

SC276: So, I can buy a Megazord fighting Godzilla no prob.  
 Ringmaster: Hell, that's basically what *Pacific Rim* was about.  
 SC276: But a Megazord piloted *by* Godzilla... Can you imagine a Megazord relative to Godzilla? The monster that thing would fight would have enough of a gravitational pull to yank Earth out of its orbit and doom the world to an ice age faster than Nightmare Moon could ever dream.  
 Ringmaster: Don't forget, though, these are apparently high school AU kaijus. Basically OCs with a coat of... er, lizard-paint?  
 SC276: ...Well the actual Godzilla driving a Megazord is an interesting image at least, very much unlike this fic. Last time on *Mighty Ripoff Lizard Monsters*: the EqG elements were dragged in kicking and screaming, there's apparently X-Men now, one of them is a good guy, and whoa is everything going way too fucking fast. I know we have word count concerns, author, but *slow the fuck down*.  
 Ringmaster: Seriously, these parts are even a bit shorter than usual, yet so much happens in them that it doesn't really feel that way. Without further ado, part two of "Mighty Morphin' Kaiju Rangers" by blueeyeswhitedragon0.  
 SC276: Go go flip this off!  
 BittplexMutt: Let's go!  
 Crazy56U: *Is the Blitz over yet?*  
 CaptainPipsqueak: If you have to ask, probably not.  
 Mono: It's morphin' time, motherfuckers!  
 SuperMapslover: LET'S MORPHIN!  
 SC276: ...Are you just doing that because I did last part, or...?  
 Topher: \*pops up through a hatch in the floor\* Well, this is a thing. That exists. And we actually have to read.

## Chapter 7

CaptainPipsqueak: *The Force Awakens*.  
 Crazy56U: (shoves Pip to the ground) No. Bad.  
 CaptainPipsqueak: If the lead character wasn't a Mary Sue I might care.  
 Giginss: The Force then decides it is too early in the day for it to care, and falls back asleep.  
 Nox: *Kaiju Rangers and the Deathly Hallows*.  
 BittplexMutt: Part 1 and 2.

Things were NOT going Rainbow Dash's way.

SC276: She was in a terrible fanfic.  
 BittplexMutt: that she could not escape from.  
 Crazy56U: Yeah, fuck that song.  
 Mono: Yeah, bout come on. When hasn't it gone Rainbow's way in any fanfic? Girl's been mutilated more times than I can count.  
 Nox: Does *Rainbow Factory* count as something "going her way"?  
 CaptainPipsqueak: She was kind of an evil cunt. Pinkie at least had the excuse of being insane.  
 Crazy56U: That is never an excuse and you fucking know it.

This new kid showed up out of nowhere, and joined CHS right out of the blue!

**SC276:** Along with his three friends.

**Crazy56U:** ...wait, I forget, did a new character actually appear last chapter, or...

**Mono:** First Pony! Twilight is allowed to mosey on over to that school no problem, and now this kid? Why is CHS so lenient in accepting new students?

**Topher:** The more students they take in the less likely it is their abysmal graduation rate and test scores will get them turned down. Seriously, It's been about five years and the main cast still hasn't graduated.

**CaptainPipsqueak:** Also, every time they accept a new student, shit explodes. *That is awesome.*

**BittplexMutt:** Yeah, I have to agree on that.

He also seemed to show up her up in sports, and Sunset and Twilight in science and math.

**BittplexMutt:** It's like he takes the same classes as you!

**Crazy56U:** Or like he's the Uber Sue!

But what was most disturbing of all, was how much he looked like Junior!

**SC276:** Considering all factors, I have no option but to conclude that this is an alternate universe counterpart of Lightning Dawn.

**Crazy56U:** Well, as far as I know, Gamera didn't actually *have* an evil clone/twin/thing, but I'm sure as fuck not going to start calling the Godzilla characters by their actual names, so fuck it, Reptilicus it is.

**SuperMapslover:** I'm just calling him Reptar.

**CaptainPipsqueak:** Emilio Lizardo.

**Nox:** It's his evil twin, Roinuj!

'Where did this guy come from?

**BittplexMutt:** Where did he come from, where did he go?

**Crazy56U:** Where did ya come from, Cotton Eye Joe?

**Mono:** \*starts playing a fiddle\*

He looks like Junior, but his attitude is completely different! He's cold,

**Crazy56U:** And I know what I need to link.

**Mono:** Huh, I actually thought you were gonna link something different.

**SuperMapslover:** When in doubt, just link it!

**CaptainPipsqueak:** I do my own thing.

and then he shows my friends and I up in almost no time flat.

**BittplexMutt:** Almost like he's a Gary Stu.

**Crazy56U:** In all of no seconds.

At least he doesn't brag about it, I gotta give him that.'

**SC276:** Yep, literally no one else that could be.

**Crazy56U:** Well, that's because he has no character, Rainbow.

"Excuse me.". Rainbow was snapped out of her thoughts by the boy's voice, "Have you seen a boy that looks like me, but wearing black instead and that has yellow eyes?"

**SC276: [Rainbow Dash] "That is a weirdly specific question to ask someone at random."**

**Crazy56U: [Rainbow Dash] "That's funny, given how *your* eyes are red and all. (violently maces Reptilicus and flees)"**

**[Reptilicus] "(is now on the floor in pain) AHHHHH I WAS JUST ASKING A QUESTION, GODDAMN, IT BURNS!"**

"You know Junior? Who are you and why do you want to find him?!" "Let's just say...it's a family matter. And as for who I am, my name is Xenilla."

**SC276: Riiiiiiight, not-Lightning Dawn.**

**Crazy56U: Keep on keepin' on, Reptilicus.**

**Mono: *Motherfucker...* Anyway, hi Vanilla!**

**SuperMapslover: Nah, just calling her Xena.**

Junior felt great! Everything seemed to be going his and his friends' way!

**SC276: That's because you're the self-insert main character.**

**Crazy56U: [Gamera] "(has his head stuck in a trashcan) *HELP EVERYTHING IS DARK!*"**

**CaptainPipsqueak: Then everything changed when the Fire Nation attacked.**

Rodan managed to score a date with Applejack; Lea, Twilight, and Fluttershy seemed to be getting quite close,

**Mono: Ooooh, lesbian polygamy!**

**Topher: ...You have my attention.**

**CaptainPipsqueak: If we're riffing this, it won't go well. That and we don't do the dirty stuff any more.**

**Crazy56U: [Lazy, Twilight and Fluttershy] "(creepy monotone) We are all. We are heavy. We are one."**

Destoroyah seemed to be in better spirits,

**Crazy56U: She befriended Fluttershy, Narrator. If there is one constant in the multiverse, aside from all the other ones, is that if you are friends with Fluttershy, *she will hook you up.***

**BittplexMutt: Fluttershy hooks everyone up.**

Anguirus and Rarity became an item,

**Crazy56U: Even in spite of the universe *itself* begging them not to.**

and he and Sunset seemed to becoming good friends too.

**SC276: Hold on, lemme check this... I predicted... three out of four of these. The only one missing is Sunset and Junior, and I suspect that won't be far off.**

**Crazy56U:** Well, *duh*.

**BittplexMutt:** Of course it had to happen.

**SuperMapslover:** Talk about a love triangle.

**CaptainPipsqueak:** Can they work up to a love square? A love hexagon? A love parallelogram?

**Giginss:** A love pentagram?

Nothing could bring him down now! But at that same moment,

**Crazy56U:** -his head *was* still stuck in the trash can.

**SC276:** -irony slapped his face. In the face.

**CaptainPipsqueak:** Ooh, that's the *worst* place to be slapped.

**BittplexMutt:** -fate decided to one up him.

he felt a chill run down his spine, 'I sense a great disturbance in the force!

**Mono:** \*glances at Crazy\* Are you gonna link the video or should I do it?

**Crazy56U:** (sad) I'm not in the mood, I watched the Rollergator Rifftrax with Ring last night, and now I legit want to die.

**Mono:** Kay.

**Topher:** "As if the concept of creativity cried out in terror, and was suddenly silenced."

**BittplexMutt:** "I sense that we're going to be sued by the higher-ups."

**Giginss:** And now you have ruined Star Wars in association with this, thanks for nothing!

**Nox:** [Junior] "It could only be, *FAIRY GOD PARENTS!*"

A presence that feels similar to mine, yet alien at the same time! What could be the cause of...' "Hello brother."

**SC276:** What is this, the season 3 finale of *FETCH with Ruff Ruffman*? Please tell me someone else gets that...

**Nox:** I got it.

**Crazy56U:** ...thanks for that, I now feel old. (is sad)

**Mono:** If it helps, I don't get it.

**Giginss:** Do we have a problem with different speakers on the same paragraph? I think we have a problem with different speakers on the same paragraph!

**CaptainPipsqueak:** Damn. I thought I'd gotten the speakers wired properly. Just a sec... \*grabs toolbelt\*

**BittplexMutt:** Author, the paragraph space is there. Use it.

Junior froze in his tracks, as he turned behind him, he singled out a single individual out of the busy hallway. It was almost like looking in a mirror,

**SC276:** A very ugly mirror.

**Giginss:** Mirrors reveal your true self, as the legend goes, so Junior is secretly his own brother!

**Nox:** That statement makes no sense yet it still makes more sense than this fic.

**Crazy56U:** Doing something so stupid, it flips back to smart. ...what does that remind me of...

"Who are you? And why did you call me 'brother'?" "Surely Destoroyah has mentioned me?" "YOU'RE Xenilla?"

**SC276:** ["not Lightning Dawn"] "Uh, yes, that is *totally* my name."

**Crazy56U:** [Reptilicus] "It's the hair, right? The hair throws people off."

**CaptainPipsqueak:** It looks like he's having a conversation with himself. *This is awesome.*

No wonder she said we looked alike. So...how are you my brother?"

**Topher:** [Vanilla Dawn] "...do you not know where babies come from?"

**Giginss:** You're adopted!

**Crazy56U:** Well, Gamera, when Gamera cells and space radiation love each other *very much...*

**CaptainPipsqueak:** Don't be stupid; Gamera cells hate *everything*.

**Topher:** Except children, apparently.

**BittplexMutt:** Wow, that came off wrong.

**Crazy56U:** ...to you.

"I'm the product of our dear father's previous marriage, sadly he couldn't care for me himself

**SC276:** ["not Lightning Dawn"] "I mean, he couldn't write his way out of a paper bag, he couldn't handle me coming off the page like Bendy."

**Crazy56U:** Which is code for "The debt collectors literally tore him apart".

**BittplexMutt:** "He could not believe the monster I've become."

and left me in the care of our aunt. Biollante."

**SC276:** Bio Auntie?

**Mono:** Biodome?

**BittplexMutt:** Bioshock?

**Topher:** Big Auntie Bosco?

**Crazy56U:** Big Bill Hell?

**CaptainPipsqueak:** Benny Hill Show?

"Okay, but this all raises an important question.

**SC276:** [Gashat JJ] "Why the fuck are all out lines in one paragraph?"

**Mono:** [Gaston] "Why did *Pushing Daisies*-"

[Vanilla] "Okay, you already lost me."

**Crazy56U:** [Gamera] "Why is someone in the kitchen with Dinah?"

**BittplexMutt:** "Why do we even exist?"

**Nox:** [Junior] "Why is a raven like a writing desk?"

**CaptainPipsqueak:** "Are you my dad?"

Why are you here?" "Simple, brother. I'm here because I've seen your fights with Ghidorah's mutants.

**SC276:** Somehow.

**Topher:** To be fair, they're hard to miss.

**BittplexMutt:** They've been hogging that invisibility potion for a while.

**Crazy56U: [Reptilicus] "Caught them on the TV."**

And have seen fit to replace you"

**Mono: "Because this story needs even more paper-thin conflicts."**

**BittplexMutt: Ah, a Replacement Scrappy.**

**Giginss: Replacements happen when the one being replaced is incompetent or dead, and judging by Junior's Gary Stu status, neither condition is filled. Is logic a lie? Has everything I ever thought of been false? Is common sense no longer common? WHY HAVE YOU FORSAKEN ME, LOGIC?**

**CaptainPipsqueak: [Logic] "Fuck dis; I's out."**

"So, this is what they call a 'heart-warming family reunion.'" "You got that right. "

**SC276: This is only "heart-warming" if a heart attack causes your heart to heat up.**

**CaptainPipsqueak: Acid reflux.**

"Tell me, just how do you plan on replacing me? By destroying me?" "What? No!

**SC276: ["not Lightning Dawn"] "That would be *interesting!*"**

I just wanted to challenge you to fight. Best out of two gets to lead the rangers.

**SC276: Um, it's best two out of three- actually I don't care if these characters fail math.**

**BittplexMutt: Math is hard, anyway.**

**Mono: Cue the music!**

**CaptainPipsqueak: Nah. Go with the classics.**

**Crazy56U: If you are willing to bear with me, I have an alternative fight song idea.**

Me and my mutant powers against you in your ranger suit. Two days from now. Everybody walks away alive."

**SC276: Only because we have no say in the proceedings.**

**Topher: Wow... This seems almost reasonable. I don't trust it!**

**Giginss:**

"Okay...see ya in two days...bro."

As the school day drew to a close, Xenilla was able to catch up with Destoroyah and decided to surprise her.

**SC276: So he shot her in the head from behind.**

**CaptainPipsqueak: He should have shot her in the face. That'd be even *more* surprising.**

"Hey Des!". Destoroyah couldn't believe what she saw, "Xen?! You did escape! But, why are you here?" "I came to see Junior, my little brother.

**SC276: I don't remember if the end of last week showed that Gashat J was originally aware of "not Lightning Dawn" being his brother, and I don't care enough to check.**

And I've also challenged him for being the leader of the rangers." "You always did like to show people up.

**SC276: *Author, stop telegraphing that he's Lightning Dawn.***  
**CaptainPipsqueak: *Stop asking him to do things he can't.***

Just don't try anything too drastic."

**Mono: [Vanilla] "Like challenging my brother for being the leader of the rangers?"**

"Come on Des, you know I'm better than that."

**SC276: No, no you're not.**  
**CaptainPipsqueak: If *you* were better than that, we wouldn't be here.**

Destoroyah only smiled as Xenilla walked away.

**BittplexMutt: She's handling the rejection rather well.**

Her best friend was back, and that was all that really mattered at the moment.

**SC276: And not proper paragraph structure.**

Xenilla was headed towards his crystal chamber,

**SC276: Which was totally a thing he was mentioned to have before now.**

until he felt a dark presence behind him.

**SC276: [dark presence] "OOOOooooOOOOooooh!"**  
**CaptainPipsqueak: [dark presence] "Oogyboogyboogyboogy!"**

As he turned to see who had tailed him, his face contorted into an expression of shock and anger,

**BittplexMutt: Instead of fear and disgust.**

"Ghidorah!".

**SC276: That's a... bunch of letters.**  
**CaptainPipsqueak: Gesundheit.**

Xen launched an all-out assault against the evil being, firing of corona blasts

**Topher: Corona! That's a great idea! \*Starts chugging\* Ah, that numbs the pain.**

and shooting crystal shards with his telekinesis.

**SC276: So, he's a psionic from D&D?**

But try as he might, he was soon overpowered by Ghidorah and fell unconscious.

**Giginss: Not Gary Stu has been overpowered and defeated. What made it a good idea for Not Gary Stu to replace Gary Stu?**

**SC276: Oh chill, he's clearly just faking it as one of his hairbrained schemes to let the villains do what they want until the final act.**

Ghidorah then brought him to his ship, "Soon I shall have my own kaiju ranger.

**Mono: [King Nidoran] "I always wanted one, but mommy wouldn't let me..."**

**SC276: Oh right, Dedede!**

One who will obey me, and destroy the others. Starting with you brother Junior!"

**SC276: Dedede is *also* his brother?! Man, this is a weirdass family.**

**CaptainPipsqueak: The dangers of incest.**

Aboard his ship, Ghidorah brought out the kaiju coin he managed to steal from mutant isle.

**Mono: Ummmm... 'kay.**

**CaptainPipsqueak: He did this when nobody was watching. Including us. That's how you can tell he's good at it.**

"Belvera, have you made any progress trying to convert the kaiju coin so that it will allow me to control my kaiju ranger?" "No master, but I DO have something that will bring him under control.", she said

**SC276: I'd comment on how fast it took the sixth ranger to appear, but then again, the tenth Kyuranger out of nine showed up in like episode 8 of *Uchu Sentai Kyuranger*.**

**Nox: I don't know what that is, but it sounds way better than this.**

**SC276: Oh mama you wouldn't believe.**

**CaptainPipsqueak: Here.**

as she brought out a sword made of black crystals,

**Mono: Eh, nowhere near as impressive as Sokka's meteor sword.**

**Giginss: [Sombra] "GIVE ME MY CRYSTAL SWORD BACK!!"**

**BittplexMutt: I assume she got that sword from Hot Topic?**

**CaptainPipsqueak: Nah. Some weird guy in the shadows of a dead-end alleyway.**

"The aerneth saber, strike the coin with this and Xenilla will be under your control." Ghidorah did as Belvera said, and struck the coin with the saber.

