

Let's Make Some Guacamole!

By Kathryn Roach (08/30/2024)

Here's my glass of lemonade, sweet and cold
I want a snack with it, something crunchy and bold.
Let's make some guacamole, it's such a yummy treat!

Some chips and guacamole are so good to eat.

Get the avocado ready, take the pit out.

Peel it and put it in the bowl and mash it all about!
Next, we'll slice a lime, and squeeze the juice just so.

Time to chop up and then add this fresh cilantro.
I'll chop up a good tomato and spicy red onion too.
We'll mix them all in and now we're almost through!
Shake the salt and pepper and stir them in the rest.

Yay! Grab the chips and dig right in!

This guacamole is the best!
