRNA vaccines against the XEC
subvariant. 11v12b

Introduction:

There has been a rapidly evolving but Cryptic (Asymptomatic) COVID JN.1X
Super-Spreader - Super-Mutator Crisis that has already created 456 rapidly
mutating Sub-Variants, including the currently dominant KP.3.1.1 and XEC
Sub-Variants.

The new Covid Recombinant Variant - XEC - is now spreading and mutating rapidly
- but Cryptically (Asymptotically) - throughout the World with it's Average Daily
Prevalence now rising nearly "exponentially" to about 33% of all cases Worldwide.

There is an URGENT NEED for President Biden to Declare a State of National
Emergency and to call for Immediate Production of mRNA vaccines against the XEC
subvariant.

IMMEDIATE GOAL A Collaboration is proposed to Help Warn President Biden NOW -
TODAY - or before he leaves office - to Declare a State of National Emergency and to
call for Immediate Production of mRNA vaccines against the XEC subvariant

[illegible]

MOST URGENT -

President Biden can use this new global XEC.X Cryptic Super-Spreader / Super-Mutator Crisis - that includes the currently dominant XEC variant - to

1) Declare a State of National Emergency in the USA with Mask and Vaccine Mandates

Call for immediate production of mRNA vaccines against the and XEC subvariant.

2) also to use this global Cryptic Covid crisis to Declare a Strategic Initiative through the UN and WHO for an Immediate Enforced Ceasefire in both Gaza and Lebanon.

President Biden can help to Save the People of Gaza

and help end the current MidEast War

and I believe that we - the Invited Collaborators below - can greatly help him with this Multi-Investigator Collaboration project.

but we need to ACT NOW - TODAY!!

Through the **specific steps** described in the ***Proposed Creative Solution*** that is presented in this ***Covid-Gaza Ceasefire Project*** described below:

Invited Collaborators

**Dr. Harold Varmus,
Dr. Craig Mello,
Dr. Charles Rice.
Dr. Michael Osterholm,
Dr. Tom Maniatis
Dr. Michael Eisen
Dr. Stephen Elledge
Dr. Janko Nikolich
Dr. Ian Lipkin
Dr. David Levy
Dr. Tony Brown**

Dr. Louis Reichardt
Dr. David Ho

Dr. Ian Mellis
Dr. Yicheng Guo
Dr. Andrew Su
Dr. Laura Hughes
Dr. Karthik Gangavarapu

Introduction Part I: Article 11: The Covid Cryptic XEC Super-Spreader - Super-Mutator Crisis.

Article-11v11b - The Covid Cryptic (Asymptomatic) XEC Super-Spreader - Super-Mutator Crisis - there is an URGENT NEED for President Biden to Call for Immediate Production of mRNA vaccines against the XEC subvariant. 11v11b

Introduction Part II: The Covid-Gaza Ceasefire Project.

This is **potentially** a very powerful **Knowledge System approach** for

a **Proposed Creative Solution** to solve the **the Covid-Gaza Ceasefire Crisis**,

by **creatively linking** these **2 Key News Knowledge analyses** published by **Gnomics-KS** on the **Gnomics Google Workspace platform** in this:

Covid-Gaza Ceasefire Project.

1) Covid Gaza Article 11 v4 - KEY Covid NEWS "There is an Imminent but Cryptic (asymptomatic) Covid XEC Super-spreader / Super-Mutator Variant now spreading in Israel and Worldwide - Biden can ACT NOW - to Declare a State of National Emergency in the USA throughout Gaza and Israel and the Middle East 11v

2) [Covid Gaza Article 12](#) v5 - KEY Political NEWS - After the death of Sinwar, Netanyahu stated publicly that "The War can end tomorrow, but only if Hamas lays down it's Arms, and releases the Hostages" - and Biden can ACT NOW - to Declare a Strategic Initiative for the Proposed Creative Solution with an Enforced Ceasefire throughout Gaza and Israel and the Middle East 12v5

Proposed Creative Solution:

President Biden can use this combined Covid-Gaza Ceasefire Project:

I: to Declare a State of National Emergency in the USA based on this new Covid XEC Cryptic Super-spreader / Super-Mutator Variant Crisis

II: and then to Declare a Strategic Initiative for the Proposed Creative Solution with an Enforced Ceasefire throughout Gaza and Israel and the Middle East

****** The above points can all be made directly to***

Dr. Harold Varmus, and/or

Dr. Michael Osterholm, and/or

Dr. Charles Rice and/or

Dr. David Ho

for them to strongly advise President Biden to Declare a State of National Emergency based on the new Covid Health Crisis data

and then for them also to make a strong recommendation to Biden for an Enforced Ceasefire, either through the United Nations, or through the Declaration of a Strategic Initiative for an Enforced Ceasefire like those used twice during the Yugoslavia Wars in 1990s.

RESULTS:

Figures:

Figure 01: The graphic below is an **demonstration example** taken **Figure 04** from the **MS-04** about the **BQ.1.X Crisis**, which shows an **annotated screenshot** taken of an **Outbreak.info - Tracked Lineages Over Time WEB API tool** that has been programmed to show the **succeeding Alpha*, Delta*, Omicron*, and BQ. 1* labeled Variant Waves** since the **beginning of the Covid Pandemic**.

The (*) indicates that it is the **actively updated composite wave curve** that **actively lists** all of the **current Subvariants** for that **Variant**.

Figure 04 - The graphic below is an **annotated screenshot** taken of an **Outbreak.info Tracked Lineages WEB API tool** that has been programmed to show the **succeeding Alpha*, Delta*, Omicron*, and BQ.1* labeled Variant Waves** since the beginning of of the Pandemic. The (*) indicates that it is **actively updated composite wave curve** that **actively sums** the all of the **current Subvariants** for that **Variant**.

The **Hover Popup** (at right) **Tracked Lineages in the USA - with labeled (*) composite curves and BQ.1* hover** for the **BQ.1* curve** shows the text list of the **54 Subvariants** at that time.

During the **month** since that data was taken, **7 more BQ.1* Subvariants** have emerged in that **very rapidly mutating BQ.1* lineage**, so that the are **currently** a total of **63 BQ.1* Subvariants**.