**SC276: [King Dedede] "...It cut the coin in half."**

**[Waddle Dee] "In retrospect, I probably shouldn't have used a sword for this."**

**Nox: "The top half of the saber broke off and lodged itself into Giddy Giddy Gumdrops' eye."**

He then produced the morpher that the coin was meant for, and inserted the coin.

**Topher: ...So all the power ranger's weapons run on Chuck E Cheese tokens?**

**SC276: Welcome to fucking *Power Rangers*.**

Dark energy crackled from the morpher as it was horrifically modified by the tainted kaiju coin.

**Giginss: The morpher is now an it. (horrified face) What kind of modifications do that?**

**CaptainPipsqueak: *THOSE* kind.**

**Crazy56U: Oh, the WikiHow kind, got it.**

"Rest well Xenilla.", Ghidorah cackled, "Because in two days, you have rangers to destroy!"

**SC276: ...Except that he doesn't plan on *using* his morpher in the fight, just his regular mutant powers.**

Author's Note:

Hey everyone! This is it! The fight we've been waiting to see since chapter 5!

**SC276: You don't decide my opinion!**

**Crazy56U: No one wants this. *No one fucking wants this.***

**BittplexMutt: I can agree with this.**

**Nox: Silver vs. Future Trunks?**

**CaptainPipsqueak: Coke versus Pepsi? With knives?**

**Crazy56U: Chuck McGill vs. Walter White?**

**Mono: Genghis Khan vs The Easter Bunny. Wait, that already happened...**

Also, I wanted to give Xenilla and Junior the same regular human skin color,

**Crazy56U: ...*why*?**

**Mono: That's racist! \*ding\***

**Crazy56U: Fuck you! (shoves Mono to the ground)**

**CaptainPipsqueak: That's... reptilist?**

**BittplexMutt: For some.. reason.**

so I'm going to have to rewrite Junior's description in chapter 1 slightly.

**SC276: You act as though we've paid attention to them.**

**BittplexMutt: I haven't been paying attention to anything.**

**CaptainPipsqueak: Nor have I. Who are you people? *HOW DID YOU GET INSIDE MY LAPTOP?!***

Thanks for reading!

**BittplexMutt: Not really. We were forced to.**

**CaptainPipsqueak: 'Forced' is such an *ugly* word. I prefer... um... hmm... \*grabs thesaurus\* ... .. Huh. Actually, 'forced' about covers it. Carry on.**

Also, please feel free to comment on who should voice each of the kaiju rangers, and Ghidorah and his monsters!

**SC276: I don't understand. Why would anyone *voluntarily imitate Mykan?***

**Mono: Tommy Wiseau. For all of them.**

**Nox: Gilbert Gottfried as everyone, even as the narrator.**

**CaptainPipsqueak: Just obnoxious Gottfried or low-key Gottfried as well?**

**Mono: Yes.**

**Crazy56U: Pretty sure that would literally bring about the apocalypse. ...I approve; things are only going to get worse, it's time it happens.**

## *Chapter 8*

Ghidorah couldn't suppress his joy! A mutant with the strength to rival the leader of the kaiju rangers was now under his command.

**Mono: We saw that happen, narrator! I don't think watching all those Peppa Pig episodes had a positive effect on you...**

**SC276: How do *you* know how strong he is? He hasn't done jack shit yet!**

**Nox: They used scanners to read his power level.**

And to top it off, the mutant was Junior's own brother AND he now had a morpher which meant Ghidorah now had his own kaiju ranger as well!

**SC276: Just what Lightning Dawn needs, *another* fucking sentai team to show up.**

All that was left was to just sit back and watch the battle,

**CaptainPipsqueak: Do we *have* to?**

"So Xenilla challenged Junior to a duel for leadership of the kaiju rangers...interesting. I'll send one of my monsters to finish off the other rangers while they grieve for Junior after Xenilla has destroyed them! Victory is mine!"

**SC276: [Waddle Dee] "Aaaaaaand what if Junior wins-?"**

**[King Dedede] "(incinerates Waddle Dee)"**

It was the day that Junior and Xenilla had chosen to duel, it had started to rain

**Mono: I guess God loves that dramatic effect.**

**Topher: [Vanilla Dawn] "I've been waiting for you."**

**[Goober] "I can tell! You set up rain sprinklers and strobe lights."**

as Junior and the other rangers headed towards the battlefield Xenilla had chose. They were in for quite the unpleasant surprise. Xenilla was there waiting for them,

**SC276: Wherever the fuck "there" is, but knowing Lightning Dawn it'd probably be the entire city.**

**CaptainPipsqueak: Over there. Thataway.**

but he wasn't alone. Beside him was Orga,

**Mono: Organizer, got it.**

one of Ghidorah's strongest monsters. Needless to say, Junior was shocked at the sight before him, "Xen...what are you doing with this creep? Don't you know he's one of Ghidorah's goons?!"

**SC276: [Gashat JJ] "That's not Grandruler!"**

**["not Lightning Dawn"] "He totally is, and he's gonna win this for me!"**

"I do brother, and I also realize who I should truly stand with! Hail King Ghidorah, and the destruction of the kaiju rangers!"

**SC276: Not so sure about swearing fealty to Dedede, but hell yeah on that last part!**

**BittplexMutt: He speaks for all of us.**

**CaptainPipsqueak: Death to everyone! ... Except us, obviously.**

Destoroyah was heart broken. Her best friends, the guy she'd known for most of her life, had just sold them out. Grief gave way to sorrow, and sorrow gave way to rage,

**Mono: And rage gave way to... something.**

**Giginss: Rage to hate, hate to suffering. That isn't how the quote goes, but still.**

**CaptainPipsqueak: At any point does it give way to donuts?**

**Crazy56U: (eating a box of jelly donuts) *Get your own.***

"How Xen? HOW COULD YOU STAB US IN THE BACK?! HOW COULD YOU JOIN THE MONSTER THAT DESTROYED BIOLLANTE?!"

**Crazy56U: [Smash] "WHAT THE FUCK DUDE?!? WHAT THE LITERAL FUCK!"**

**SC276: "ARE YOU REALLY A TRAITOR?!" ...Dammit, why can't I find a video...?**

**Crazy56U: I did my best to help you find that video. The closest match is the following photo I slightly edited for our purposes.**

**SC276:** Mine was a *Kamen Rider Blade* reference, but that's also good, thanks.

**BittplexMutt:** This fic just made a seal cry.

**CaptainPipsqueak:** Seals are manic depressive. You can't really trust their moods.

**Crazy56U:** That's sealcist. (ding!)

"Simple. It's good to be bad!

**Crazy56U:** ...give me a second. (goes to Google) ...not what I was looking for, but fuck it.

But I'm not going to destroy you or the rest of your friends. I'm here for Junior.

**SC276:** And why not kill them all anyway? The author doesn't know either!

Ready your morpher brother! Our battle begins! IT'S MORPHIN' TIME!"

**Nox:** I play Form Change!

**Mono:** Gardevoir, I choose you!

**Topher:** \*chucks poker chips at the story\* RAISE!

**SC276:** HENSHIN!

**CaptainPipsqueak:** \*rolls for initiative\*

**Crazy56U:** TOUCHDOWN!

Xenilla then morphed into his ranger form. His suit was red on the inner parts, and blue on the outer parts.

**SC276:** Whatever the hell that means.

**CaptainPipsqueak:** **COLORS!**

On each of his shoulders was a large crystal, and a small crystal horn with two spikes on each side was on his helmet.

**Mono:** Thank fuck these descriptions aren't Mykan Jr. levels of terrible.

Junior was confused, two days earlier Xenilla seemed to be the nicest guy on the planet. And now, he was acting like they were mortal enemies! 'What happened to him? This doesn't add up!'

**SC276: Mykan's stuff never does.**

"Lea! Get in touch with Sunset at the command center!

**SC276: [Gashat Leash] "How is she supposed to help?!"**

**[Gashat J] "I have no idea, I just need her to fall in love with me!"**

I can't quite explain it, but this isn't the same Xenilla I met two days ago. It might be some kind of mind-control magic. And if anyone can figure out how to undo it it's her!"

**Mono: Wow, way to... bring up somebody's past like that.**

**BittplexMutt: These are are "heroes" everybody.**

**SC276: And I thought how season 7's been treating Starlight Glimmer was insensitive.**

**CaptainPipsqueak: [Lea] "Yo, Sunset. Someone's been hypnotized and we need your help to fix it. You know all about hypnotizing people, right? *Bitch?*"**

"I'm on it Junior!". As Lea got in touch with Sunset, Junior morphed into his ranger form and called out his sword. Xenilla smiled coldly, "So, you have one of those too?",

**Mono: [Gaston] "Umm... yes. It kinda comes with the suit, and seeing you're basically a clone of mine... "**

**BittplexMutt: [Gaston] "This kind of makes no sense, but whatever."**

Xenilla then sneered as he summoned the aerneth saber Ghidorah had given him,

**SC276: [Gashat J] "Why do the evil twins always get the *cool* weapons?!"**

**BittplexMutt: So they can be edgier.**

"With this blade, I will put an end to you!". The two rangers clashed, each trying to strike each other with all their might until one of them gained the upper hand!

**SC276: ...OK, five bucks says breaking the sword will make him a good guy again.**

**Not even Mykan villains are *this* stupid...**

**BittplexMutt: That's.. An actual accomplishment.**

**CaptainPipsqueak: You can tell this is supposed to be an exciting scene because of the exclamation point.**

Back in the command center, Sunset had just gotten Lea's message and was watching the clash between Junior and Xenilla.

**Mono: Sitting in a lawn chair with a bucket of popcorn.**

**BittplexMutt: [Sunset] "I should be doing something, but I'm not gonna do it."**

**CaptainPipsqueak: [Sunset] "I'll help whichever one doesn't die."**

She was wondering what sort of magic could turn Xenilla so easily. And then it hit her the moment Xenilla summoned that sword made of black crystals, crystals that were radiating dark magic.

**SC276: So Lightning Dawn has been possessed by Sombra, what else is fucking new?**

**BittplexMutt: This is like the second fic that has had Sombra possess someone.**  
**CaptainPipsqueak: Someone needs to give him a restraining order.**

'That sword's made of aerneth crystals! Aerneths can be used to magnify anger in a person,

**SC276: OK, who's been bringing aerneth crystals in here? *Talk!***  
**BittplexMutt: So.. that thing from the Green Lantern comics?**  
**CaptainPipsqueak: Um... *sure?***

and control their minds! But mind control can only be done if someone makes contact with an object that was tainted by one.

**Mono: *Ex-po-si-tion, ex-po-si-tion, rush it out ASAP.***  
**Crazy56U: (wild-eyed glare) *FUCK YOU* (shoves Mono to the ground)**  
**Mono: And I regret absolutely nothing.**  
**Giginss: (holds out his hand for Mono to grab) I don't get that reference, so I don't regret reading that either!**  
**Topher: *\*chainsaws Giginss' hand off\* I do.***  
**CaptainPipsqueak: *~Why advance the plot when we can infodump eternally?~***

Meaning Xenilla's morpher must have been struck with that sword!' "I know how to break the spell!", Sunset then contacted Junior, "Junior, do you read me? It's the sword! You have to break Xenilla's sword!

**SC276: I'd say I called it, but let's face it, this guy is less creative than dish soap.**

That's what's causing him to act this way! One concentrated blast from your atomic flame blaster should do the trick!"

**Topher: [Goober] "Ok! Flame weapons are perfect for precision strikes, this'll be easy!"**  
**CaptainPipsqueak: Yeah, every time I set myself up to snipe someone, I think to myself "This flamethrower burst will strike the target and nothing else; it will be as though a ghost had killed him!"**

"Thanks Sunset.", Junior said. Junior then launched his counter attack, putting all his effort into disarming his brother. As soon as he saw his chance, he kicked Xenilla so hard that he lost his grip on the sword and was knocked back by the force of the blow.

**Topher: Also shattering his spine, but that's not important right now.**  
**Mono: FATALITY!**  
**SC276: This is most boring fighting game ever.**  
**CaptainPipsqueak: Eh, I never saw the attraction of fighting games.**

Junior then took aim, and fired a charged shot at the sword that destroyed it upon impact. With the aerneth saber gone, Xenilla clutched his head as the sword's taint

**Topher: [Vanilla Dawn] "I can feel Gidorah's taint leaving me!"**  
**That came out wrong, but I choose not to retract it.**  
**CaptainPipsqueak: I'm proud of you.**

**Mono: ...Well, so much for that plot point.**

**BittplexMutt: It was entirely pointless.**

left his morpher, causing him to power down. "No...what have I done? I can't believe I made such a stupid mistake!

**SC276: [Lightning Dawn] "I'm not the main character in this story! Of *course* the universe isn't revolving around me!"**

**CaptainPipsqueak: Does being in the story at all count as a mistake, or is he only allowed one?**

I should've run! I..." "Stop that!",

**Mono: Yeah, Gaston is right! Stop this fic right now!**

Junior snapped, "What you did while you were manipulated wasn't your fault. Sure, it may have been your body fighting. But that wasn't your heart, it wasn't the heart of my brother.

**Topher: It was actually the heart of a baboon.**

**Mono: Nope, it was the heart of a Loch Ness Hamster.**

**Giginss: A villain redemption this soon? What is this?**

**SC276: Look, I know it's hard to keep up with this breakneck pacing, but *KEEP UP*.**

**Giginss: How fast is the pacing? Are we going at the speed of plaid? Or the speed of plot?**

**Nox: Yes.**

**Crazy56U: Too much speed, not enough weed. (lights a joint)**

I forgive you, and my friends forgive you.

**Topher: [Big Mama Bosco] "No we don't!"**

**SC276: [Gashat Leash] "I think he might have imagined me naked at some point!"**

**CaptainPipsqueak: Kill him anyway.**

Now the only question left is, can you forgive yourself? ". Xenilla's head started to lift up, and a small smile managed to crack upon his face, "Yes...yes I can."

**SC276: [Lightning Dawn] "Even when I'm not the main character, I'm still fucking *awesome*."**

"Good. Now then, I believe we owe that ugly punk that was standing on the sidelines a grade A butt-kickin'! Family style!"

**SC276: With hash browns on the side? But I don't like hash browns that much!**

**Giginss: Would you like fries with that, sir?**

**BittplexMutt: With a helping of sauce of your choice!**

**CaptainPipsqueak: And bottomless soda.**

Orga was definitely in the worst possible situation.

**Mono: Wait... Organizer never did anything wrong. He was just standing there watching from the sidelines... Are you gonna kick him just because he's a monster mutant thing?**

**SC276: Well given the opportunity, I don't need an excuse to kick *any* of these characters.**

Not only had Xenilla been released from Ghidorah's control, but now there were SIX rangers ready to beat the living snot out of him!

**Mono: Ewwwww... you might have to get that checked out. Having living snot can't be healthy.**

**CaptainPipsqueak: But it gives him something to talk to!**

'So much for Ghidorah's "great master plan".

**Topher: [Orga] "I told him he couldn't manipulate people with his taint!"**

Now would be a good time to grow up!', Orga thought, "Master Ghidorah! Your plan backfired! Xenilla is free of your control, and I require a potion bomb to even the playing field!".

**SC276: [King Dedede] "(to Waddle Dee) Your plan fucking failed!"**

**[Waddle Dee] "My plan?! *You're* the one that wanted his own kaiju ranger and then put the item that makes sure he's loyal to you in the field of combat!"**

Soon enough, a potion bomb was dropped

**SC276: ...along with Waddle Dee...**

**BittplexMutt: Poor guy.**

and Orga grew to gigantic size!

**Topher: Growth potion! Now available in pill form.**

**Mono: Order now at [www.fuckoff.com](http://www.fuckoff.com)!**

**Crazy56U: (goes to link) *OH GOD***

**BittplexMutt: Make my Monster Grow!**

**CaptainPipsqueak: It's Power Rangers. Of *course* the monster is going to go giant.**

The other rangers were about to call their zords, but Xenilla stopped them. "This is my own mess, let me clean it up! Destoroyah! Let's show this creep what our zords can do!". As Destoroyah called her zord from the sky, Xenilla summoned his from the moon.

**SC276: ...I don't even care anymore.**

**BittplexMutt: What is even happening?**

**CaptainPipsqueak: Yes. Exactly.**

Again, Xen's zord looked almost identical to Junior's zord with the exception of color, the crystal-like structures on each shoulder, and the small horn on its' head.

**Mono: So it was a bootleg. Good to know.**

**BittplexMutt: No, it was a knockoff.**

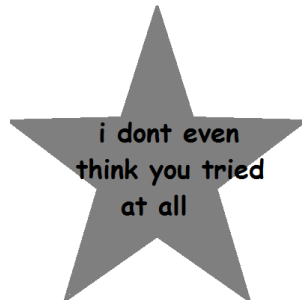

**CaptainPipsqueak: A bootoff.**

**SC276: A knockleg.**

The two zords then combined, with Xenilla's forming the main body and legs while Destoroyah's formed the arms, wings, and head to create the DestroXen megazord!

