

# CAPITALISM CONSERVES

## Love Your Land Activities

### Park Cleanup

- Schedule a day with your chapter to go to a local park.
- Bring a large group with you to pick up trash and clean up the area! Take videos and photos to share as well.

### Name America's Most Beautiful Places

- All you need are some markers and a poster board.
- Ask your classmates to write out the most beautiful places they've been to in America to highlight our amazing lands!

### Highlight Local Farmers

- Either while tabling or at a chapter meeting bring attention to local farmers.
- Show your peers what is grown locally and highlight the importance of supporting these local businesses!

### Plant Trees

- Talk to your school about doing a tree planting initiative on campus!
- Request an activism grant to help with the costs of the materials needed, then have a day of planting trees on campus!