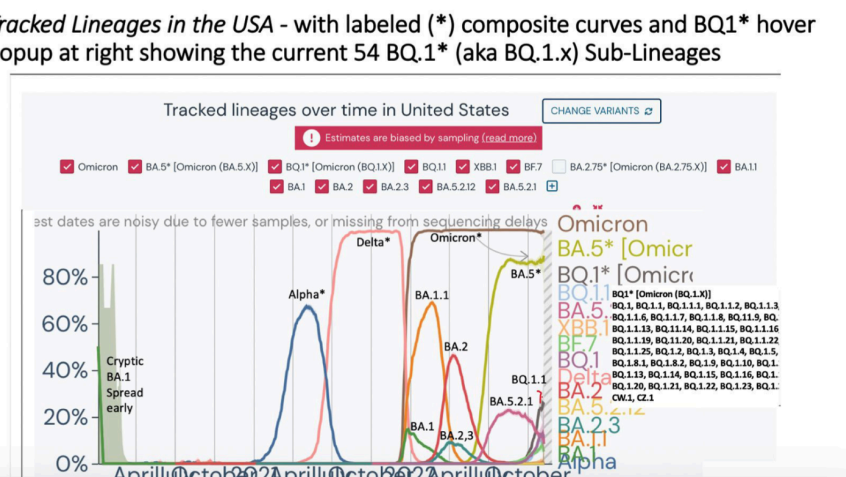

Figure 02a - CDC Nowcast - shows **CDC Nowcast for the USA - Nowcast Estimates in United States for 9/29/2024 - 10/12/2024** -

**KP.3.1.1 at 57.2% and
XEC at 10.7%**

These CDC results are very **comparable** with the **Outbreak-Info data** shown in the next **Figure 02b0 Tracked lineages over time in the United States**

**KP.3.1.1 at about 50% (top right) and
XEC at about 10% (bottom right).**

*** This **confirmation** of the **Outbreak-info Data** with **CDC data** is important since many readers may not be familiar with the **Outbreak-info Tools**.

HHS Region:

USA

Data for the 2-Week Period

Ending on:

10/12/2024(Nowcast)

This shows weighted and Nowcast estimates for the United States. The table and map show estimates for the 2-week period ending 10/12/2024.

Weighted and Nowcast Estimates in United States for 2-Week Periods in 6/23/2024 – 10/12/2024

Nowcast Estimates in United States for 9/29/2024 – 10/12/2024

Hover over (or tap in mobile) any lineage of interest to see the summary of variant statistics for that lineage's estimate.

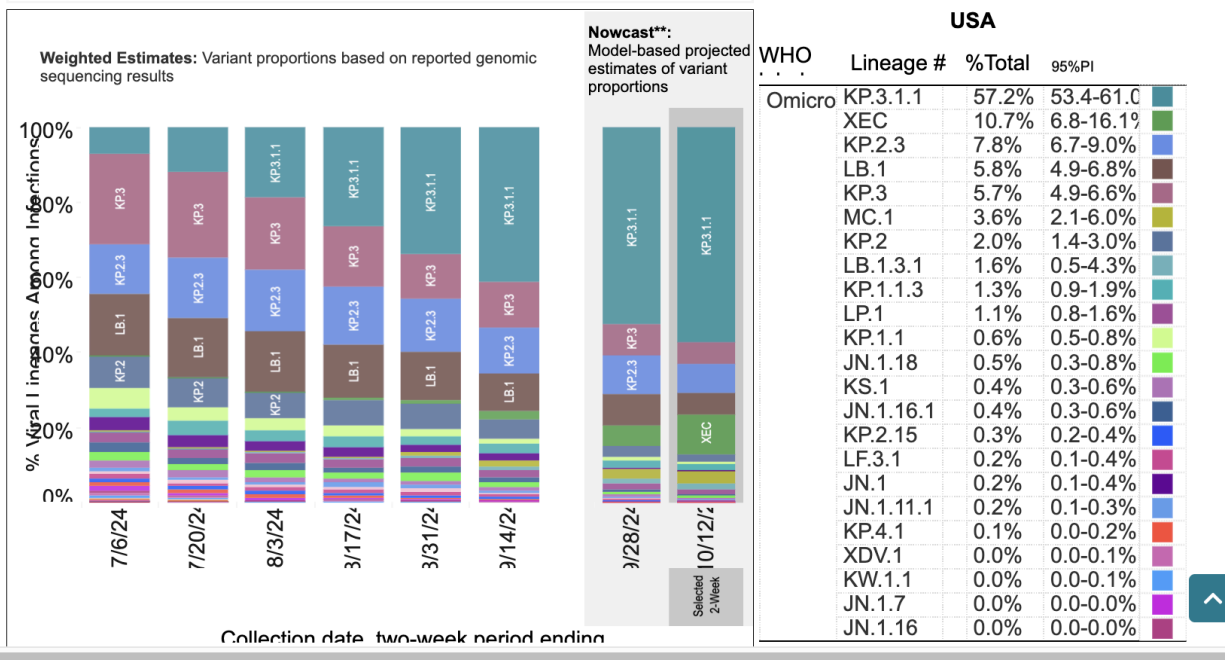

Figure 02b - 2024-09-28 - *Tracked lineages over time in the United States* - over last 1 year - *KP.3.1.1* at about 50% (top right) and *XEC* at about 10% (bottom right). png