**Topher: Or to use the original name the author came up with: THE super-mega-ultra-better-than-everyone-else's-zord!**

**Mono: <sup>TM</sup>**

**SC276:**

The new megazord then made short work of Orga with its' sword, the crystal horn katana. And then it finished him off with the micro-oxygen-corona cannon.

**Topher: Quickly! We need to use the gamma-defibrillation miller lite howitzer! See, I can mix beer, science-y words, and artillery too!**

**Mono: Scrub, you have never seen the hydrogen Heineken Winchester yet.**

Orga tried to consume the energy blast,

**SC276: Which is a thing he can apparently do, but he didn't do *shit* earlier.**

**CaptainPipsqueak: *NOMNOMNOMNOMNOM!***

but it exploded in his stomach, causing him to blow up from the inside-out!

**Topher: That's a SPICY meat-a-ball!**

**Crazy56U: Dipshit, if he blew up *inside out*, then he *imploded*, not *exploded*! *Goddamnit!***

**CaptainPipsqueak: He imexploded.**

After the battle, the rangers powered down and returned to the command center.

**BittplexMutt: Nothing was ever accomplished.**

Xenilla couldn't believe how easily everyone was able to forgive him,

**SC276: I can.**

"I'm sorry ...", he said as tears started to from in his eyes,

**SC276: No one noticed the onions.**

**CaptainPipsqueak; 'To: Xenilia From: Eyes'.**

"...because of me, I almost got you all hurt! I...I...",

**BittplexMutt: "I am an idiot."**

**CaptainPipsqueak: Or our saviour.**

Sunset walked up to him and put a hand on his shoulder, "It wasn't your fault, so don't beat yourself up so much.

**SC276: [Sunset] "At this pace, it's not going to matter by the next chapter."**

Trust me, I know what it's like to make a mistake so big you feel like no one will ever forgive you.

**Mono: "I hooked up with Shadow the Hedgehog."**

**CaptainPipsqueak: "Granted that was as a dare, but I still feel dirty inside."**

But my friends forgave me, and everybody was willing to give me another chance.

**Topher: Except they totally weren't. You spent all of movie 2 a social pariah because you went full anime villain last time.**

**SC276: Shhhhhhhhhhhh...**

**CaptainPipsqueak: She blew up part of the school. They should be *celebrating*.**

Please, let your brother and his friends do the same for you.". Destoroyah then walked up to Xen, "What do you say Xen? We accept you,

**SC276: Against all common sense.**

will you accept us?". Xenilla smiled, tears still streaming down his face, "Yes, I do.". As the rangers and Sunset and her friends welcomed the newest team member,

**Mono: Because we clearly needed more.**

Mothra watched with a knowing smile with only one thought on her mind, 'Friendship really is magic.'

**Crazy56U: I hope you choke to death on bug spray.**

**Mono: \*deadpan\* Ha.**

**Giginss: Does that merit a "Roll credits"? I don't think it does, since I refuse to believe this has anything to do with MLP:FiM.**

**SC276: Wait, MLP is involved in this? Where?**

**Crazy56U: Yes.**

**CaptainPipsqueak: Dunno. And I'm not going through the story to look, either. *Fuck that.***

Author's Note:

A little something for when Xenilla morphs and calls his zord

<https://www.youtube.com/watch?v=acV0UwxXOEA>

**Crazy56U: Eh, that's not of a good enough quality to be frank, try this one.**

**Topher:** To be Frank you'd need to get a name change, and that's a LOT of paperwork.

**Crazy56U:** (shoves Topher to the ground) *Stop helping.*

**SC276:** Look, I'm not clicking anymore Magic Voices links.

**BittplexMutt:** Something, something, skip.

## Chapter 9

**BittplexMutt:** *Things Become Bleak.*

**CaptainPipsqueak:** By who's standards?

Shortly after Xenilla joined with the rangers, Ghidorah's forces were outclassed in almost every field.

**BittplexMutt:** That team was always winning the big trophies.

**Giginss:** Evil Overlord cannot win. Gee, who would have guessed that?

With little options left,

**SC276:** [King Dedede] "OK, if losing like three guys was going to be such a major problem to my overall power, I probably should've planned this invasion better."

Ghidorah sent a mutant who could rival Xenilla's powers, Obsidious.

**Mono:** Ha ha ha, it's "Obsidian" plus "Insidious". Fuck you, I'm calling you Sherman.

**CaptainPipsqueak:** Does that make Ghidorah Mister Peabody?

Or at least, he thought Obsidious could. Xenilla and the rangers had him on the ropes almost immediately.

**Mono:** DID you really think anything different? Also *why the fuck is this an EQG crossover if you never use the EQG characters WHAT IS THIS FUCKERY?!*

**Giginss:** Nothing to do with MLP, nothing to do with MLP at all, just Gary Stu and his team saving the day...

**Topher:** Well without the MLP characters there, who's going to give them celebratory blowjobs? THE BIG DAMN HEROES NEED THEIR WENCHES!

**SC276:** And now I want Gaia Everfree to show up just to show up these assholes...

Xen approached their opponent with an offer, "Stand down Obsidious, and we will spare your life. This is your first and last warning. Please, don't do something we'll both regret."

**SC276:** [Lightning Dawn] "I think we can put this behind us. For science. You monster."

Obsidious only defiantly roared his reply, "Surrender?! To you?!"

**BittplexMutt:** [Lightning Dawn] "Yes. To me."

**CaptainPipsqueak:** No. To Dave in Accounting.

Never! I'll prove I'm stronger than you!

**BittplexMutt: You leave Steven Universe out of this!**

THIS IS THE END XENILLA! I AM THE STRONGEST CRYSTAL MASTER!"

**SC276: Because that... matters, apparently.**

**CaptainPipsqueak: SUDDENLY SHOUTING! CHAOS! LOUD NOISES!**

Before he could even land a hit, Obsidious soon fell to his knees catching Xenilla sheathing his crystal saber out of the corner of his eye.

**Mono: [Sherman] "Come on, I didn't get to do anything... "**

"I'm sorry it had to come to this...", Xenilla said as Obsidious exploded.

**SC276: Well *that* was pointless.**

**CaptainPipsqueak: Explosions are *never* pointless.**

Ghidorah was furious, "Don't bother with a potion bomb! After all the others defeats the kaiju rangers have dealt me, it makes little difference reviving that useless pile of rocks!"

**Mono: "To be fair, I don't even know why I let him fight in the first place."**

Belvera took note of her master's foul mood, and an idea came to her. "My lord, I believe I have a solution to your ranger problem."

"Explain."

"The Mothra ranger seems to be the brains of the bunch.

**SC276: And you've gathered this *how* now, given she's done nothing but put up a shield?**

**CaptainPipsqueak: She's kept the hell out of it?**

If we can remove her, the rangers will fall.

**Mono: Because we all know that if you remove the brain, the rest of the team can't think of a plan by themselves. Since only the smart character is capable of coherent and rational thought... holy shit, that was surprisingly accurate.**

Victory will be yours at last!".

Ghidorah cracked a sinister grin, " Yes, and I know the two monsters for the job. Daghara and Hedorah are walking slabs of pollution.

**Mono: Shit, somebody call Captain Planet!**

**Topher: I'm on it! \*throws dirt, gasoline, a glass of water, a balloon, and a human heart into a bucket\* ...Why isn't it working? Did the heart have to come from a virgin?**

**CaptainPipsqueak: Explains why he never shows up, don't it?**

**Crazy56U: (pulls out a tape recorder) So soon you forget Pip. Captain Planet is kill. (hits "Play")**

**Tape Recorder: They had inadvertently killed Captain Planet. Earth was now doomed. Yeah, but nobody *liked* Captain Planet anyway, so...**

"Joking aside Rodan, we can't let them infect the water!", Junior said as he readied his blaster.

**SC276: The water has a very poor immune system.**

**BittplexMutt: The water can't even save itself.**

**CaptainPipsqueak: It just sits there. Being wet.**

Junior first engaged Hedorah, but something unexpected happened when he fired at the walking pile of sludge. Hedorah nearly vaporized on impact of the blast! Namely because of the unstable toxic chemicals that made up his body.

**SC276: ...Boy, Dedede knows how to fucking *pick* them.**

**BittplexMutt: Yeah, he's such an idiot.**

**Topher: That's what happens when you excrete methane 24/7. Lay off the mexican for a while.**

**CaptainPipsqueak: And that means mexican *food* as well!**

Daghara was enraged and went over to what was left of his partner, "Don't worry pal, I'll absorb your essence into my body. We will become one!"

**BittplexMutt: Somehow.**

**SC276: The part of these two losers will be played by Ornstein and Smough.**

As Daghara absorbed Hedorah's pieces, his form shifted into an even more gruesome sight, "We are Daghadorah! And we shall destroy the divine moth!".

**Mono: \*Googles\* You want to destroy an MTG card?**

**Giginss: "We are the Dagobah system, and we shall kill... *that card is completely OP***  
**Mono. I'm glad that is a fanmade card.**

**Crazy56U: (legitimately concerned) What?**

**Mono: I don't know either. I Googled and linked something, and then words came out of his mouth.**

**BittplexMutt: \*nods head as if understanding what's happening\***

**CaptainPipsqueak: \*goes to cartoon site, watches latest 'Samurai Jack' episode\***

All of the rangers except Lea were clueless as to what he meant,

**SC276: Even though they personally know the super-powerful moth queen lady *and* her daughter.**

**BittplexMutt: Even they don't know what has happened.**

but they wouldn't have time to figure it out.

**SC276: Because they're incapable of thinking in the first place.**

**BittplexMutt: Of course they are, then this fic would have been over.**

Daghadorah prepared his ultimate attack, and fired a swarm of red starfish-like creatures at the rangers,

**Mono: PATRICK, NO!**

**Topher: WHAT'SHISFACE FROM THE DENTISTS TANK IN FINDING NEMO! NO!**

**CaptainPipsqueak: STARRO, NO!**

**SC276: [starfish] "THE TANK IS CLEAN"**

but luckily, Lea was able to form a barrier to shield them. However, there was no end in sight of the blitz

**Mono: You got that right.**

**Giginss: Unintentionally meta. That made me smile for a second.**

**CaptainPipsqueak: And then you sighed in resignation and returned to this trainwreck.**

**Crazy56U: Hey, ho. Let's go.**

of projectiles. As the barrier began to break,

**SC276: (looks back at the first monster of the week chapter) There must be a glitch in the Matrix, 'cause I have deja vu.**

Lea pushed the other rangers back and took the full force of the barrage.  
Junior could only scream in horror, "LEAAA!"

**Crazy56U: [Gamera] "It ain't no use! We're headed for disaster!"**

**CaptainPipsqueak: "LUUUKE!"**

The rangers instantly teleported back to the command center, startling Sunset and her friends with sight before them.

**SC276: [Sunset] "...Really? Four or five of you can't act around a *single focused attack*? God, I hope we're a better magical girl team than you losers in movie 5."**

Twilight was the first one to rush to Lea's side,

**Mono: HOLY SHIT A MEMBER OF THE MANE 7 DOES SOMETHING!**

**Giginss: I know, Mono! It's almost like there is a crossover with Equestria Girls going on!**

**SC276: That makes no sense! Where did she fucking come from?!**

**Mono: Not important! Savor this moment of a canon character being useful while it lasts!**

"What happened to her? It looks like these red starfish are draining her energy!".

**SC276: [Twilight] "Why aren't you getting them off her?!"**

**[Gashat J] "And touch those slimy things with our hands?! Ew!"**

Xenilla then attempted to remedy the disaster,

**Mono: Too late, the fic's still here.**

**Crazy56U: Our minds said, "No!", but their hearts were talkin' faster.**

"Everybody stand back! I'm going to try using one of my healing crystals!",

**BittplexMutt: And then she was stabbed by the crystals.**

**CaptainPipsqueak: The irony was lost on noone.**

Xenilla then pulled out a blue crystal and placed on Lea.

**BittplexMutt: turning her into ice instantly.**

A flash of blue light went off as the crystal's healing energies were put to use, but it was a vain effort. Xen's crystal had no effect on Lea's condition at all, "Why isn't this working?! This has never happened in all the times I've used this technique!".

**Mono: Guess the crystal doesn't like this Stu bullshit either.**

**SC276: [Lightning Dawn] "This New Age Healing site on the Internet *totally* said this would work!"**

**CaptainPipsqueak: Performance issues? Poor guy. You'll never live this down.**

Mothra soon stepped in, "Calm down Xenilla. Lea's affliction can only be cured by another of the divine moth lineage, like myself.

**SC276: *Being covered in starfish* requires divine intervention to cure?!**

**Mono: ...I never thought I'd read that sentence in my entire life.**

**Giginss: Taken out of context, that would make for a very weird story.**

**CaptainPipsqueak: Taken *in* context makes for a very weird story.**

Sadly, I don't have enough energy to cast the spell. But...there is another way."

**Mono: "It does involve twenty liters of Pepsi and a hunk of pure gold, though..."**

**Giginss: [Moth] "You must find Spike, and sacrifice him to me."**

**SC276: [Twilight] "Who?"**

Junior steeled himself, "Whatever it is, do it. Please, we'll do anything as long as it means we can save her."

**Topher: [Mothman] "I'm going to need three bananas, a teddy bear, two gallons of extra-virgin motor oil, the tears of a middle-aged man named Greg, and a tortoise."**

**BittplexMutt: "And some flames of passion, the largest pumpkin pie, mozzarella sticks.."**

**CaptainPipsqueak: "And a partridge in a pear tree."**

**SC276: "And that guy's leg."**

"You can count us in too!", Twilight shouted.

Mothra smiled, "Thank you all for your resolve, but only I shall be needed for this.

**SC276: [Gashat Roadie] "...What is this... despairing feeling in my heart... like my talents are being invalidated...?"**

**[Rainbow Dash] "It's called 'being rendered as cheerleaders.' *Welcome to our world.*"**

**BittplexMutt: [Sunset] "Also, get used to it."**

Before he passed, Lea's father, Battrra,

**SC276: I do *not* want to know moth mating rituals.**  
**CaptainPipsqueak: Probably involves dancing around a candle.**  
**BittplexMutt: Good thing it's not that kind of fic.**

gave his energy to her shortly after she was born. Because it was so great, I put locks on Lea's full power to keep it at a stable level. If I release the lock now, the energy should just be able to heal Lea!

**Mono: What a fucking coinkydink!**  
**SC276: Time to unlock more true potential.**

I can activate the spell, but once I cast it the rest is up to my daughter."

**SC276: So, the response to having her energy drained is... give her more energy?**  
**CaptainPipsqueak: That's so crazy it *just might work!***

After Mothra cast the spell,

**SC276: It involved a very embarrassing rain dance, which is why it was omitted from the narrative.**

Lea's mind soon drifted into a strange place.

**Mono: IHOP.**  
**Giginss: Florida.**  
**SC276: Unicornicopia.**  
**Topher: Wherever that hatch in the floor leads. She better not touch my stuff...**  
**Crazy56U: The 1970s.**

"Where...where am I?", Lea thought out loud as she took in her new surroundings.

**Crazy56U: [Lazy] "...wait, what the fuck, I'm on a subway?! Where does it go?!"**  
**CaptainPipsqueak: Somewhere deep within Mementos.**

After a while, Lea soon felt a presence she had felt, yet not felt before,

**Mono: So did she or didn't she feel it?**  
**SC276: Yes.**  
**Crazy56U: I think George Lucas getting sick of this fic.**  
**Mono: ...I'm not blaming him.**

"Who's there?", she asked.

A voice responded, "Lea, my daughter! You've no idea how much I've missed you!".

**SC276: About as much as we do.**

Lea struggled to hold back her tears, "Dad! Is it really you? I can't believe it! I've missed you so much! But, how am I here?"

**SC276: [Daddy Leash] "Well *obviously* you're dead. That's the logical explanation for seeing dead relatives in an otherworldly void. Thankfully for you, this author is not logical."**

Battra hugged his daughter tightly, "You were poisoned by a monster that shot you with parasitic projectiles that are draining your energy.

**Mono: [Leisure Suit] "...Sounds dumb."**

**SC276: [Gashat Leash] "I see... Well at least I know my friends will remove the projectiles stuck to me so they stop hurting me further."**

**[Daddy Leash] "Uh yeah, about that..."**

But you can beat this! My energy burns within you!

**Topher: "At this point you're medium rare!"**

**BittplexMutt: "You'll only suffer second-degree burns!"**

**CaptainPipsqueak: "The scars will be on the inside! You'll still be attractive to any boyfriends you might make!"**

I have been guarding it until the time was right for you to use it, and that time is now! Set it free, and you will not only be healed, but you will gain strength beyond any of our lineage!".

**SC276: This is gonna turn into power creep really goddamn quickly. That, or this fic will lose all tension whatsoever. Bit of a coin toss there.**

**Giginss: "Be empowered, my daughter! Let the power of DEUS-EX-MACHINA flow through you!"**

**CaptainPipsqueak: Heads we lose, tails we lose.**

Lea's gaze hardened with determination,

**SC276: You leave *Undertale* out of this!**

**CaptainPipsqueak: \*Toriel grabs a baseball bat\***

**Crazy56U: (is eating spaghetti) *No one say it, I'm hungry and I want to finish this.***

"I accept your gift father! I swear to use it to defend our home with all my power!", Lea shouted.

