

CCSD Technology Tips

Classlink - A One-Stop-Shop

1. [ClassLink - How to Log In as a Student](#)

- **ClassLink LaunchPad** is your personal cloud desktop giving you access to all your apps, files and classes from anywhere. It is accessible from any device. Access to apps such as **Google Classroom**, **i-ready**, **Canvas** and **Castle Learning**. With the built-in password keeper, all it takes is one click to get into any app that is available after entering login information the first time!

Chrome Browser

1. [Create a New Chrome Profile on Your Home Computer](#)

- **With profiles**, you can keep all your Chrome info separate from your students, like bookmarks, history, passwords, and other settings. This is important if multiple users are sharing the same Microsoft Windows computer. Most tools we are using require the student to be logged in with their own Google account!

2. [Signing a student into Chrome](#)

- **Signing into Chrome** allows your student to access all of their bookmarks (Favorites), apps, extensions and themes from any device. It is crucial for gaining access to their Google Classroom or Canvas classes as well as all of their Google resources.

3. [Clearing Chrome Cache](#)

- **Clear cache** & cookies. When you use a browser, like Chrome, it saves some information from websites in its **cache** and cookies. **Clearing** them fixes certain problems, like loading or formatting issues on sites.

Chromebooks 101