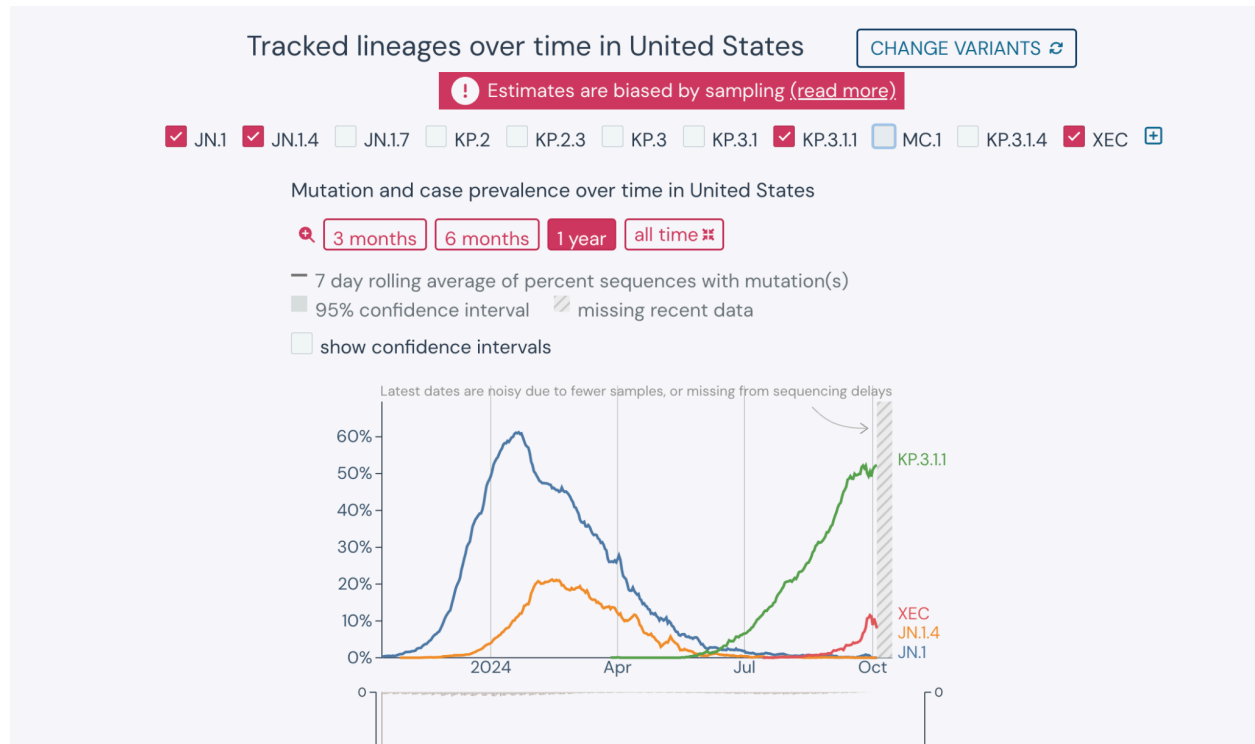

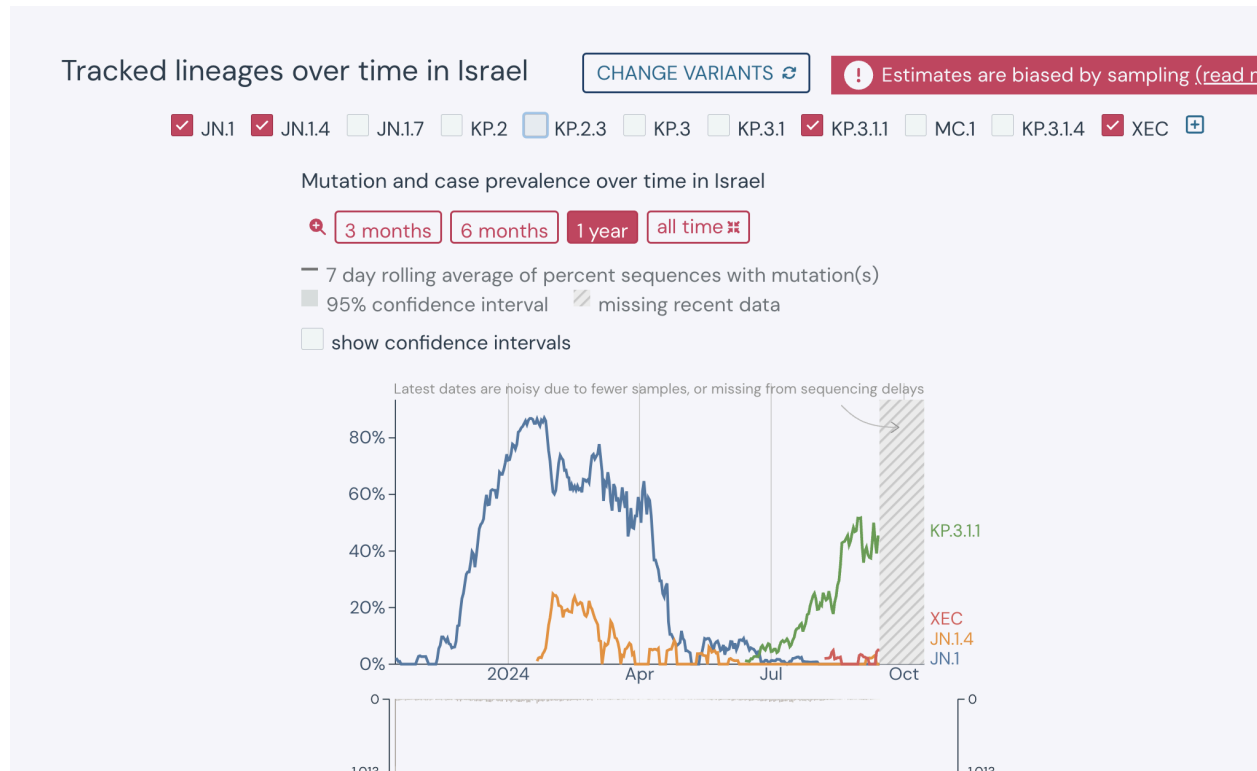

Figure 03 - 2024-09-28 Tracked lineages over time in Israel over the last 1 year - v1 -
No selection - **KP.3.1.1** at about **40%** (top right) and **XEC** at about **5%** (bottom right).
png

By contrast, the **first 75% of that total** had taken **10 months** to create since the **single JN.1 variant** that was present in the **January 10 2024** Data Update

Figure 05v3 - Extremely Rapid 20X Mutation Rate of the currently dominant KP.3.1.1 Variant for the expanded Variant | Tracker.