**Mono: [Daddy] "Ok, ok! You don't need to shout... "**

**SC276: [Daddy Leash] "I am standing right next to you. Indoor voice, young lady."**

Back at the command center, Lea's body started to glow in a rainbow of light.

**SC276: And now *she* has the Elements of Harmony!**

**CaptainPipsqueak: Oh no; she's channeling Rainbow Dash!**

Soon enough, a bright flash went off, and Lea was standing after it faded.

**SC276: Like how a character was revived in the movie! ...Apparently! I only ever saw a Flash thing!**

**Crazy56U: BARRY, NO!**

However, her morpher seemed to fade out of existence,

**SC276: [Leash's morpher] "Fuck this shit, I'm out."**

**CaptainPipsqueak: Take us with y... Aw *fuck*, it got away.**

and rainbow colored butterfly-like wings materialized on her back.

**BittplexMutt: They hurt like hell though.**

Next, armor started to form on her body, but left her face exposed. Everyone's mouths were wide open with awe at the radiant sight before them. So everyone, "Lea quipped, "What do you think of my new look? "

**Mono: [Rainbow] "...Lame as hell."**

**Topher: [Goober] "You're leaving the most important (and delicate) parts of the body exposed. You will get yourself killed."**

**SC276: [Lighting Dawn] "I'm supposed to be the sixth ranger with the different transformation device, lady! This is cheating!"**

"It's absolutely gorgeous!", Rarity squealed.

**SC276: [Rarity] "Just make sure you don't fly too close to the sun."**

**Crazy56U: YEAH, FUCK YOU ALAN PARSONS!**

Lea simply smiled, "Glad I could leave most of you speechless, but I've got some payback to dish out against that living slab of trash that tried to take me out! See you guys in a couple minutes!", Lea called out as she flew off towards Daghadorah.

**SC276: And ran into the wall, because they were still in the hideout.**

**CaptainPipsqueak: Her wings, being far too delicate to support her weight, snapped off, spraying blood across the room. She shrieked in agony...**

Daghadorah was picking up where left off

**SC276: That last scene *had* to take at least ten minutes! You *haven't* poisoned the water yet?! God, Dedede's as much of an idiot as *both* Darknesses!**

until a familiar voice called out, "Hi there ugly! Ya miss me?", Lea chirped pleasantly. Daghadorah had no idea how Lea had healed so fast, and he didn't care! All he knew was that he had to destroy her!

**Mono: He was written to be as one-sided as possible.**

**Topher: Yeah, who would write such a one-dimensional persona? \*Is starting a fire in the corner\***

**CaptainPipsqueak: \*points up at the story title and the author's name\***

He fired off a barrage of his parasitic starfish, hoping to again infect her. Unfortunately, Lea was too fast for him to get a lock on her.

**SC276: So she dodged instead of blocked. Big goddamn deal.**

**BittplexMutt: Anybody can dodge nowadays.**

**Mono: Or was he too slow?**

**Topher: ... \*Beats Mono viciously about the head and neck with a crowbar\***

Lea then charged up a blast of energy with her hands, "I'm ending this fight now! PRISM RAY BLAST!", Lea cried as she unleashed a blast of rainbow colored energy at Daghadorah, causing him to explode!

**SC276: ...So, let me see if I'm remembering this right. Aside from the initial mook invasion, Gashat Roadie hasn't done a *single attack* so far, right?**

**BittplexMutt: He's obviously waiting his turn.**

**CaptainPipsqueak: He's fair like that.**

Ghidorah scowled at the defeat of his latest minion,

**Mono: Why is this guy surprised about this at all? It clearly didn't work last time.**

**SC276: I mean, the first half of him died in *two seconds*! What is he expecting at this point?!**

**BittplexMutt: He just likes to fail at this point.**

and barked an order to Belvera, "Fire that potion bomb! I was this close to victory! I will not be denied now!". Belvera then fired the bomb, and Daghadorah soon grew to gigantic size. Lea only smiled in the face of the massive monstrosity, "Time for a test drive! Let's see what my shiny new megazord can do!".

**Mono: Spoilers: jackshit.**

**BittplexMutt: As usual.**

Lea's megazord materialized in a flash of light, strongly resembling Lea's new armor.

**SC276: Mighty Maximum X? *Already?***

As Daghadroah charged toward her, Lea countered with a kick so strong it launched him into the air.

**BittplexMutt: Somehow.**

Lea then readied the megazord's main weapon, a blaster cannon pistol that promptly began charging.

**SC276: She's not actually in it, it's like one of those devices that mimic the wearer's movements.**

"Take this! Divine Seal Shot!",

**Topher: It's powered by burning blubber!**

**CaptainPipsqueak: So a percentage of MLP's fanbase?**

Lea shouted as she fired a rainbow colored blast that destroyed Daghadorah on impact. Back at the command center, as the others celebrated Lea's victory, Mothra was giving off a proud smile, "My little Lele,

**Mono: "*Ah-ah-ah-aaaaah*"**

**Giginss: "My little lele, I used to have powers from morphers"**

you've grown so strong.", she quietly whispered as Lea was greeted by her friends.

## Chapter 10

Gamera was bored out of his skull.

**Crazy56U: ... .. (seethes in rage) fuck yoooooooooooooooooooooooooooooooooooo**

**Mono: Same here, buddy.**

All he could do on Solgell Island was sit, fish, and wait until Junior and the others sent him word of their battles.

**Crazy56U: Glad to see that Rollergator (because, again, fuck you) can't be bothered to buy a Switch.**

**Mono: Maybe he just doesn't have the money.**

**SC276: Wait, did he show up before? I can't remember any of their actual names because I have a hard time with Japanese names I can't hear.**

**Crazy56U: Rollergator appeared in the hearts of children.**

While he was considered part of the team,

**SC276: Apparently???**

**Giginss: Yet he does nothing? Was he added as a "We pity you" moment?**

**Mono: Hey, I think I just found out how half of this team was chosen!**

**Crazy56U: (scoff) Half?**

**BittplexMutt: Maybe they just forgot he existed?**

Gamera lacked one crucial component that would let him fight alongside the rangers.

**Crazy56U: A gun.**

**Mono: Competence.**

**Topher: The author liking him. Also, losing a Death Battle against Godzilla.**

**Crazy56U: Hey now, that Death Battle was actually pretty fucking well put together.**

A morpher. Laying on the sand, he sighed in lament of his sentence of semi-infinite boredom, "It's not like they need another new megazord.

**SC276: They've already got like two. That's on par with the Kyurangers, and that group has *eleven* rangers in it.**

**Crazy56U: Well, Rollergator, you *could* always take up a hobby. Specifically, doing impressions. And yes I am inflicting this upon you all, fuck you all.**

But I bet Junior, Angirus, and Rodan's megazord could use a right arm.

**Mono: [Who the fuck was this guy again?] "And if not... \*pulls out a bonesaw\* I will make it so they could use one."**

**Giginss: Because they were not left-handed.**

**Crazy56U: Because left is right out.**

**BittplexMutt: Because they didn't have left hands.**

**Mono: Because two wrongs make a... crap.**

The tail becoming the left arm seems to put it off balance."

**BittplexMutt: "Somehow I guess."**

As Gamera was musing the possibility of becoming a ranger, Mothra was listening in on his thinking-out-loud.

**SC276: Big Moth is Watching**

**Mono: [Mothra] "Geez, this guy is a loony... "**

Knowing how helpful it was to have an extra ranger on-hand, Mothra smiled and materialized a power coin and morpher to send to the young guardian.

**SC276: *Well that was resolved goddamn quickly, why can't she just blow Dedede out of orbit again.***

**Crazy56U: "Now Rollergator can't kill himself out of boredom."**

**Giginss: Fake crisis? Check! Deus-ex-machina to avert fake crisis? Check!**

A sudden flash of light turned Gamera's attention from his day-dreams to reality.

**SC276: Much like how this author thinks *his* daydreams should.**

In front of him lay a morpher and a power coin that seemed to resonate in his presence. Gamera's mouth broke into a full-blown grin

**Crazy56U: [Rollergator] "**

**Topher: I feel somehow violated.**

**Crazy56U: *FEEL MY PAIN! FEEL MY PAIN!***

as he inserted the coin into his new morpher, "Guess I'm needed.

**SC276: No, a mothary tart just threw a sword at you.**

Better answer the call! IT'S MORPHIN' TIME!",

**Nox: Henshin!**

**Mono: Round 1! FIGHT!**

**SC276: THE WHEEL OF FATE IS TURNING**

Gamera cried as he morphed and teleported to Canterlot.

**BittplexMutt: Well, that happened.**

**Crazy56U: [Rollergator] "OH GOD IT BURNS"**

Meanwhile on King Ghidorah's ship, the would-be conqueror was striking a deal with a desperate alien monarch.

**SC276: So... with himself?**

**BittplexMutt: That's kind of.. icky.**

"And if we defeat these "kaiju rangers", you will grant us a home on Earth?".

**Mono: [King Nidoran] "Sure. You can have Wyoming, I guess... "**

**SC276: ~When I give her the keys to a shiny new Australia~**

The tyrant put on a fake air of sincerity, "You have my *word* Queen Legion.

**BittplexMutt: "Would I lie to you?"**

Once you beat the rangers, I will grant you a space for you and your people. *Trust me.*", Ghidorah said with a fake smile.

**SC276:**

**Crazy56U: (pissed off) Dude. No. "*Big Bang Theory*" is shittier than this fic.**

Queen Legion knew something was wrong when she agreed to King Ghidorah's conditions,

**Mono: Duh, he talks in italics. Don't you know people like that are very untrustworthy?**

**Giginss: This next battle scene will see the bad guys win this time. *Believe me.***

**Mono: These villains are like Pepsi in Coke Wins. They can't even win while they win.**

**Crazy56U: ...wasn't it Pepsi Invaders?**

**Mono: One of the two. Who cares, we have more fic.**

**SC276: Great, Dedede has mind control now.**

**Crazy56U: ...there's a potential Kirby fic in that sentence... ...too bad we can't have *that*.**

but she had no choice. Her people's world was destroyed,

**Mono: In that epic battle we didn't get to see.**

**SC276: A giant dog named Buster chewed it to pieces.**

**Crazy56U: Someone flushed a cherry bomb.**

and Earth was the only planet that was close enough to make a journey where all her children would survive, "I...accept your offer King Ghidorah.

**BittplexMutt: "I mean, it's bullshit, but I accept it nonetheless."**

I will defeat these rangers, but not for your sake! What I do, I do for my people.", Legion said with steel in her voice.

As she left, King Ghidorah chuckled darkly, "And now, I have made a queen my pawn."

**Mono: At least we know King Nidoran sucks at chess.**

**SC276: Given his tactical decisions, I doubt his ability to play fucking Candyland.**

At CHS, the rangers were enjoying their first quiet day in a long while. Until they received a message from Moll and Lora saying there was an enormous mass of alien bio-signs downtown.

**SC276: Because fuck the slice-of-life parts that made these characters *relatable*!**

"We don't know exactly how many there are, but they don't seem to be attacking. If anything, they seem to stop to let civilians evacuate.", the twins said in unison.

**SC276: [Gashat Roadie] "Will you stop doing that?! That's creepy!"**

**[Moll and Lora] "Maybe once you actually *attack* an enemy mutant."**

Junior was puzzled. Aliens that weren't hostile?

**Mono: That's alienist! \*ding\***

Maybe this was a trap, or maybe they were in some sort of trouble. Either way, he couldn't let this matter go without investigating it.

**SC276: This chapter has to happen somehow.**

"Alright guys, let's go see what our visitors want. "

At the same time, Gamera was making good use of his ranger suit's rocket boots when he also detected the mass of alien bio-signs,

**SC276: Which apparently are *not* transmitting their names.**

"Weird, they aren't attacking. I guess I should see if I can help them find what they're looking for."

**Mono: Something something U2 reference.**

Queen Legion breathed a sigh of relief. No humans had been harmed, and her soldiers hadn't needed to make use of their weapons to drive away any of them.

**SC276: They were all too happy to get out of this fic.**

All that was left was to wait for the kaiju rangers, and hope that they would surrender peacefully.

**SC276: If Dedede doesn't release a bunch of mutants on them as soon as they've put their weapons away, I'm going to be even more disappointed than I already am.**

While Legion was willing to abide by the terms of King Ghidorah's deal, she would prefer it if things did not come to blows.

**Mono: UMMM-nah, not sexual enough.**

**BittplexMutt: Not enough for a drug joke either.**

Earth offered a new home and safe refuge from the monster that destroyed her and her people's planet.

**SC276: ...The giant dog?**

**BittplexMutt: I.. guess?**

And she would prefer it if her new rule wasn't written in strife and pain.

**SC276: Then you might consider getting a transfer to another author.**

Soon enough, the rangers arrived on the scene.

**BittplexMutt: But they were late though.**

Queen Legion turned her attention to the rangers and addressed them, "Greetings kaiju rangers. I am Queen Legion."

**SC276: We know, the narrator's told us at least five times now.**

**Mono: She was shot on the spot.**

**Giginss: Did she at least have the Voice of the Legion?**

**Crazy56U: Her *real* name was Debbie.**

Junior stepped forth, "Hello your highness. I'm the Godzilla ranger, leader of the team.

**SC276: [Queen Legion] "Really? *That's* your name? Oh my god, I thought that guy was kidding. I feel sorry for you."**

Thank you for coming peacefully, but I must ask what brings you here? Is there something you need our help with? Please, don't hesitate to tell us."

Legion started to feel torn up inside.

**SC276: Reading a chain of five terrible fics that insist on daisy-chaining their terribleness will do that to you.**

These noble warriors were willing to help them, but Ghidorah's terms were clear,

**SC276: As in, they were written in invisible ink.**

"I'm sorry to say there is. We need you to surrender. I've made an agreement with an enemy of yours, King Ghidorah. But please understand, I take no joy in this task.

**SC276: Welcome to our world.**

Our home planet was destroyed by a space monster, and Earth was the closest planet that could sustain my people. It was then that I made contact with King Ghidorah. He made me a deal I couldn't refuse.

**Mono: No, he made you an *offer* you couldn't refuse.**

**Crazy56U: In other words, a suitcase full of rubber ducks.**

**Topher: \*starts playing the trumpet\***

**BittplexMutt: "I mean, waking up to a decapitated horse on your bed will do that to you."**

He said if I defeated you, he would grant us a space on this world to live on.

**BittplexMutt: Little did she know, that space was was the smallest space for anyone to live.**

Please surrender now. I don't want anyone to get hurt."

**SC276: [Gashat Leash] "...You know my mom's basically God, right?"**

Rodan's temper boiled forth at that point, "You actually trust that scumbag?! Do you honestly believe he'll keep his word?!"

**SC276: Shut up, Guy-Who-Never-Attacks-When-His-Friends-Are-in-Trouble.**

Xenilla was next to protest, "Queen Legion, I can understand why you're doing this. But Rodan is right, Ghidorah is an honorless scoundrel!

**SC276: The part of King Dedede will be played by the author.**

He will use any and all means to get what he wants, and will pay any cost to retrieve what he desires!

**SC276: You leave *Kamen Rider OOO* out of this!**

We want to help you, but this world is our home! And we can't let King Ghidorah rule it! All would suffer under his rule!"

**SC276: We're suffering *now*!**

Queen Legion sadly shook her head, "I'm sorry about this too, please forgive me. Stand back my children! I won't put any of you at risk!",

**Mono: ...What the hell are you attacking for, you suspected King Nidoran is a scumbag!**

Legion yelled as she charged her lance with energy and launched a volley of lasers at the rangers.

**SC276: UNLIMITED LASER WORKS!**

However, the lasers were stopped by a mysterious figure wielding a shield that looked like a giant turtle shell.

**Mono: So, Bowser it is.**

**Crazy56U: I thought you already named a character in this Bowser?**

**Mono: No, that was Unknown. ... \*eyes the balls\* I said, *no, that was Unknown...***

**\*still eyeing the balls\* I said- fuck it. \*picks up a previously dropped ball and lets it drop to the ground.\***

**Crazy56U: (looks at the ceiling) ... ...who the fuck jammed an Ultra Machine into the outflow pipe?**

**Topher: Oh! I know what to call him now! I'll call him "Tibby!"**

**SC276: Eh, I'm more inclined to "Gashat Camera."**

Gamera lowered his shield and turned to his friends, "Hey guys! Am I late to the party?"

**SC276: [Gashat J] "Who the fuck are you?"**

**Crazy56U: (is busy removing the Ultra Machine) Shut the fuck up, Reptilicus, you were just sitting on your ass this whole fucking- (is suddenly buried under an avalanche of balls)**

Queen Legion was in awe, nothing could have stood up to a barrage of that scale.

