# CWAW Farms Soap List

## All Natural Goat Milk Soap
(unscented)

All Natural Collection

Crafted with simplicity and purity in mind, our Natural Line features soaps with no added fragrances and only natural colorants, providing gentle care for your skin. Our Natural Line begins long before the soap-making process. The sunflower/olive oil base is carefully infused with dried dandelions, harnessing their incredible skincare benefits. Rich in antioxidants, dandelions offer anti-aging qualities and help protect the skin against UV damage. Shea butter and castor oil are also added to create a deeply moisturizing and gentle soap. With no added fragrances or artificial coloring, this collection is perfect for those who appreciate simple, natural care.