In just 16 days from Sept 3 2024 to Sept 19 2024,

Left panel - Sept 3 2024 - the KP.3.1.1 Variant Lineage has only 1 Sub-Variant MC.1

Right panel - Sept 19 2024 - the KP.3.1.1 Variant Lineage now has 20 Sub-Variants

MC.1, MC.2, MC.2.1, MC.3, MC.4, MC.5, MC.6, MC.7, MC.8, MC.8.1, MC.9, MC.10, MC.11, MC.11.1, MC.12, MC.13, MC.13.1, MC.14, MC.15, MC.16

That is a 20X Mutation Rate in just 16 days for the KP.3.1.1 Variant !!

and four of those new Sub-Variants have already mutated to start creating their own

KP.3.1.1.X Sub-Variant Lineage -

MC.2.1, MC.8.1, MC.11.1, MC.13.1,

in just 16 days!!

| WHO: KP.3.1.1* (KP.3.1.1.X) | WHO: KP.3.1.1* (KP.3.1.1.X) |

Figure 06: the currently dominant KP.3.1.1 Variant has already reached 53% Worldwide.

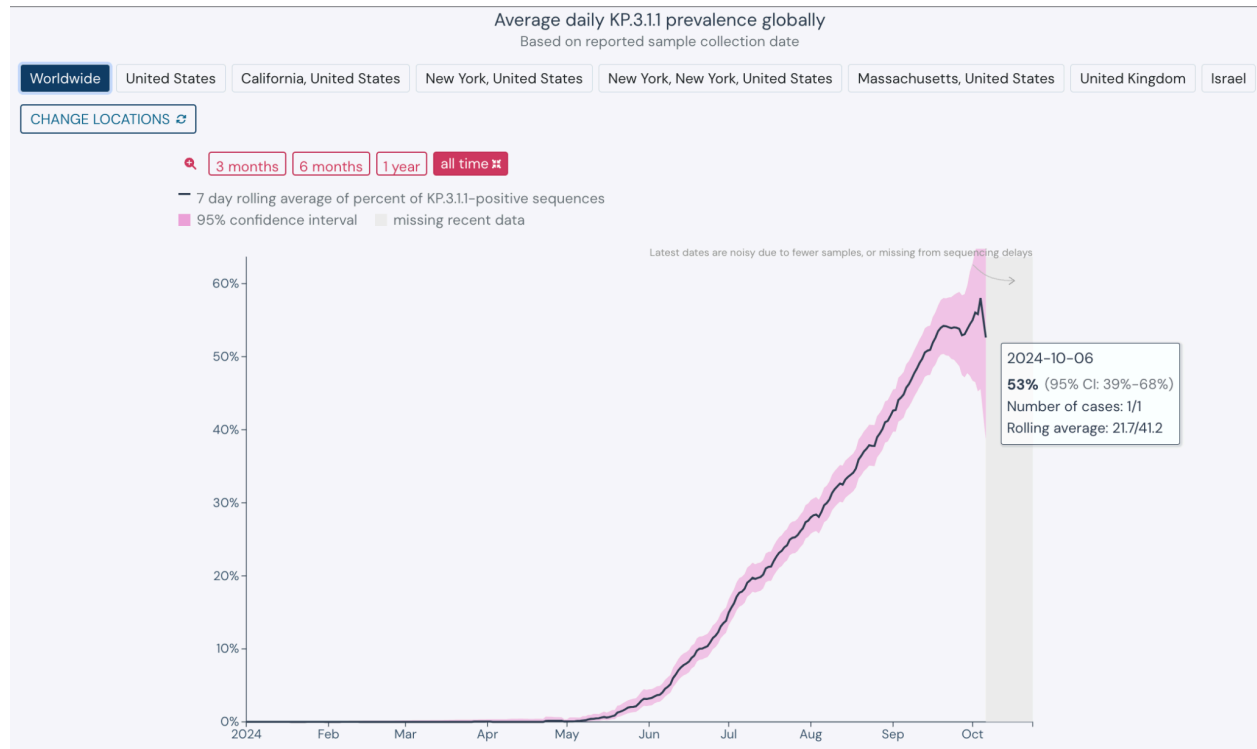

Figure 07: the *currently dominant KP.3.1.1 Variant* has already reached **52% in the *United States*.**

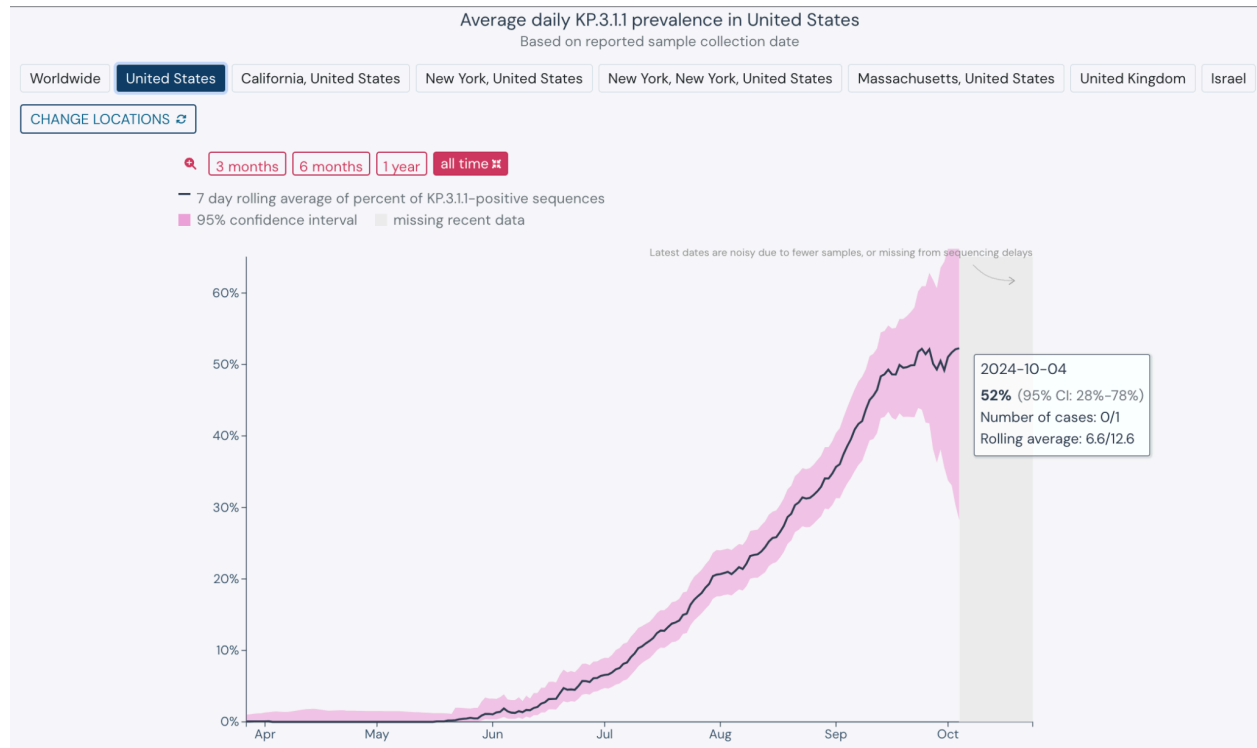

Figure 08: the currently dominant KP.3.1.1 Variant has already reached 45% in Israel