**SC276: Except for the thing that just did.**

Shaking out of her wonder, she fired of one volley of lasers after another in the hope of Gamera's shield reaching the limit of it's endurance. Instead, Gamera's shield absorbed all of the blasts and released them as a single reflected shot right back at her!

**SC276: The part of Gashat Camera will be played by Mercurymon.**

As Legion was knocked to the ground from the blast, Ghidorah descended. "You have failed me fool.

**Mono: Nothing you did has worked so far, were you ever surprised?**

**BittplexMutt: Man, this version of *King Lear* is so bizarre.**

Perhaps I put too much faith in your desperation.

**SC276: [Queen Legion] "It's been five seconds-!"**

Ah well, I'll simply finish what I started with your home planet. Farewell.", Ghidorah said with a cruel smile. Legion froze in shock. She had made a deal with the very same monster who laid her home to waste,

**SC276: I can see how she couldn't tell. After all, him destroying her planet was him winning.**

and she cursed herself for trusting his word as she braced for the end.

**BittplexMutt: She speaks for all of us.**

But Gamera had other ideas, "Monster!", he cried

**Crazy56U: Rollergator is a self hating racist, alrighty...**

as he leapt to Queen Legion's side,

**SC276: Oh shut the fuck up, Shield Knight.**

"You destroyed her world, and the used her to do your dirty work?! You're no king, Ghidorah! You're a coward!",

**Mono: [Bowser] "Whereas I AM A KAIJU! \*Punches King Nidoran\*"**

Gamera cried as he blocked Ghidorah's blast and reflected it back to give the tyrant a taste of his own medicine.

Ghidorah scowled as he took note that the odds weren't in his favor,

**SC276: So, there's now *two* game-breaking good guys, three if you count Lightning Dawn. How far into this damn story are- <chapter 10 / 17> Fuck this story.**

"Grrrrr...Next time Kaiju Rangers! I will see you destroyed!"

**Mono: I'll get you next time, Gadget! Next time!**

**Topher: \*Angry Meowing\***

As King Ghidorah left, Queen Legion nervously stepped towards the rangers, "I'm so sorry. I can't believe how foolish I was! I feel so awful just because I even listened to his offer!

**SC276: You think *you* feel awful, we've dealt with him far longer than you have!**

I...".

Gamera put a hand on her shoulder, "You don't need to be sorry for anything. All you were doing was looking out for your people, your children.

**SC276: [Gashat Camera] "And they're all... very *not* ugly as sin."**

And you were willing to save them even if it meant risking your life. But there is a better way to find a home for yourselves on Earth. Try meeting with our leaders and explain your situation."

**Mono: Yeah, just go up to the president and say you're an alien whose planet is destroyed and is looking for a new home. Everything will work out just fine!**

**Crazy56U: (stage whisper) *no one comment, ring is reading***

Legion couldn't hold back the tears of joy falling down her face, "Thank You! Thank you so much! We all owe you a debt we can't repay!", she said as she and all her people bowed in respect.

**Topher: And she didn't try this first because...**

**SC276: It took Dedede coming down here for her to realize that the only space-to-surface weapons he has are growth serums.**

"You owe us nothing your highness.", Lea said with a smile.

"After all,", Junior said with a chuckle, "friends don't have to owe each other anything.

**SC276: Which would explain why you owe us tons of explanations and an apology.**

You know what means right?"

Queen Legion was puzzled, "We're friends?"

**SC276: [Queen Legion] "With *you* losers?"**

"Exactly!", Junior said with a grin.

**SC276:**

**Crazy56U: (pissed off) Would you kindly stop using that fucking picture?**

**SC276: That's the trope image for The Unsmile, I'm doing a lot of things at once.**

**Crazy56U: I'M PRETTY FUCKING SURE THERE ARE BETTER EXAMPLES THAT YOU COULD HAVE FOUND A PICTURE OF**

"I've gotta throw a 'Happy Welcome to Earth New Alien Friends Party'", Pinkie said bouncing off the walls of the command center.

**Mono: Because that is something that *EQG!Pinkie* does!**

**BittplexMutt: Or what any Pinkie would do!**

**Topher: Each bounce left an increasingly bloody dent in the walls.**

"Well Rarity,", teased Rainbow Dash, "looks like you'll get to meet royalty sooner than you thought!".

**Mono: [Rarity] "Did you forget I already met the evil king in the beginning of the story?"**

Sunset and Twilight couldn't contain their excitement, "I can't believe we get to meet people from a whole other planet!", Twilight almost screamed.

**Mono: Well, you already met yourself from another dimension, I guess this was the logical next step.**

**Topher: [Twilight] "SUCK IT, NASA! Oh, you found 7 earthlike planets? WELL GUESS WHAT FUCKERS! I FOUND WHAT EVERYONE WANTED YOU TO ANNOUNCE!"**

"You mean ones that are friendly for a change?", Sunset said jokingly. They all laughed as they thought fondly of their new friends from across the stars.

**SC276: And now I'm sad that Queen Legion is the most relatable character in this fic.**

Author's Note:

Well, this is my first story so I'm not surprised it got so many dislikes.

**Mono: Dude, my first story was a piss-poor, terribly written pseudo-self-insert, and before I rightfully deleted it from FimFic, it had 17 likes and 2 dislikes. "This is my first story" is never an excuse.**

**Crazy56U: Pretty sure a good amount of the shit we cover are also the first stories of various people. What makes *you* so special, Author?**

Still, feel free to leave suggestions in the comments if you feel there are things that could be improved.

**Mono: How about *everything*!**

**Topher: Step one: Pour bleach into the cup. Step two: Drink.**

**SC276: Step three: *SLOW THE FUCK DOWN***

I greatly appreciate any reader input! Next time on Mighty Morphin' Kaiju Rangers: A new warrior appears that knows no loyalty on his quest to recover his path.

**SC276: *Another* fucking ranger, are you fucking kidding me.**

Don't miss the debut of Monster X,

**Mono: Dude's not even trying to make up Kaiju names anymore at this point.**

in X Marks The Spot Part 1: Fall of the Kaiser!

**Topher: Suddenly, Germany.**

**Crazy56U: What the fuck, why is the Godzilla MLP Power Rangers fic about to drag World War I into this?!**

**Mono: *YOU LEAVE FRANZ BECKENBAUER OUT OF THIS!***

**SC276: *~Try the rye or the kaiser, or the wheat or the white...~***

Chapter 11

**Mono: Goddammit, I'd rather read *Root of the Problem* than this fucking crap!**

**Topher:** I've never heard of that. I'm going to Google it, but my gut says I'm going to regret it.

**Mono:** It's an environmental PSA that's posing to be an MLP comic. Also, by the end, you'll be craving venison.

**Crazy56U:** It's also a prime example of why the IDW comics will *never be canon*.

**Topher:** Which is a shame, because I kinda liked the Accord arc.

**Crazy56U:** (violent enraged scream; jabs boxcutter into Topher's eye)

**Topher:** IT WAS A CREATIVE IDEA WITH EXCELLENT VISUALS AND YOU KNOW IT!

**\*brains Crazy with a sledgehammer\***

**Crazy56U:** (skull partially caved in; slurring) UUUU OOO (tackles Topher; attempts to beat him to death)

**Topher:** \*is fighting Crazy\* **RAAAAAAAAAUUUUUUUGGGH!!**

**SC276:** ...OK, moving on...

A small meteor streaked across the night sky in Canterlot. Once it landed on the outskirts of the city,

**SC276:** And caused a storm of dust to cover the atmosphere for decades, starting another ice age...

it was blasted apart by a force from within.

**SC276:** The fic's self-destructing?

As the dust cleared, a figure emerged from the crater.

**Mono:** Damn, that was a large small meteor.

Though he looked human, he was not of this world.

**Mono:** No shit, he came falling out of the goddamn sky!

**Topher:** So? I climb out of a hole in the ground. Then again, I only do that so I can make gopher puns.

'Where am I?', was the thought on the mysterious figure's mind.

**SC276:** You don't want to know. Trust me.

He knew his physical appearance, black skin,

**Mono:** Ummmm... no jokes to find here!

**Topher:** Yep! Nothing to see here!

**Giginss:** That's racist. \*ding\*

**Mono:** ...We were trying to *avoid* the obvious here, mate. \*Throws a ball at Giginss\*

**Crazy56U:** Not good enough, Mono. (dumps a milkcrate of balls on Giginss)

white hair, and red eyes. By the look of his garments, he knew he was a soldier. But the most crucial information was absent, his memories.

**SC276:** Oh boy, another fucking amnesia plot. I hate these.

**Crazy56U:** Really? Huh, I forgot.

'Why can't I seem to recall any part of my past? Where is my home? What is my race? What is my name? Name..name...

**Mono: Cue that one scene from Spongebob.**

**SC276: The lid.**

**Crazy56U: First you do *this*. Spin around, STOP! Double take three times. One! Two! Three! Then pelvic thrust! Whoooo! Whoooooooo! Stop on your right foot, *don't forget it!* Now it's time to bring it around town. Bring-it-a-round-town. Then you do *this*, then *this*, and *this*, and *that*, and *this-and-that-and-this-and-that*, and then- (kicks the table over)**

wait...', the figure was snapped out of his thought as something seemed to come back to him, a memory from long ago. In this window to his past, he saw a woman with pale blue skin, and white hair

**SC276: Maria?**

who seemed to be calling him, "X". 'X...that's my name. X.',

**Topher: [X] "And I want... the CRESTONBIRDMANSHELMET!"**

X now had one piece of the puzzle, but the rest was still a mystery.

**SC276: One which I hope goes unsolved.**

Hearing the sound of people heading his way, X thought it best to make himself scarce. Once he found shelter, he took a careful look at his choice of clothing. "Hmm, better find a change of clothes soon. I stick-out like a sore thumb.",

**Mono: Pretty sure it's not the clothes, buddy. Also, I don't know why I'm just now mentioning this, but this author has no idea how punctuation works.**

**SC276: The soldier outfit is making me think of Beatrix from *SteamWorld Heist*, which makes me hate this story more for dragging *SteamWorld Heist* into this.**

X then turned his attention to the scarf he was wearing. For some reason, he felt a sort of attachment to it,

**Mono: And then he fell in love with the scarf.**

**Crazy56U: And then he did unmentionable things to that scarf.**

"This on the other hand, I'm definitely holding onto.", X said as he let sleep overtake him. When morning came, he would find a new outfit.

**Topher: Oh, Rorschach is going to be *PISSED* when he finds out someone stole his stuff from the alley.**

School had just let out for the day. Anguirus was walking with Rarity as she made her way to her job,

**Mono: Ummm, author? It's never been established she runs her boutique in the EQG!verse. You got the wrong Rarity, good sir.**  
**SC276: How cute. You think the author gives two shits.**

"Need any help with heavy lifting? I'm free this afternoon and have nothing better to do.", Angiurus offered.

**Mono: [Black Angus] "That is until the next monster of the week shows up, of course."**  
**SC276: That'll be rectified in about five seconds when the author remembers this fic doesn't have slice-of-life.**

He and Rarity had become an item,

**SC276: [author] "That's what girls are for, right?"**

so he felt it was only fair that he should help her out from time to time. Rarity smiled at him, "I gladly accept your offer darling! Sometimes I can't believe I got so lucky to have you as my boyfriend."

**Mono: \*pukes\* Uuuurgh... this fucking sappy fake-romantic dialogue makes me sick...**  
**SC276: I'm pretty sure if I find the right aiming angle, I could ricochet this shot off the walls and ceiling to hit me in the back and kill me.**

Angiurus blushed at the compliment. He could easily handle aliens, mutants, and monsters, but girls were a whole other category.

**Topher: They're so complex, almost as if they're people or something!**  
**SC276: That's because if you hit them, you're violating chivalry.**

Xenilla noticed the two walking by and decided to catch up with them, "Hey you two! Mind if I join with you?"

**Mono: [Black Angus] "Fuck off, I'm with my girlfriend."**  
**Topher: Who doesn't love a third wheel though?**  
**SC276: [Lightning Dawn] "Yes. 'Your' girlfriend."**

Rarity was a bit puzzled at why Xenilla was interested, "Of course not Xenilla! But may I ask why you're interested?"

**SC276: [Lightning Dawn] "Because I'm... *totally not* the guy that inserts himself into every plot even if my presence makes everything worse."**

"Sunset told me you've been able to integrate gems into your designs. I may be able to form and control crystals, but not even I've been able to add them to any garments without looking out of place.

**Mono: Yeah something tells me that even with *Rarity's* help they're gonna look out of place.**

Also, some of my crystals might just inspire your next big hit! So what do you say?"

**Topher: Wow, brag much?**

Rarity could barely contain her excitement, "Pick up the pace gentlemen! We've got a boutique to open!!".

**Mono: Once again, wrong Rarity. This one is a *fucking high schooler*.**

**SC276: [author] "If Sugarcube Corner is in EqG, then all the other places must be too! *Logic!*"**

Anguirus and Xenilla almost had to floor it to catch up to the driven designer.

**SC276: [Gashat Sora] "Gheeze, I liked it better when she *didn't* show a personality!"**

After they arrived at Carousel Boutique, Anguirus took care of moving the heavy boxes while Rarity took inventory. As soon as that was finished, Xenilla took the opportunity to show his mastery of crystals to his friends.

**Mono: Showoff...**

**SC276: As well as running, dancing, punching machines, soccer, and fighting giant alien crystal monsters fused to orbital mind-control cannons.**

All the while though, Rarity was burning through her design sketchbook.

**SC276: Someone get a fire extinguisher!**

**Topher: All our fire extinguishers are depleted! I used them up when I tried to break the land-speed record on a swivel chair!**

The day seemed to be going slow,

**SC276: That's because a monster hasn't attacked in the last five minutes.**

until a lone customer came through the doors.

**Mono: *Customer?* \*sighs\* Have you even *seen* the first EQG! These! Girls! Are! In! High! School! High! Schoolers! Do! Not! *Own!* Clothingstores! Or boutiques for that matter!**

Rarity was about to greet him when, "Welcome to Carousel Bou...gasp!". X didn't know why this girl was gasping until she got close to him and started to examine his beat up clothes.

**SC276: His outfit has been in better fight scenes than this story's.**

"Oh this is simply dreadful darling! You look like you've been through quite a fight! Fortunately, that lovely scarf seems to be undamaged."

X mentally face-palmed for missing the obvious,

**Mono: ...The obvious what?**

**SC276: Author, that requires you to state the obvious in the first place.**

"Thank you for the compliment. In fact, my current predicament is what brought me here. The problem being this is the only outfit I own. You sell clothes here, yes?"

**Mono: No, she fucking- well, technically she could *sell* them, but this isn't her store!**  
**Topher: She does fucking there? I'm not really surprised.**

Rarity's face steeled with determination, "Darling, I've just made it my mission to create the best outfit possible for you! You needn't worry about a thing Mr.?"  
"X."

**SC276: [Rarity] "(laughs) Oh sorry, that was quite unladylike of me. Now, really, what is your name?"**

Rarity was scooping up garments left and right in order to help X assemble the perfect outfit. After testing out different styles, Rarity and X seemed to arrive at a winning outfit. "X, you look positively dashing", Rarity said.

**SC276: (dark creepypasta flashbacks) Author, I do not want to hear "X" and anything relating to speed in the same sentence.**  
**Topher: Wait, why wouldn't we- \*'nam flashback\***

X's new outfit consisted of black jeans, black boots with white shins, a white shirt, and a black coat.

**Mono: ...\*shrugs\* I've seen better.**  
**SC276: Aaaaaand I've already forgotten it.**

X's pleased smile faded when he came to an unpleasant realization, he had no money to purchase his new duds! Rarity seemed to take note of X's shock, "Don't worry darling!

**SC276: [Rarity] "I need someone to 'model' anyway. And by model, I mean I tie them to the wall and take their clothes on and off. It's totally not creepy, trust me. No one shortchanges Rarity, bitch."**

You look as though you're low on cash. This one's on the house!"

**Mono: Wow. Rarity is a terrible business owner. Fitting, seeing as she's in *FUCKING HIGH SCHOOL!* This one fucking mistake is *pissing* me off so much!**

X smiled, "Thank you Ms. Rarity, most generous of you.", X said as he left.  
Meanwhile on King Ghidorah's ship,

**SC276: And now that that slice-of-life nonsense is over with...**

the galactic tyrant was assigning his newest minion their first mission.

**SC276: Yes, because a new guy will be able to do what the more experienced ones couldn't. Totally.**

"You'd best not fail me!"

"Affirmative. This unit will carry out mission objectives with extreme prejudice."

**SC276: Well I'm feeling prejudiced alright.**

"Good. Now let's see if a machine can do a monster's job! Go Mechagodzilla!

**Mono: Mecha... Godzilla... \*sighs\* I'm not ready for this. I don't think I'll ever be ready for this.**

**Crazy56U: A robot enemy to fight Gamera, eh... ..should I go with "Crow" or "Tom Servo"...**

**Mono: Why not play it safe and go for "Gypsy"?**

**Crazy56U: Why don't you go play it safe and watch the Netflix revival?!**

**Mono: Crazy, you're on very thin ice right now...**

**Crazy56U: Make something of it! You won't!**

**Mono: ...Okay, fuck you then. \*stabs Crazy in the throat\***

**Crazy56U: (gurgle) Aay. Oin ae. (bleeds out and dies)**

**Mono: \*looks at Crazy's corpse\* ...I'd go with Crow, by the way.**

**Topher: No love for Cambot?**

**Crazy56U: Mono just killed a man, show some tact.**

**Topher: We killed each other over a comic a few pages ago.**

Destroy the Kaiju Rangers!". And soon, the mechanical menace made his way to Earth .  
Back at the command center, Sunset noticed Mechagodzilla on the grid

**Crazy56U: [Crow] "(vague Homer Simpson voice) Marge! The Grid caught me!"**

**SC276: Unless it's the Game Grid, I don't care.**

and alerted the rangers to his presence. "Rangers, this is Sunset!

**Crazy56U: [Sunset Shimmer] "(demonic Marge Simpson voice) I NEED YOU TO GO OUT AND BUY EGGS FOR BARRRRRRRRRRRRRRRRRT!"**

We've got incoming towards Canterlot! Looks like a silver mini version of the Godzilla zord!". The rangers then morphed and headed to the robot's location,

**Crazy56U: And so the mission began.**

and arrived just as it was making its' attack on the city.

**Mono: But... if it's mini...**

**SC276: Well someone just missed the entire point of Mechagodzilla.**

**Crazy56U: [Crow] "BEEP. BOOP. BOP. FUCK CITY."**

"Yo chrome dome!", Rodan yelled, "Don't you have an oil bath to take or microchips to eat?"

**Mono: ...Ha.**

**Crazy56U: (holds up a "1/10" scorecard)**

**SC276: I dunno, Roadie, don't you have attacks to make?**

**Topher: [MechaGodzilla] "Well I don't know meat bag, don't you have a protoplasm bath to take or carbon-based sugars to eat?"**

**Or, alternatively**  
**[MechaGodzilla] "Wow. That's *really* racist."**

"I don't know Rodan. He looks like more of a nuts and bolts diet kind of mech.", Gamera joked.

**Mono: ...HA.**

**Crazy56U: (crosses out the score; replaces it with a "0")**

Mechagodzilla only turned towards his opponents and scanned how many there were. "Beginning replication of unit. Odds: favorable."

**SC276: What about the odds of enjoying this story? Oh wait, I already know those.**

Soon there were seven robots instead of one, and each proved deadly as they engaged the rangers.

**SC276: Right. "Deadly."**

X had noticed the battle and was watching behind cover, 'That honorless piece of scrap metal!

**SC276:**

I think I should help even the odds', X thought as his hands crackled with golden gravity energy.

**SC276: I'm pretty sure if gravity was golden, Newton would be rich. ...Or maybe richer, I don't track that.**

Mechagodzilla smiled coldly as he was certain nothing would derail his mission,

**Mono: But... it's a robot- fuck it, why do I even question this shit?**

**SC276: Apparently, none of the Three Laws of Robotics were written by Murphy.**

until his six duplicates were shot with golden blasts of energy that seemed to pick them up and wreck them.

**SC276: [Mecha Sonic] "...What the everbleepin' bleep?"**

**Topher: [Goober] "Why is he making those fucking beep sounds?"**

X then made his presence known by taking the robot by surprise and knocking its' head off.

**SC276: And once again, Gashat Sora and Gashat Roadie fail to do anything.**

**Topher: \*resigned Sigh, blows a pitch pipe\* ~OOOOOOOOOH If you want possessive, it's just I-T-S, But if it's supposed to be a contraction then it's I-T-apostrophe-S!**

***...Scalawag! ...Also you fucked up where the apostrophe goes, even when you fuck up you do it wrong! ...Scalawag!~***

Mechagodzilla knew that the odds weren't in his favor, "Error! I require a potion bomb to increase the chance of victory!".

**Mono: Because fuck it, this story needs 75 more words or so.**

**SC276: [King Dedede] "OK, Waddle Dee, explain to me *again* whya potion bomb works on a robot."**

**[Waddle Dee] "Um... bullshit plot magic?"**

**[King Dedede] "That's what I thought."**

Ghidorah lauched a potion bomb to repair and enlarge Mechagodzilla. Godzilla, Anguirus, Rodan, and Gamera formed their megazord, with Gamera forming the new left arm with his zord's shell becoming a shield.

**SC276: Look, we get it, it's stock footage, but this isn't a fucking magical girl anime here.**

Mechagodzilla fired his lasers and missles at the megazord, only for the shield to block the deadly barrage and causing him to waste all his ammo.

**SC276: [Mecha Sonic] "I *really* didn't think that through."**

Junior then called down the power sword, "Time to send you to the scrap heap!", he cried as he slashed Mechagodzilla in half, causing him to explode.

**Mono: ...Well, that was pointless.**

**SC276: ~Another one bites the dust...~**

**Topher: We interrupt... whatever this is to bring you *Samurai Jack*.**

After the battle, Anguirus noticed that the guy who had just saved him and his friends was the same one at the shop earlier, 'I hope this means he's on our side.', Anguirus thought.

**Mono: He knocked it's head off, why the fuck do you doubt he's on your side?**

Unfortunately, King Ghidorah also took note of X and also seemed to recognize him. 'It can't be! This warrior is the same that nearly ended me all those years ago!

**SC276: The guy who kicked a robot's head off? Buddy, I'm guessing you've never seen *Xiaolin Showdown*.**

I'll never forget it! He turned into "Kaizer",

**Crazy56U: "Bread", got it.**

some imitation of my true form! And he nearly destroyed me with that power!

**Mono: [King Nidoran] "And I can't stop spouting out exposition like this!"**

**SC276: ~Try the rye or the kaizer, they're on special tonight...~**

But when he transformed it was like fighting an entirely different being! Thankfully he seems to have no memory. But even if I can convince him to join me, I must be cautious. For if the Kaizer awakens again, no place in the universe will be safe for me!

**SC276: Given your track record for tactical decisions, no place in the universe is safe for you anyway.**

"Belvera! See if you can find this 'X', I believe I've just found my latest warrior to destroy the rangers."

**SC276: [King Dedede] "You can totally make another one of those swords, right?"**

X was walking in the woods, thinking about how to regain his memories.

**Mono: [X] "Maybe if I hit myself over the head hard enough..."**

"Are you X?", a woman's voice called out.

"Who wants to know?", X asked.

"My name is Belvera. My master King Ghidorah wishes to help you with your case of memory loss.

**SC276: Dude, the robot's dead, it's not going to have memory leaks.**

Please come with me, he is quite anxious to meet you."

X was unsure for a moment, until a voice in his head spoke up. "Ghidorah knows something about us X! Let's see what we can find out!", the dark voice said.

**Mono: Oh man, his split personality starts to come out.**

**SC276: Because of course.**

**Topher: Wait, is hearing voices not normal?**

X didn't know where the voice came from, but knew that he had to take any chance he could get to find out about his past, "Very well then. I'll see what he wants.". As he was teleported to Ghidorah's ship, X was soon face-to-face with the would-be tyrant.

**Mono: Excuse me, would be?**

**SC276: You've been paying attention to this story, right? This guy is so bad at leading he goes through elite minions like tissue paper. And he's not even sending out *normal* mooks to go with them like *actual* Sentai villains.**

"Greetings X. I have heard of your plight, and wish to aid you. I just have one favor to ask in return."

**SC276: "Tell me your wish. I will grant anything you desire. I ask only for one thing in return."**

"Name your terms.", X said flatly.

Ghidorah smiled evilly, "Those warriors you aided today are known as the Kaiju Rangers. They have been a constant nuisance in my plans for this planet.

**SC276: Building Eggmanland?**

Destroy them, and I shall revive your memories."

**SC276: Way to insinuate the guy you want to help you is brain-dead, Dedede.**

X knew something was wrong about this, but felt there was no better option,

**SC276: Aside from, y'know, not riffing the fic.**

"As you wish."

The next day, the rangers all had one thing on their minds as school seemed to drag on.

**SC276: Mostly because their personalities are so interchangeable they might as well all be one guy.**

Whoever their mysterious savior was, he certainly didn't pull any punches.

**SC276: ~In life you can't just keep going around cutting corners...~**

Not only had he taken out Mechagodzilla in under a minute, but he was also able to take out all of Mechagodzilla's duplicates like they were a pile of tin cans!

**Mono: ...WHAT DUPLICATES?!**

**SC276: The guy split himself into seven. Don't worry, these guys go through monsters so fast, I don't blame you for missing it.**

**Mono: Oh... \*ball drops in the background\***

Xenilla seemed the most puzzled about the whole situation. He knew that X wasn't human, but he didn't know where he came from or even why.

**SC276: [Lightning Dawn] "It's like my situation, only less awesome because it's not me."**

He would soon get his answers when his communicator went off, "Moll, Lora what's up?"

"Xenilla! We've picked up a strong alien bio-sign in the down town area!

**SC276: Right. "Strong."**

**Topher: Strong in the same way root beer is strong.**

It's already attacking!"

"The other rangers and I are on our way!"

X was taking care not to accidentally hurt any of the people in his path.

**Mono: While bringing down buildings filled with people.**

**SC276: I wonder if a Megazord in *Rangers* or *Sentai* has ever accidently stepped on someone.**

He was only there to fight the kaiju rangers, so there was no reason to get any civilians caught in the crossfire.

**SC276: So, you're basically doing what Queen Legion did. Literally the chapter before this. ...Or maybe two, my brain's still thrashing.**

**Topher: Hang on. \*Injects a glowing orange liquid into SC's head\* This'll make your brain stop thrashing. Or thinking. Or maintaining basic functions.**

**SC276: Ooh, orange!**

X sighed after all the people had fled the area. The rangers seemed to be the protectors of this planet,

**SC276: Well, more like this one specific city that Dedede just keeps dropping his guys into instead of heading to the other side of the planet for no discernable reason.**

**Topher: In fact, now that I think about it, Don't the Kaiju Rangers have a floating space platform too? Chase Dedede down and WASTE HIS PUNK ASS!**

so what would happen to this world should Ghidorah claim dominion?

**Mono: An evil king is about to take over the earth, what would you *think* would happen?**

Though he wasn't on Earth for very long, X felt a sense of peace on this world. But orders were orders, and X had memories to reclaim. It was then that the dark voice in his mind spoke again, 'Show them no mercy! Ghidorah knows something about us, and only promised to tell us if we destroy the kaiju rangers! None shall stand in our way!'. X clutched his head, knowing these thoughts weren't his own.

**SC276: The part of Monster X will be played by *fucking Strike and Vezon*.**

**Mono: Yaaaaaaaaaaaaaaaaaaaaaay. Excuse me while I'll be in the corner rethinking my life choices...**

**Topher: \*Goes to another corner\* Yeah, we're gonna need more corners.**

Soon the rangers arrived, and Xenilla was the first to address X, "Hey X. Didn't expect to see you this soon.", Xenilla said as he powered down.

**SC276: Boy, you're fucking stupid.**

X was shocked, "I remember you from the shop! You're one of the kaiju rangers?", "Yes I am. Now I have a question for you. Why are you attacking?".

X slightly grimaced as he answered, "I am here to draw you out.

**Mono: And so X started to attack the rangers-**

King Ghidorah made a deal with me. I have no memories of my past, and Ghidorah promised he would restore my memories if I destroyed you.

**Mono: And so X started to attack the rangers-**

I'm sorry, but I promise to defend this word after you're gone."

**Mono: And so X- it's not gonna happen anyway, why am I even hoping for it?**

**SC276: OH MY GOD STOP TALKING YOU DON'T HAVE THE PACING FOR THIS**

Xenilla was saddened by X's answer,

**SC276: I'm saddened by the author's idea of a good story.**

"I'm sorry X, but we aren't going down easy!", Xenilla said as he morphed again.  
"I'm sorry too...", X said as he charged forth.

**SC276: I'm sorry I have to deal with this.**

The fight, if it could be called that,

**SC276: YOU DON'T GET TO SPEAK LIKE THAT, AUTHOR**

seemed to be in X's favor early on. Rodan and Mothra tried a series of dive bomb runs,

**SC276: Oh how cute, Roadie's actually trying to *do* something.**

but X seemed to get them surprise when he used his powers to levitate to their level and blast them back down to the ground. Anguirus, Gamera, and Destoroyah tried to rush him, but were blown back by the force of X's gravity blasts. The other ranger's damage had caused them to power down into their civilian forms, leaving only Xenilla and Junior left in their ranger forms.

**SC276: So, let me get this straight: the girl that unlocked godly power like three chapters ago... lost, while the dull-as-fuck main character and fucking Lightning Dawn are... still standing. ...I hate this fic so much.**

**Topher: And so far the EQG characters have done... \*Consults clipboard\* JACK FUCKING SHIT.**

The two brothers charged at X, their swords and blasters ready to strike. For a moment they seemed to have X on the defensive with a barrage of blaster fire and close swipes with their blades. That was until X surprised them with punch in Junior's gut and kick Xen's face, the resulting damage causing them to power down.

**SC276: I would exclaim surprise that Lightning Dawn lost, but then again, God-girl lost too, so I've pretty much given up on logic.**

Pleased with the sight of the rangers defenseless, King Ghidorah warped down to X's location,

**SC276: And once again, Dedede proves the most worthless villain ever by showing he can teleport and yet he *doesn't do shit to actually win*.**

"Excellent work X! Now, destroy them!"

**Mono: FINISH HIM!**

"No,", X said, "Surely there must be a better way than destroying them!"

**SC276: [King Dedede] "...Are you fucking serious? The *actual goddamn deal* was their destruction for your memories. What kind of fucking badfic good guy are you?"**

Ghidorah was annoyed, "Noble and merciful to a fault, just like your precious Eleyon. Out of my way! I shall finish this myself!"

**SC276: Yeaaaaaaaaah, no, too little too late.**

In X's mind, something clicked into place.

**Mono: [King Nidoran] "...Ooooooooooh shit."**

He remembered his home, his wife, Eleyon. And he also remembered seeing her body, with Ghidorah looming over her. This gave the dark voice in X's head the opportunity to take over, 'He killed her! Your wife X!

**Mono: So X is also the name of his wife?**

**SC276: Their parents didn't know how to write when they had to fill out the birth certificates. It was the main thing their relationship was built on.**

Eleyon is dead because of this scum! Let me in X, and I shall carry out vengeance for us!". X tried to fight the voice's influence, but the lure of avenging his beloved's death had clouded his mind.

**SC276: If it's a bit like the tunnel vision from this dumb homework assignment, you're *still* not close to being relatable out of pure spite.**

In a flash of gold and black light, black and gold armor seemed to form over X. Demon-like wings that matched the armor's color scheme popped materialized on X's back. And instead of X's crimson eyes, the eyes staring through the helmet were blood red.

**SC276: I dub thee Gashat Strike.**

**Topher: So instead of being dark red his eyes were dark red!**

And they turned their furious gaze toward King Ghidorah.

**SC276: And the crab knew the name of the king.**

As Ghidorah was about to charge his attack,

**SC276: That entire transformation sequence and you haven't done *anything*?!**

he was hit in the back by a powerful blast of energy, knowing who might've been the source, "You dare to attack me X?!",

**SC276: Is that *really* so fucking surprising?!**

Ghidorah was about to continue until he noticed the ominous figure in X's place. This caused the space monster to feel a sensation he knew only once before, fear,

**SC276: Well at least it's not embarrassment at his own stupidity?**

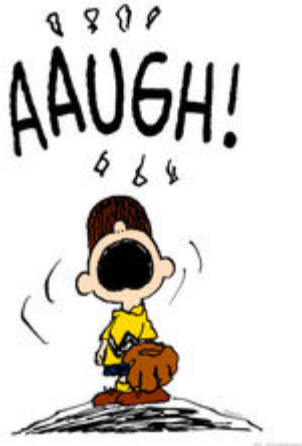

" Y..You..".

The figure in X's place answered in kind, "X is gone. I. AM. KAIZER! AND YOU SHALL PAY WITH YOUR LIFE FOR THE DEATH OF MY BELOVED, AND THE DESTRUCTION OF MY HOME!".

**SC276: Keep it down, we're in a church.**

Kaizer released a war cry full of bloodlust and fury

**Mono: [Kaizer] "EEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEE!"**

**SC276:**

**Crazy56U: [Bread] "(deadpan) Anger."**

**Topher: "aaaaaaaaaaaaaaaa"**

as he began his assault on Ghidorah. He was like a berserker once he landed his first hit! Kaizer mercilessly fired volley after volley of energy blast, keeping Ghidorah grounded. He then continued the punishment with a barrage of punches and kicks so rapid Ghidorah barely had any air left in him.

**SC276: OK, so it's official: literally *none* of the big bad's forces are a threat anymore.**

As Kaizer stood over the beaten and battered monster, a small chuckle escaped Ghidorah's throat. Kaizer sneered behind his helmet, "Facing the end by laughing at it are you?"