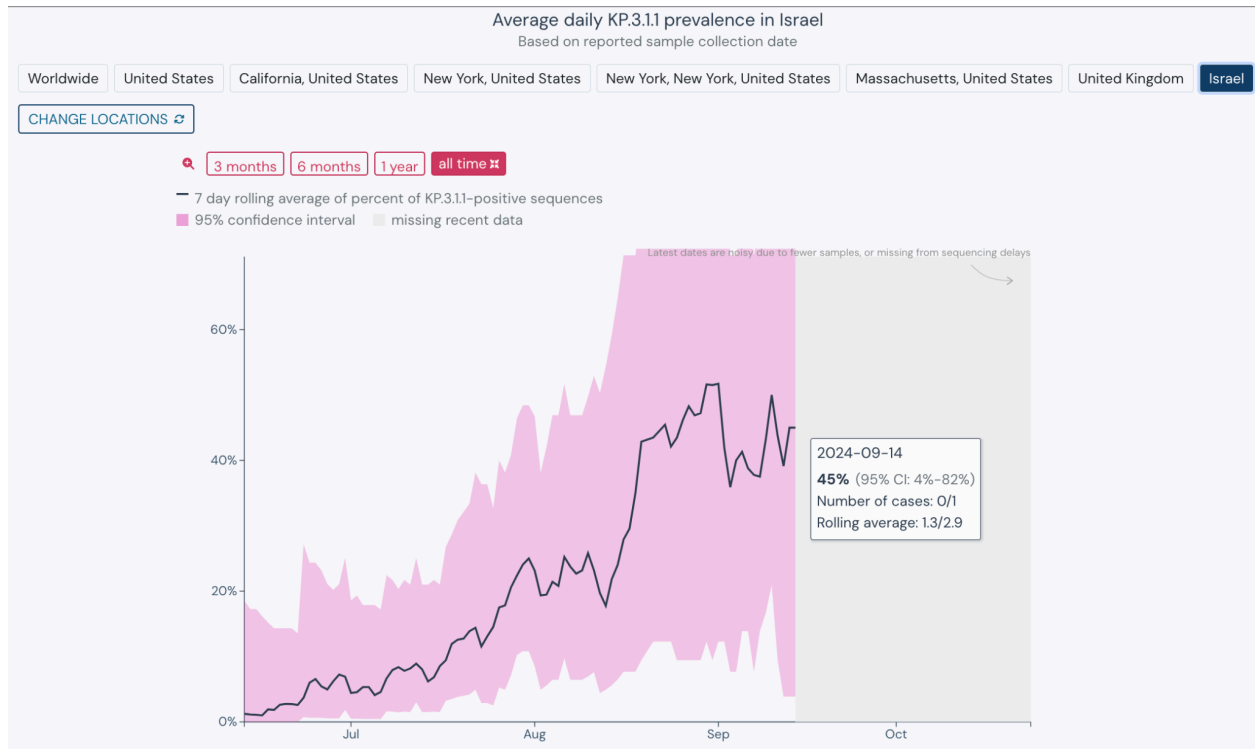

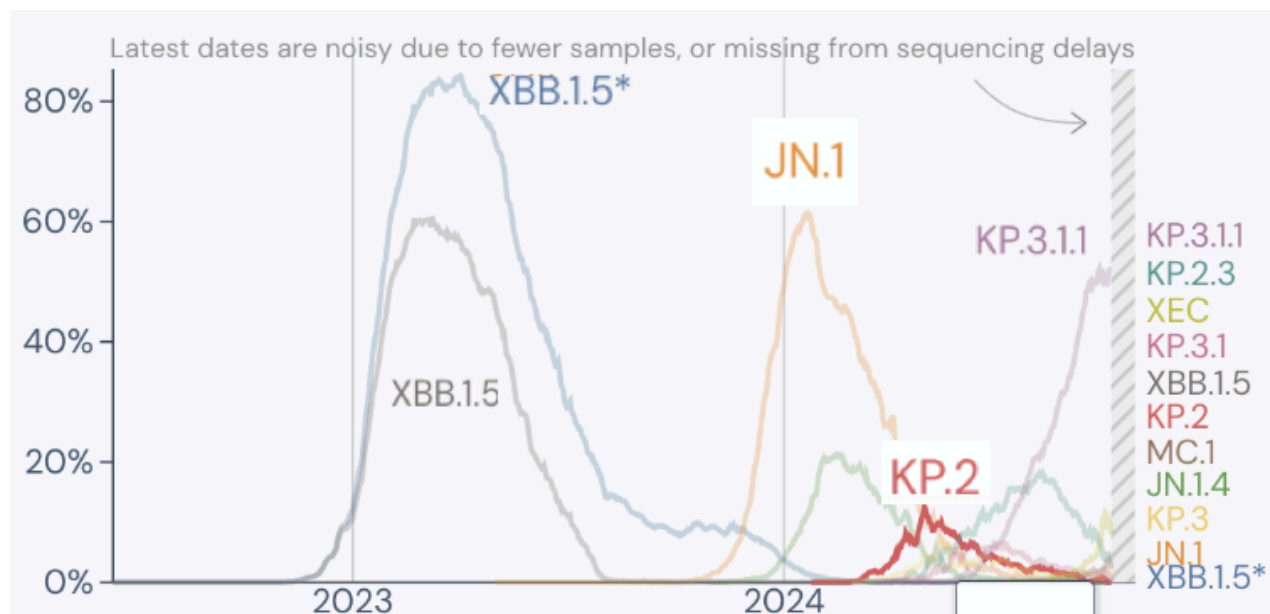

Figure 08 - Average daily KP.3.1.1 prevalence v8 - in Israel - KP.3.1.1 at 45% in Israel
- Oct 11 2024 Data Update

Figure 09 Clear preliminary evidence that that the *KP.3.1.1* subvariant is apparently evading the current *anti-KP.2* vaccines.and

***** This new graphical Covid Variant Wave data for *KP.3.1.1* in Figure 9 should be able to convince Covid experts - and then for them to strongly advise President Biden - that there is an URGENT NEED to make a new mRNA Vaccine against the *KP.3.1.1* variant,**

Screenshot of *Tracked Lineages Over Time* in the United States showing the series of succeeding Super-Spreader Variant Waves (from the Outbreak.info Web API

2024 data (right half of this Time line)

In fact, the **KP.2** wave was rather **modest in size** and **short in duration** with **KP.3.1.1** now **rapidly out-competing** (“out-spreading”) the **KP.2** variant
The most recent **KP.3.1.1** variant has rapidly become **dominant** in the **USA** and throughout the world, including **Israel** and certainly in **Gaza**

***** This new graphical Covid Variant Wave data for *KP.3.1.1* in Figure 9 should be able to convince Covid experts - and then for them to strongly advise President Biden - that there is an URGENT NEED to make a new mRNA Vaccine against the *KP.3.1.1* variant,t,**

and later also against the XEC variant, because XEC is now clearly starting to out-compete *KP.3.1.1*. in the United Kingdom as here in Figure 10a -

2023 data (left half of this Time line)

XBB.1.5 at the left, which peaked at about March 2023 /

XBB.1.5* (also called **XBB.1.5.X**) which has **mutated rapidly** to contains **251 subvariants**

Both of the **Pfizer** and **Moderna mRNA vaccine updates** in 2023 were made against this **single XBB.1.5 variant** because of this **strong wave peak**, with the belief that most of the **strongest new variants** would be **derivatives** of this **parental variant.**'

However, clearly the **JN.1** and later variants were not were able to **evade** or escape from the anti-**XBB.1.5 Vaccines**

Figure 10a - *XEC* clearly appears to be starting to out-compete *KP.3.1.1*. in the *United Kingdom*

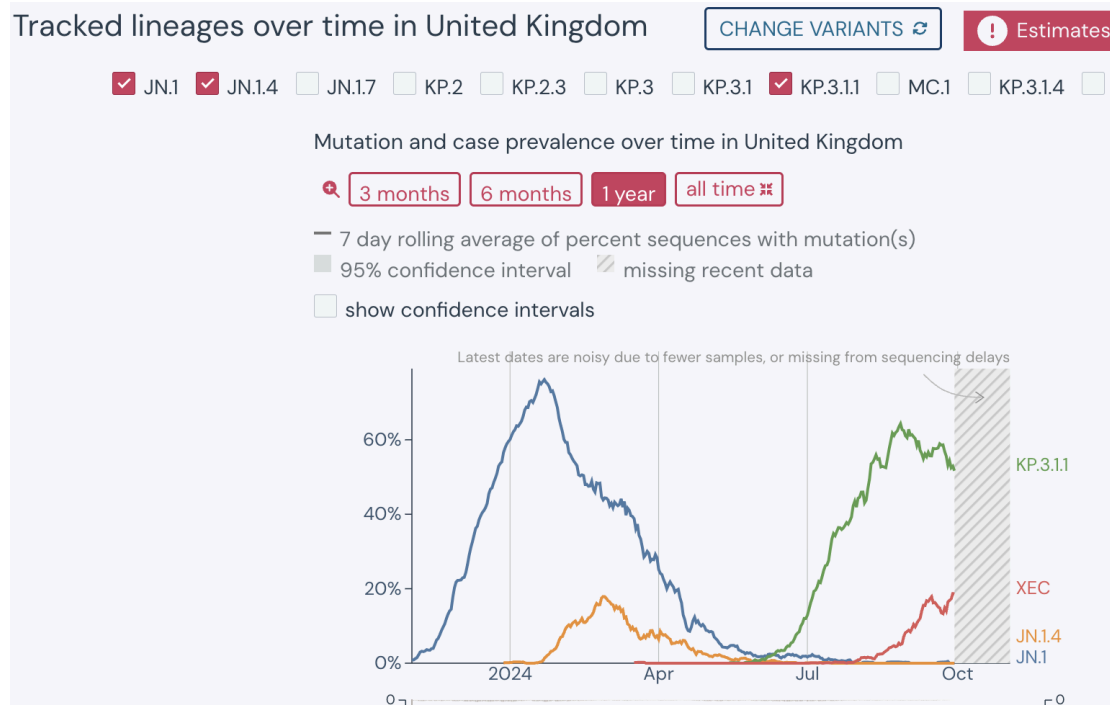

Figure 10b - *XEC* is not yet clearly starting to out-compete *KP.3.1.1*. in the *United State*