**Mono: WHY AREN'T YOU DEAD? I WANT THIS TO END!**

"No, I'm laughing because I didn't kill your beloved. You did", Ghidorah said with a cruel smile. "LIES!", Kaizer screamed

**SC276: Hey, don't steal CaptainPipsqueak's line!**

**Crazy56U: [King Gary] "Shut up."**

**CaptainPipsqueak: \*takes screenshot and forwards it to his lawyer\***

as he brought his fist against Ghidorah's face. But deep within the dark persona's mind, X knew that this terrible truth was all too right. Ghidorah's revelation brought a sea of memories flooding into X's mind.

**SC276: And now some bullshit to ensure this story lasts like five more chapters!**

Back in the outside world, Ghidorah had decided he'd had enough punishment and teleported back to his ship.

**SC276: [King Dedede] "I seriously need to get some weapons for my flagship."**

Kaizer screamed in rage! He had been denied his revenge, and then he turned his gaze to the defeated rangers. Kaizer had found his means of venting his anger.

**SC276: Really? Really?**

Seeing the rangers beaten, Sunset and her friends teleported to their location from the command center to help them.

**SC276: Right, because they *do things* in the story.**

Kaizer only smirked at the sight of them, seeing only more targets to project his fury on. X would not let that happen!

**Mono: *I was joking about the split personality thing!***

**SC276: I wasn't.**

Summoning all his will, he broke free of the chains Kaizer had bound him with to his own mind.

**SC276: Chains? Really? That's the best he could do?**

'No! I won't let you destroy them! I lost Eleyon because I let you take over! Because I lost myself to my own rage! And now she's gone forever! I won't let you ruin anyone else's life!'

**SC276: Too late, we're already riffing this.**

Kaizer howled in pain as he lost control, 'NO! You need my power X! YOU'RE NOTHING WITHOUT ME X!'

**SC276: Given he kicked the ass of every kaiju ranger, including - again - God-girl, Lightning Dawn, and Camera; and those guys shred through Dedede's army faster than a TAS through a *Metroid* game... no.**

YOU HEAR ME? NOTHI...', Kaizers voice was soon drowned out as X regained control.

**Mono: ...And that's the end of that.**

**SC276: [Gashat Strike] "Oh *shut up*."**

Sunset tried to approach him, "X...please. Let us.."

**SC276: [Sunset Shimmer] "...feel up your muscles, we've been reduced to bags of girly hormones."**

**Topher: Yeah, feel up his "Muscles." One specific one, I think.**

"No!", X cried, "Please Ms. Shimmer. It isn't safe to be near me. Everyone please! JUST STAY AWAY FROM ME!"

**SC276: We wish, but Ring wanted this riff, and what the boss wants...**

As X flew off, he could still hear Kaizer's voice gnawing at the back of his head,

**Mono: "Precious... we wants it..."**

'Terrible things X. We've done terrible thing...'.  
'

**Mono: Just the one. Running joke.**

**Crazy56U:**

X soon landed in the forest, and began to weep after learning this sudden and horrible truth.  
"Eleyon.", X managed to speak as tears fell uncontrollably down his face, "Please, forgive me."  
"

**Topher: [Dead Waifu] "No."**

Author's Note:

A painful truth has been revealed,

**Mono: This story is not over yet.**

**SC276: END! END!**

and X has an uncertain path ahead of him. Until, a voice from his past arrives to guide him.

**SC276: You leave Tikal out of this!**

Don't miss X Marks the Spot Part 2: Rise of The Paladin!

**SC276: Oh right, *this new guy's introduction* is clearly important enough for a *multipart episode*. When Roadie has like no character whatsoever.**

**Topher: LEAVE THE BROTHERHOOD OF STEEL OUT OF THIS!**

The idea I got for Kaizer's appearance was inspired by Zeroviks on Deviant Art,

**SC276: So that's what the kids call "stealing" these days.**

and the design for X is thanks to Faith Wolff who also did amazing work for The Bridge: A Godzilla X MLP Crossover.

**Mono: \*tries to look up story\* It doesn't exist on FIMFiction, FIMFetch, or FF.net. Stop making up stories, author.**

Below is the link for the Zerovik's version of Kaizer. Please enjoy it!

[http://pre00.deviantart.net/b02f/th/pre/f/2016/111/2/8/x\\_kaiser\\_by\\_zeroviks-d9zrf05.png](http://pre00.deviantart.net/b02f/th/pre/f/2016/111/2/8/x_kaiser_by_zeroviks-d9zrf05.png)

**Crazy56U: Aw, come on, that's not art! THIS is art!**

**Mono: \*sniffles\* It really speaks to me, man...**

**SC276: OK, it's official: Crazy's link is what Gashat Strike looks like.**

## *Chapter 12*

It had only been one day since the rangers' fateful encounter with X and his dark persona, Kaizer. Sunset

**SC276: Wait, who are you?**

remembered seeing Junior and the others completely defeated, but the scariest part was that they were beaten that badly while X was still in control. If Kaizer had taken over X any sooner, things could have been worse.

**SC276: Lady, one of them being dead isn't worse than none of them being dead.**

Fortunately, X had managed to regain control before things got really bad.

**SC276: Yeah, keep telling yourself that.**

"Trying to wield a power that you can't understand or control...I know how that feels.", Sunset said as she recalled her past experience with being unable to control a power that ended up controlling her.

**Mono: We know. We've seen Equestria Girls.**

**Topher: Well, bits and pieces of it.**

And she also remembered that her friends were willing to forgive her, and gave her another chance. She just hoped that someone would do the same for X.

**SC276: [Sunset Shimmer] "I'd do it, but this is the first time I've been myself this story and I'm out of shape."**

Back in the forest, X was racked with guilt and grief. He had let Kaizer use his body like a puppet, and lost all self-control.

**SC276: Kaizer is the author self-insert...?**

What made things worse is that this was not the first incident. X now remembered everything, including the painful memory of when he first went berserk.

**Mono: FLASHBACK!**

It was a normal day on the Xilian homeworld, and everything seemed to be fine.

**SC276: The constant acid rain is a normal part of their ecosystem.**

Until HE descended from the skies. When King Ghidorah had decided to lay waste to his world, his home.

**SC276: [King Dedede] "Don't worry, guys, this is an offscreen flashback. This one is going to go *fine*."**

X engaged this invader from beyond the stars with a powerful kick to the side and only spoke four words full of threat and promise,

**Mono: [X] "Happy birthday to you."**

**SC276: [Gashat Spike] "I'm the Speed Force."**

**Topher: [X the eliminator] "We are Number One"**

"Get off my planet."

**SC276: *GET OUT OF MY LABORATORY!***

Ghidorah only smirked before firing brevity beams at X,

**SC276: Firing *what*? Were you trying to show off you've read Shakespeare recently? Do we *really* have to know you're in high school?**

knocking him back into a building and damaging his armor. What X didn't know was that his kick managed to shed some blood from this strange enemy. Scientists had managed to collect a sample, and upon their analysis found it was compatible with X.

**SC276: Amazingly enough.**

**Topher: What do you mean "contrived?" They did SO MUCH SCIENCE TO IT!**

Not only was it compatible, but it could be used to greatly enhance his strength.

**Mono: So they just jammed it in him without thinking about the consequences?**

**SC276: *SCIENCE!!***

X woke up in a hospital, his wife Eleyon smiling down on him.

"You sure had a rough night.", Eleyon joked with him.

**SC276: this is another goddamn flashback chapter isn't it**

X only smiled and said, "It only hurts when I smile".

**SC276: And now the fucking *Joker's* been dragged into this!**

**Topher: I refer you to the Joker sketch we did back during the Yu-Gi-Oh crossover.**

The two were enjoying each other's company until the Controller came into the room.

**SC276: and now *Thomas the Tank Engine* what the fuck is wrong with this story**

"Hello X. How's our favorite soldier doing?", she asked.  
"Bruised and battered, but never broken."

**Mono: "He said, before falling apart."**  
**SC276: Insert *SteamWorld Heist* death GIF here.**

So to what do we owe the pleasure of your visit?", X asked.  
"Our scientist have analyzed the blood of that monster that attacked us."

**SC276: Just the one. Running joke.**  
**Topher: [The Fat Contoller] "They did SO MUCH FUCKING SCIENCE!"**

They've found that it's compatible with your body.

**SC276: This sounds more like becoming a Kamen Rider than a Power Ranger. For fuck's sake, this thing is just a giant katamari of things I give a shit about being run over.**

And it can potentially increase strength by a tremendous amount. I have it with me, and can inject it.

**Mono: [Controller] "It may give you an evil split personality, but eh."**  
**SC276: [Controller] "They actually haven't fully finished their analysis to check for possible side-effects, but the author couldn't wait."**

So what do you say? Ready to give that invader a rematch?"  
X's gaze hardened with determination, "You bet I want a chance to pay that thing back."

**SC276: He owes Dedede twenty bucks.**

The process was quick, but X had a series of small headaches afterwards. He simply dismissed them as after-effects of his head hitting that building yesterday.

**Mono: That's not how headaches work, author.**  
**Topher: I know a thing or two about head injuries, and yeah.**

He was dead wrong, as a dark presence slowly crept into his mind. Not a moment later, warning sirens were blaring off the hook.

**SC276: I suppose it shouldn't surprise me that "slowly" as fast as *fuck* in this story.**

Ghidorah had come back to finish what he started. X was ready, but he wouldn't be facing Ghidorah alone. Eleyon was headed into battle with him, armor and all.

**SC276: Because *that* won't end badly.**

As they made their way to Ghidorah, X felt a voice go off in his head, 'Yes, go all out against your enemy. Spare him no mercy!'.  
"

**SC276: Believe me, I wouldn't, but this came right after that fucking *Yu-Gi-Oh* fic and I have finals coming up. Priorities.**

X shook his head, hoping he was just hearing things. When they arrived, Ghidorah had a look of annoyance on his face.

**SC276: Just *his*?**

The same bug that had defied him the day before was back for round 2. Ghidorah admired X's determination and shifted into his true form,

**SC276: *Dude it's not the fucking climax, you're ruining this for us.***

a dragon-like figure with armor that seemed to have two other heads on the shoulders.

**Mono: So did the *armor* have two heads, or...?**

**SC276: [Right Head] "Hey, Lefty, get a look at this joker!"**

**[Left Head] "Oy, 'e looks like a wee one! Bossman prob'bly just needs to step on 'im!"**

X and Eleyon began their attack by rushing him, but were pushed back by a barrage of gravity beams.

**SC276: [Left Head] "Cor, mate, you feelin' the weight o' the situation yet?"**

**[Right Head] "And already the puns start."**

X shielded most of the shots, but was knocked back. King Ghidorah took note of Eleyon trying to get up and began to advance on her.

**SC276: [Left Head] "'Ey bossman, now's no time to be a lovebird!"**

X was on his feet with a look of horror on his face. This monster intended to kill his beloved, the person closest to his heart. He would not let that happen! No matter the cost, he would save Eleyon.

**SC276: Uh... yeah.**

Then the voice spoke again, 'You wish to save her? I can give you the power to do so. Just let me in X. LET. ME. IN.', it echoed.

**SC276: [Gashat Vezon] "LET. ME IN. DA DA DA. LET ME IN."**

**Crazy56U: After all, it dropped its keys down the drain again.**

X could no longer hold it back, and let his rage storm forth.

**SC276: The part of Kaizer will be played by DemonComputer. I can't believe I had to say that two fics in a row...**

A flash of black and gold light appeared, and a new figure stood in X's place. Clad in that demonic black and gold armor. Kaizer flew full force into Ghidorah, knocking him off his feet.

**SC276: Every character that battles in this fic either shields, tackles, or does something that's not described. Have you noticed that?**

Ghidorah was angry now, "You dare strike me?! King Ghidorah?! I have the strength to make the universe itself tremble!".

**SC276: pffffffft HA HA HA HA HA HA HA HA HAAAAAAAAAAAA**

Kaizer let out a dark cackle of laughter,

**Mono: You knew it was coming.**  
**SC276: BEAT YA TO IT GASHAT-FACE.**

"If you are 'king', then I shall call myself Kaizer. I dare to strike, and I will be the one to destroy you!", Kaizer said with an evil grin. Kaizer began an assault on King Ghidorah, striking with the full force and fury of a berserker. Every blow Kaizer landed seemed to inflict a heavy toll on Ghidorah.

**SC276: Offset by how often he missed.**

The would-be destroyer was now beaten, bloodied, and scarred from a strong claw swipe from Kaizer just below his neck.

**Mono: *Just die already!***

For the first time in his life, King Ghidorah was actually afraid.

**SC276: -that the fic would continue into the next part.**

Eleyon was now back on her feet, and was horrified at what had become of X. In the place of her husband was a monster, one with no remorse or mercy. A creature filled with bloodlust and fury that would not stop until its enemy was dead!

**SC276: Well what did they expect when they made Shadow using Dark Arms DNA?**

Eleyon couldn't let this happen to X, and intercepted a claw swipe that would have left a gash in Ghidorah.

**SC276: ...Wait, *what outcome exactly* did you want coming into this battle? You were going to go fight a galactic conqueror. *Why wouldn't* you expect the outcome of your victory be his death? Even if you don't like how it was done, you still stopped your husband from killing him at the cost of yourself, and the end result is that *you allowed the fic to happen*. You get no sympathy from me. You pretty much just won yourself a fucking Darwin Award.**

**Topher: \*headdesk\* You can't even call it a murder! This is suicide plain and simple! Manslaughter at worst!**

Ghidorah briefly loomed over Eleyon's body and turned his gaze to Kaizer with a wicked smile on his face, "How does it feel to hurt the one you love?",

**SC276: Absolutely terrible, and fuck you for bringing it up.**

Ghidorah spat out as he retreated.  
X's consciousness returned at that moment, and saw Eleyon's blood on his hands and asked Kaizer, 'What happened to Eleyon?! Is she alive?! Is she safe?!'.

**Mono: You just looked at her blood!**

Kaizer answered with an evil smile, "I'm afraid that while in our rage, we killed her.

**Mono: Technically she killed herself... but who cares.**

**SC276: Well you just *hit* her, you haven't checked whether or not she survived.**

**Topher: [X the Eliminator] "NOOOOOOOOOOOO!"**

Oh well, she was only holding us back anyway."

**SC276: Actually, given not doing anything in battle is apparently a viable tactic...**

"No...no...I couldn't have! NOOOO!",

**Mono: \*CinemaSins voice\* No. \*ding\***

**Topher: ...You know, the things I do to mock your story probably shouldn't be in there. Just a bit of advice.**

X screamed. She was gone, and it was all his fault. "Get out of my mind! I never want to see your cursed face again!",

**Mono: Easily solved since you can't see your own face.**

X screamed as he began to fight back to reclaim his body, defeating the Kaizer. The shock and mental strain from the tragic moment caused X to repress the memories of that day.

**Mono: A fuckton of alcohol helped immensely.**

And now, the exact same thing would have happened here too. As X was sulking, a new presence was felt in his mind. Unlike Kaizer, this one felt warm. It felt familiar. It felt like, "Eleyon?!", X asked. Eleyon fully materialized, she still looked as beautiful as the first time X laid eyes on her.

**SC276: And now *tulpamancy*!**

"Hello X, I've missed you so much.",

"But how?! How could you miss me?! It's my fault I lost you! You died because I lost control of my power!

**SC276: No, she died because she wanted to save the life of the *main villain*.**

I...", X wanted to continue, but was stopped by Eleyon's embrace.

"It's alright X. No matter what, I'll always love you. Never forget that. You weren't yourself when Kaizer took over, I don't blame you for anything that was done. Not even my passing.", Eleyon said with a warm smile.

X could barely get any words out with tears of joy flowing freely, "Please forgive me.", X sobbed.

**SC276: Anyone remember what this has to do with ponies?**

**Mono: Ponies? What are these "ponies" you speak of?**

**Topher: Why would we, a group of mostly adults, have anything to do with ponies?**

Eleyon smiled, "I already have X. And always remember this: Your power doesn't control you, you control it. You decide how to use it, nobody else. I love you X."

**SC276: Yeah, we kinda already figured that from your lone character trait.**

X smiled sadly, "I love you too. Goodbye, Eleyon.", X said as Eleyon faded away. It wasn't long before Kaizer showed up.

"What was SHE doing here?! You only need me X! Only I can give you the power you need!", Kaizer screamed.

**SC276: Oh shut up, you whiny baby.**

X only faced Kaizer, and materialized a sword and impaled the twisted dark persona.

**Mono: So he stuck a sword through his own head?**

Kaizer begged for his life, "Please X, don't do this to me! We're the same you and I! I'm a part of you! You need me!".

**SC276: He needs you like I need this fic. And I need this fic like I need a hole in my head.**

**Topher: [X the Eliminator] "Dude, I just impaled you, we're kind of at the point of no return."**

"You're right, you are a part of me. A part I no longer need.", X said, "I control this power, it doesn't control me! NOW BEGONE!". And just like that, Kaizer faded into nothing.