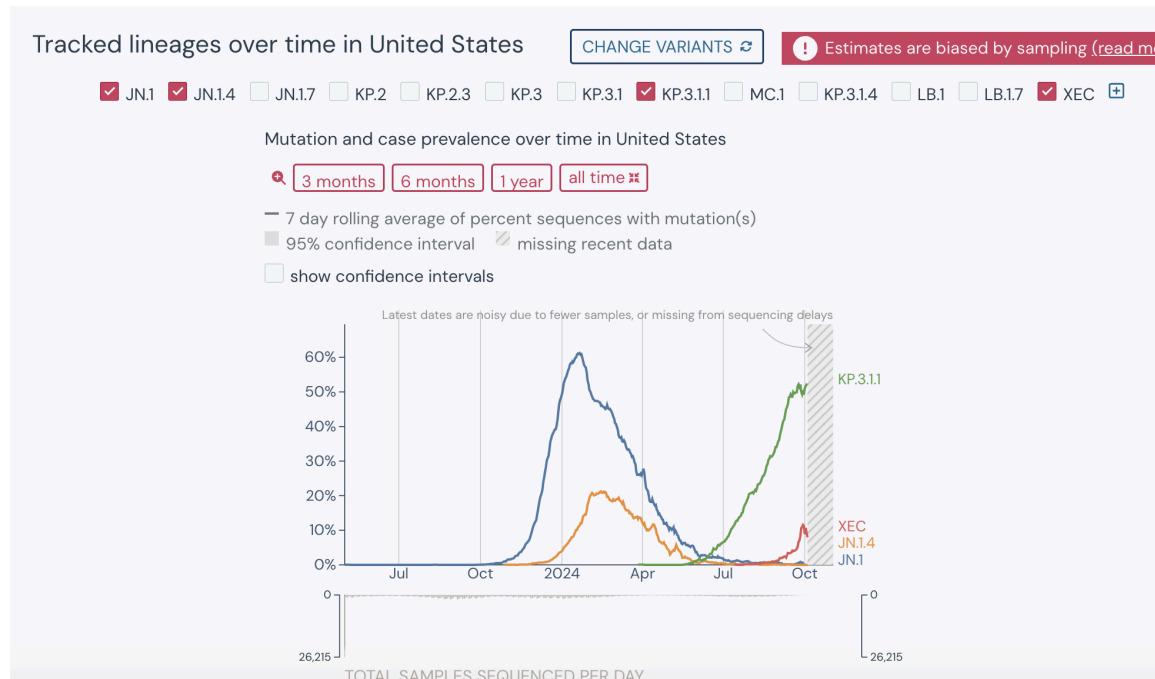

Figure 11 from **Article 11v11c** - where this Figure is described in much more detail.

DISCUSSION: History of Collaborations and Proposed Collaborations with Various Pew Scholars in the Biomedical Sciences and other non-Pew Biomedical Scientists

Next Steps for v8:

1) The Covid Super-Spreader / Super-Mutator Intrinsic Replication Mechanism

It has turned out that the ***1000X mutation rate mechanism*** that was **predicted** in the **December 22 2022 Email** to **Michael Osterholm** for every **Delta positive** person, has created the subsequent firestorm of mutations and more and more likelihood of *creating a "Doomsday Variant" that is spreading and mutating so fast that it cannot be stopped,*

Explanation for the long and repeated delays in follow Sequence of 5 Omicron Super-spreader / Super-mutator Crises in 3 months:

Michael, Craig and Charles, please realize that for the **past two years**, I ended of being ***blocked twice*** from **applying** for a **Pew Innovation Collaboration Award** because of the ***very rapidly evolving - ie rapidly mutating - Covid variant lineages*** that can also be **given new radically different=** for example, the closely related **BA.2.86.1** and **JN.1 variants** (aka "**Alphabet Soup**").

In 2023, I was working with **Kara Coleman** - *who was very responsible and helpful* - to get an **application submitted** in time for the **Pew Innovation award deadline**.

But last year I had the **very same problem** of being ***repeatedly delayed in submission*** because the ***virus kept mutating*** and a ***new Super Spreader Variant emerged in almost every Data Update*** with seemingly ***unrelated names!!***

Craig, I sent an **email** to **you** and **Kara** about this **problem** on **March 5 2023** that described this problem.

March 5 2023

EMAIL MESSAGE to **Kara Coleman** and **Craig Mello**

Subject

MOST URGENT - Please Confirm Receipt re: 3 Covid Crisis-related

Requests: Please review **ASAP** this URGENT **Covid Super spreader Crisis information** for the following **3 purposes:**

- 1) as a **late submission** for the **Pew Innovation Fund award**,
- 2) to **confirm** whether it should be **sent ASAP** to **President Biden** with a call for **IMMEDIATE ACTION** ;
- 3) If **not accepted** for **Pew Innovation Fund review**, please **recommend** some **other source** of funding from Pew or other specific sources.

...

...

2) Sequence of 5 Omicron Super-spreader / Super-mutator Crises in 3 months:

There were **5 major new Variants of Concern** emerge since the **December 9 2022 email** to **Craig Mello** with the **Proposed Collaboration** to **design** and **create a Dominant Negative ACE2 Receptor**,

These new **Variants of Concern** which had **created 5 major new**

Super-spreader / Super-mutator Crises, often starting in the **New York area**

Crisis 01 - BQ.1.X Super-spreader / Super-mutator Crisis - Dec 19 2022 Data Update

Crisis 02 - XBB.1.X Super-spreader / Super-mutator Crisis - Jan 09 2023 Data Update

Crisis 03 - BA.2.75.X Super-spreader / Super-mutator Crisis - Feb 17 2023 Data Update

**Crisis 04 - XBB.1.5.X Super-spreader / Super-mutator Crisis - Feb 21 2023
Data Update -**

NOTE: this is just **4 days** since the **Feb 17 2023 Update** but there is now a **new dominating Variant**, with an ***apparently completely unrelated Name!!***

**Crisis 05 - XBB.1.5.7.X Super-spreader / Super-mutator Crisis - Feb 24 2023
Data Update -**

NOTE: this is just **3 days** since the **Feb 21 2023 Update** but there is now a **new dominating Variant**,

I specifically addressed **Crisis 01 - BQ.1.X Super-spreader / Super-mutator Crisis** in an **email** sent on **Dec 23 2022** to **Pew Scholar Tom Maniatis, Harold Varmus** and **Michael Osterholm**

Maniatis cc Varmus Osterholm - Dec 23 2022 URGENT: 3 related things:

- 1) Please help me get this *URGENT Omicron BQ.1.X crisis info* to *Harold Varmus* today to *warn Biden* ;**
- 2) *Pew Scholars Innovation Collaboration* application ;**
- 3) *NY Genome Center job application* for a *Technology Innovation program PDF***

I also specifically addressed **Crisis 01 - BQ.1.X Super-spreader / Super-mutator Crisis** in an **email** sent on **Jan 20 2023** to **Pew Scholar Michael Eisen**

Eisen - Jan 20 2023 Email - Followup Email for recent phone message - *Potential Pew Scholars Collaboration on Computational Analysis of Covid Super-spreader Variant Evolution throughout the Covid Pandemic.* PDF

That **Eisen - Jan 20 2023 Email** PDF has now been added to the specific set of now 6 PDFs of previous Email messages.

3) Mathematical / Computational Analysis of Covid Super-spreader Variant Evolution

As shown in my **Resume**, my **PhD** at **U.C. Berkeley** was in **Biophysics**, in which we were **taught how to rigorously** apply very carefully those Mathematical Methods that are the language of Physics to complex Biological Systems such as Computational Analysis of Whole Genome DNA Transcription Regulatory Code Analysis, which is one of my own major areas of experience and expertise.

Michael Eisen also has a very strong background in **Mathematics** and **Computational Biology**, and

*we have had an **ongoing discussion** for several years about the **critical fact** that the **background sequence** in **Genomic DNA** is not random, which almost **computational biologists** assume is to be random..*

As a result, **standard Frequentist statistics** methods (such as **P values**) cannot be used, and other methods, such as **Bayesian statistics** must be used instead.

One of my major reasons for wanting to collaborate with Michael Eisen on this project is to get his advice about how to do **Bayesian statistics** on **Whole Genome DNA sequences**.

4) Knowledge Systems Approach

Three Examples

1) Haiti Earthquake Knowledge Dashboard

Knowledge Systems Approach

Web Knowledge Dashboard like those used for **Genomics Research**

used to solve resource logistics during the Haiti Earthquake Crisis

Creative / perhaps novel use at that time of Twitter Hashtags

2) The Truth About Race based on Genetic Science

Knowledge Systems Approach

1000 Genomes Project Quantitative Info
used to solve

Human Racism Crisis

3) Covid-Gaza Ceasefires Project

Knowledge Systems Approach

*We had been working on the **Covid crisis** and **Gaza crises separately**
When it eventually occurred to me that we could use the **Covid Crisis** as a
rationale for President Biden to demand Ceasefires in Gaza and
Lebanon
to avoid **massive Super-Spreader events***

New TAR 2.0 - The Truth About Race based on Genetic Science 2.0

Every Human Being is of Equal Value

5) The Covid Cryptic Variant Tracker Tool:

That **Covid Cryptic Variant Tracker Tool** is described more completely in the **very last slide** in the [linked MS-07](#), but the **main components** can be **briefly outlined** here as including:

Real Time Quantitative PCR (RT-qPCR) for accurate testing whether National and International Travelers are in **fact asymptomatic carriers** of **very high-level expressing Covid variants**. This is a **potential diagnostic** for **identifying** possible **carriers** of new Super-Spreader Variants. as described briefly at the end of in MS-07:

The Covid Cryptic Variant Tracker Tool: **from MS-03-2021**

Part of a **potential Multi-Component general solution** that builds on and extend current tools was developed to address the previous **Delta / Omicron Cryptic Super-spreader Crisis** as well as other future variant crises .

Focused Micro-Tracking is one **component**, in which, for example the **Delta AY.4.2.3 Lineage Report** from the **Geographic Prevalence** the tab section in **Outbreak.info** web app can be used to **“Micro-Track” - drill down / “focus into”** - into the **Germany AY.4.2.3 Variant map** to **Micro-Track, Micro-Test, and**

Micro-Trace potentially all **963 cases** of the **AY.4.2.3 infected persons** who have already been identified in Germany to date, starting immediately, for example, with the **101 cases** in **Saarland** that was discussed in a previous slide.

This would be followed by focused **quarantine** - ie a “**Focused Micro-Lockdown**” - **only** of those **specific persons**, and **only** for the **time period** necessary to prevent the spread of the virus.

6) Covid Crisis Knowledge System 2021-2024

Covid Cryptic Variant Tracker Tool: part of a more general Covid Crisis Knowledge System 2021-2024

*for creating / discovering / managing critical knowledge need to solve urgent problems Covid Crisis related problems, such as the ‘**Dominant Negative ACE2 Receptor Approach***

Central online Knowledge Base integrating...

Digital Vaccine Passports

Focused qPCR Micro-Testing

Focused Micro-Tracing

Dimagi Contact Tracing Software

This is just a brief description of the **Covid Crisis Knowledge System 2024**, and the **full proposal** will be provided in a separate presentation.

7) URGENT NEED for President Biden to ACT NOW

I believe that if we can get this **new JN.1.X Covid data** to **President Biden**, through **Charles Rice**, or **Harold Varmus**, or **Michael Osterholm** or **David Ho**, or other **Covid experts**, that Biden can be convinced to **declare** a **State of National Emergency** based on this **newest Covid Health Crisis** data.

8) President Biden can help to Save the People of Gaza and Lebanon

and **help end** the **current MidEast War**

and **help save Democracy new KP.3.1.1 and XEC Sub-variants of the**

JN.1X lineage
Digital Passport Mandates
Restrictions on Local and International Air Travel

In the **World**

Immediate Enforced Ceasefires in Gaza and Israel and throughout the MidEast Region

Declaration of a Strategic Initiative

US + UN + NATO

US + Coalition of the Willing

like those **used twice** during the **Yugoslavia Wars** in the 1990s

***** Iran, Hamas and Hezbollah have all said they will stop the War if there is a Ceasefire in Gaza**

This will **call for implementation** of the **Covid-Gaza Ceasefire Crisis Project** that is presented here..

9) SUMMARY / OVERVIEW

Covid-Gaza Ceasefire Article 13v9 - "There is a rapidly emerging but Cryptic (asymptomatic) COVID JN.1X Super-Spreader - Super-Mutator Crisis that has already created 456 rapidly mutating Sub-Variants, including the currently dominant KP.3.1.1 and XEC Sub-Variants.

MOST URGENT -

President Biden can use this new global JN.1.X Cryptic Super-Spreader / Super-Mutator Crisis - that includes the currently dominant KP.3.1.1 and XEC Variants - to

1) Declare a State of National Emergency in the USA with Mask and Vaccine Mandates. and the other specific ACTION NOW defined below.

This new graphical Covid Variant Wave data for KP.3.1.1 in Figure 9 should be able to convince Covid experts - and then for them to strongly advise President Biden - that there is an URGENT NEED to make a new mRNA Vaccine against the KP.3.1.1 variant,

2) also to use this global Cryptic (asymptomatic) Covid crisis to Declare a Strategic Initiative through the UN and WHO for an Immediate Enforced Ceasefire in both Gaza and Lebanon.

**President Biden can help to Save the People of Gaza and Lebanon
and help end the current MidEast War
and help save Democracy**

10) Final Comments

to be added later

11) References

to be added later