**Mono: ...Well, that's the end of that.**

**SC276: You're still Gashat Strike, I don't like you enough to change your name.**

**Topher: \*grabs SC and begins shaking him\* WHAT THE FUCK DOES GASHAT MEAN!? TELL ME! TELL MEEEEEEEEEEEE!**

Back in the real world, King Ghidorah was busy recovering from the injuries Kaizer had inflicted on him. Ghidorah couldn't believe this was the second time he'd come to experience fear, it enraged him to no end!

**SC276: [King Dedede] "And all from one guy! You'd think I'd be over this by now!"**

He had Belvera rebuild Mechagodzilla, but the reconstructed mech looked like it was hastily built.

**Mono: ...How? He was rebuilt by potion. Couldn't you just... increase the power of said potion? Oh, wait. That would be the *logical* option.**

**SC276: So this is why Shocker went with biological cyborgs...**

"I suppose this is the best you could come up with. Fine, just send him to attack the city! I'll soon recover and fight the rangers myself! The robot should keep them occupied long enough.", Ghidorah said while scowling all the while.

**SC276: [Waddle Dee] "We could just... *not* attack them while you're healing-"**  
**[King Dedede] "Get that robot out there or you're going out the airlock."**

The rangers had fully recovered, but wouldn't have time to rest

**SC276: ~I don't need time to rest~**

as Mechagodzilla began his attack.

**SC276: So, let's get this straight: In like twelve to thirteen chapters of a fic ripping off *Power Rangers*, there's only been *ONE* slice-of-life scene, and it was solely to help further introduce and develop a new character instead of making us give a shit about any of the previously-introduced characters. Have I got that right?**

**Mono: I can't be fucked to check, so I'm just gonna say yes.**

**Tophr: Also, the EQG characters have done ABSOLUTELY NOTHING! I'M NOT EVEN COUNTING THIS AS MLP ANYMORE!**

When they arrived, Junior noticed this new robot looked a bit shoddy. "Is it me? Or did they have a low repair budget?", Junior asked noticing how cheap this robot looked.

**Mono: Yes. This fic just said the robot looks like shit *four times*. Come on, Ring. Find us something really painful to riff! This is just... boring and dumb.**

**Tophr: In a way, that is what makes this fic truly painful. There's nothing entertainingly bad, there's just fluff. It sucks the life out of you just to read it, like reading an incredibly boring textbook for class. You have to read it out of obligation, but my god is it awful.**

Mechagodzilla only responded with a flamethrower blast from his nose.

**Tophr: [MechaGodzilla] "ACHOO!"**

He then fired a round of finger missiles, but the force from the launch caused the old replacement arms to fall off. Mechagodzilla then tried to take off, but the jets in his feet sputtered out. In desperation, Mechagodzilla tried to fire his eye lasers, but they ended up shorting out and breaking the lenses that protected his eyes' circuitry. Then he literally lost his head. "Talk about falling to pieces.", Junior deadpanned.

**Mono: HA. HA.**

**SC276: [Gashat Roadie] "Boy, I don't even have a *reason* to pretend I'm contributing!"**

**Tophr: This is what happens when you build tanks out of duct tape.**

Back on his ship, Ghidorah face palmed. His new robot literally fell apart on the job.

**SC276: [King Dedede] "Why did you even deploy that?! Especially when we've got other mutants?!"**

**[Waddle Dee] "You threatened to throw me out the airlock!"**

"That's it! I don't care if I'm fully recovered or not. I'm going to fight the rangers, and I don't care if I win. I need to vent my frustrations.", Ghidorah said while frowning.

**SC276: [Waddle Dee] "Well, better them than us."**

**Topher: HE DEAD!**

In the forest, X sensed Ghidorah was coming back to Earth.

**SC276: How? The author doesn't know either.**

Now was the perfect time to test out his new power.

**SC276: Against the main villain?**

He arrived just in time as Ghidorah landed. X then cleared his mind, and a silver light enveloped his body. X soon emerged as the light faded, clad in new armor.

**Mono: No no no no no no no-**

The armor on his chest was white on the upper half,

**Mono: FUCK!**

**SC276: Yeah, when I give people a Gashat name, I fucking mean it.**

but had black scale-like armor going to his waist. His leg armor was largely white, with patches of black on the sides and his knees. The armor on his arms was mostly black with white gauntlets on the lower parts, and white outer armor on the upper parts. Gold pauldrons were on each of his armor's shoulders. X's helmet was black with a blue visor and white outer armor that seemed to form a sort of mask, and two black horns in a single row pointing forward.

**SC276: All I'm hearing is "This is a picture of a character I saw online, isn't it awesome?"**

But most noticeable, were the pair of majestic wings that had sprouted out of his back.

**Crazy56U:**

X decided to make his presence known, "Ghidorah!", X yelled.

**SC276: Donkey!**

**Mono: Spongebob!**

As King Ghidorah turned to face him, he only had look of shock on his face. 'How?! How could he have possibly mastered that power?! It shouldn't be possible for him to have any control over it!',

**SC276: Did you forget? This is Bullshit Country.**

"So what's with the fancy new outfit? You trying to fight me with fashion?"

**SC276: [Rarity] "(puffs cheeks up angrily)"**

What are you calling yourself this time? 'Holy Kaizer'", Ghidorah answered with a snort to hide his fear.

**Mono: The part of King Nidoran will be played by Robin.**

**SC276: Plus that'd violate separation of church and state.**

"Sorry to disappoint you, but I kicked Kaizer out. I'm the only one in my head now.

**SC276: "What about me-?" "Shut up, imaginary wife."**

Now I control the power your blood gave me, it doesn't control me. Prepare to face justice!",

**SC276: Shovel justice?**

**Topher: Justice raining from above?**

X cried as he and Ghidorah charged at each other. The sky was then lit up with gravity blasts as the two warriors duked it out in the air.

**Mono: In an epic fight we didn't get to see due to budgeting issues.**

**SC276: And people think *Kamen Rider Ghost* had no budget...**

Soon enough, X landed a hit that clipped Ghidorah's wing. The fight then shifted to a mix of blasts and physical blows. Ghidorah took a swing at X, but X crouched and knocked him down with a sweep kick. Ghidorah then lunged at X, but was instead caught by an uppercut. X then launched Ghidorah into the air with a powerful kick, leaped into the air and knocked him back down to earth with a blow to his head.

**SC276: [Gashat Leash] "...So, uh, we going to actually *do* anything, or...?"**

**[Lightning Dawn] "Look, trust me, the best way to handle the middle of the story is to let the villain do whatever they want."**

Ghidorah slowly crawled out of the crater that formed from his impact, "This...proves...nothing!",

**Mono: Well, it proves that he's OP as shit.**

**SC276: Or that Dedede continues to suck.**

**Topher: \*Glances at progress bar\* ...WHY THE FUCK ARE THERE STILL 20 PAGES LEFT?!**

Ghidorah said painfully. X walked up to the beaten tyrant, and Ghidorah assumed only one thing. "Go on...finish it!", Ghidorah spat weakly.

"I said prepare to face justice, not death.", X said, "I've defeated you in battle, and avenged my home planet. I'm done.". Ghidorah was dumbfounded, X really had conquered this power! "This is the part where you run away.", X said flatly. King Ghidorah wasted no time in warping back to his ship.

**Mono: Pussy.**

**SC276: *are you fucking serious he destroyed your home planet baiting you into killing your wife has been confirmed to destroy at least one other planet AND YOU DON'T EVEN PUT HIM IN FUCKING JAIL WHAT IS WRONG WITH YOU*** i mean sure he's not any actual threat by any definition of the term ***BUT THAT'S BECAUSE THE AUTHOR SUCKS AT WRITING SENTAII VILLAINS***

**Crazy56U: Actually, jail is a myth. Confirmed.**

**Topher: Are we ignoring the fact that the author just threw SHREK into the tangled mishmash of bullshit that he thinks is STORYTELLING?! AND DON'T FORGET ABOUT STAR WARS EARLIER, GOD FUCKING DAMMIT I HATE THIS STYLE OF FANFIC SO FUCKING MUCH I- \*Breathes deeply\* Wait till the end Topher. You can vent in the wrap-up.**

**Crazy56U: (legitimately confused) Shrek was in this?**

**Mono: Yep.**

Junior was the first to speak, "Sooo... care to explain what's up with the new duds?".

**SC276: *AND YOU'RE NOT QUESTIONING WHY HE DIDN'T TRY TO IMPRISON THE GUY TRYING TO TAKE OVER YOUR PLANET*** fuck it i hate this story and i want it to be fucking done

X smiled and answered, "This is my paladin armor.

**Mono: I think he's been playing too many RPG's.**

**SC276: Or watching too much RWBY.**

I earned it after I overcame Kaizer, and gained full control of the great power within me. I would join you all, but you all seem to be handling things just fine on your own.

**SC276: Yeah, they can totally handle themselves, given- actually, Dedede sucks, so yeah, no sarcasm there.**

But know that if you ever need me, I'll be there. I'm just one teleport away.

**SC276: And so he'll never show up again.**

Goodbye my friends! We'll meet again someday!", X cried out as he flew away.

**Mono: NOTE: X DIED ON THE WAY BACK TO HIS HOME PLANET**

Back at the command center, Sunset and her friends were in awe over X's new form. "Did you see how cool X looked? And how awesome he was when kicking Ghidorah's tail?", Rainbow shouted.

**Mono: What, he didn't look awesome when he kicked the rest of his body?**

"His new armor just screams elegant and fierce!

**Mono: No, it screams "Stu-ish" and "overpowered".**

**SC276: And singing "cliché as fuck."**

And those wings were positively awe-inspiring!", Rarity beamed.

"X did get another chance after all.", Sunset said smile.

**SC276: [Sunset Shimmer] "And I didn't have to do a thing but think about it for a bit."**

Author's Note:

A little something for the X and Ghidorah fight.

<https://www.youtube.com/watch?v=oYZR0vQY6Jo>

**SC276: I didn't click any of the previous ones, what makes you think I'm gonna click that?**

*Chapter 13*

**Mono: Two chapters left... just two chapters left...**

**SC276: That's a weird way to spell "forty-eight," which is what it feels like.**

After the seemingly endless defeats, Ghidorah took in the sight of his nearly empty space ship. Where his warriors once stood were empty spaces,

**SC276: ~All around me are empty spaces / Worn out places, worn out spaces...~**

due to their defeat at the hands of the kaiju rangers. But out of all the rangers, he hated Junior the most.

**SC276: For some reason.**

Every time he had sent one of his minions, Junior was right there to lead the charge to oppose them! It seemed that such a small group of fighters could destroy his best minions!

**SC276: It's almost like their leadership is completely incompetent.**

And then it occurred to him, that he should not have relied on minions in the first place! "If you want something done right, do it yourself!",

**Mono: Hey, Mykan already copyrighted that phrase!**

**SC276: Didn't you already try that? Like... *literally* last chapter?**

Ghidorah said with a wicked grin as he made his way to Earth.  
Back on Earth, the rangers and the main 6 seemed to be having normal day. "Nothing could possibly go wrong now!", Rodan boasted.

**Mono:**

"You sure ya ain't gonna jinx us by saying that?", Applejack asked.  
Rodan laughed it off,

**SC276: [Gashat Roadie] "It's cute how you pretend to have a personality!"**  
**[Applejack] "Well you must be fucking *adorable* then."**

"Come on AJ! That kind of stuff only happens on TV!".

**Mono: Pretty sure some line in this fic contradicts that, but I can't be fucked to look it up.**

**Topher: HA! HA! HA! HA! HA! HA! HA! HA! HA! HA! HA! HA! HA! HA!**

**HA! HA! HA! HA! HAAAAAAAAA!**

**Mono: ...So while Topher's going insane over there, let's continue, shall we?**

He was having a laugh about it until his communicator went off.

**SC276: Followed by his communicator exploding.**

"You sure about that?", Applejack said with a smirk.  
Rodan grumbled and answered, "Yo! Moll, Lora! What's the emergency?"  
"King Ghidorah just landed, and is currently wreaking havoc!", the twins shouted.

**Mono: Wreaking... undefined havoc. Hide your children.**

"So he's come to try and finish this once and for all huh?

**SC276: Not likely, there's still four chapters after this.**

Well, better get the others!", Rodan said as he hung up and turned to Applejack, "Gotta run AJ! Ghidorah just showed and he's trashin' the city! BRB!".

**Mono: STFU and GTFO, you SOB.**

**Topher: GFYWARPOGEYABAOACCBAS4BTWTTC&CBMRBT&CIO. Yes, that was an actual acronym.**

"Hey!", Applejack called out, "Come back in one piece! You hear me Ro'?".

**SC276: [Applejack] "If you don't, I'm gonna reclaim my personality by turning you into topsoil!"**

Rodan walked up to her, and caught her by surprise with a kiss right on her lips, "I've got better things to do today than die.",

**Mono: Cue an in my opinion overhated Madonna song.**

Rodan said with a wink. He then left to get the other rangers, and tell them about the situation. Meanwhile downtown, King Ghidorah was going on a rampage!

**SC276: I've never actually played that game.**

He reveled in the glorious destruction he left in his wake, taking it in as he continued his attack.

**SC276: [King Dedede] "This is therapeutic! I almost feel like I could actually *win* a battle!"**

The rangers teleported just in time to confront him. "Ghidorah! We end this today!

**Mono: Oh boy, does that mean the fic is finally gonna be over?**

Now that you've got nobody to hide behind, it's just you and us!".  
Ghidorah smiled darkly, "For too long I have suffered humiliation at your hands! Come! Let this be our final battle!", he cried as he charged toward the rangers.

**SC276: ...If there's seriously four chapters of *falling action*, I'm somehow going to be even madder at this story than I already am.**

Rodan took to the air and fired a barrage of heat beams from his wrist launchers, and made a dive-bomb run at Ghidorah with his twin swords, while Anguirus fired his sonic cannon and tried to get in close hits with his gauntlets. Ghidorah raised a wing to block the blasts, and flapped it to create a mini tornado to blow back Rodan and Anguirus. Ghidorah then prepared to let loose a storm of gravity bolts, but Gamera blocked them with his shield. The three rangers then took Ghidorah by surprise when Anguirus leaped into the air, and delivered a strong kick to his face!

**Mono: Boy, the narrator is really getting into this fight.**

**SC276: So, the reason there haven't been any mooks since the initial invasion is that he *used them all up on the first attack*? I'm not sure there's words to describe how tactically incompetent this character is.**

Rodan then followed with a series of punches to Ghidorah's stomach, while Gamera finished the trinity with a shield bash!

**Mono: It's super effective!**

Ghidorah then unleashed a hail of gravity blasts, and the resulting damage forced the three rangers to power down. Now that Ghidorah had been weakened, Destoroyah made her assault.

**SC276: Oh right, you're a thing. We've just never heard from you since the chapter you joined the team.**

It started with a series of shots from her micro-oxygen blaster to keep Ghidorah occupied just long enough for her to get close. When she was at just the right distance, she used her wings to take flight and with a sweep of her energy horn katana sliced off one of Ghidorah's wings off. The space dragon growled,

**SC276: He's a dragon? From space? Well why didn't you *FUCKING SAY SO*?!**

"You clip mine, I CLIP YOURS!",

**Mono: Worst. Comeback. Ever.**

he roared as the two heads that were on his shoulder plates flared to life and bit into the wings of Destoroyah's suit!

**SC276: [Left Head] "Wassap bitch, I'mma eat your face!"**

**[Right Head] "Never mind him, he changes accent and personality every time we get called out."**

Even though the wings weren't badly damaged, Ghidorah sent Destoroyah falling to the ground with a tremendous gravity bolt.

**SC276: Do you have any attacks that *aren't* gravity?**

The dust cleared from the impact crater to reveal a powered down Destoroyah. Only Lea, Xenilla, and Junior were left in their ranger form.

**SC276: You know, the ones that got anything resembling character development.**

To even the odds, Lea activated her giga mode and unleashed a swarm of energy blasts at Ghidorah. While the blasts did some damage, Ghidorah was more enraged than in pain. He shot a concentrated ball of gravity energy at Lea, and she fell unconscious from the force of the blast.

**Mono: How the fuck does the author think gravity works?**

**SC276: Gravity can't even KO enemies, it does percentage damage!**

Junior and Xenilla summoned their swords and charged at King Ghidorah, each of them landing a critical strike with near relentless consistency. But soon enough, Ghidorah tripped them up and was able to knock out Xenilla. Now the only one left in ranger form was Junior, and it was pretty clear he wouldn't let himself fall without giving it his all!

**SC276: As indicated by how he's going to win somehow.**

Ghidorah gave a mock-sincere smile, "You've spirit for one so weak. I must honestly applaud you for even surviving this far. Not many have survived this long like you and your friends.

**SC276: So somehow these are the only good guys that *don't suck horribly*?**

Just give up, and I may let you and your friends live. Why throw away your life so recklessly?".

**Mono: [Gaston] "I'm a designated hero, that's what I do."**

"You're not in that much better shape yourself. I won't surrender to cowards like of you. Those who live without honor, face an end without honor.

**SC276:**

I'm not gonna quit! Not while I'm still here!

**SC276: ~No need to worry, 'cause I know the deal / The trees will grow back for sure, that's for real~**

Only one of us is leaving in one piece! ONE SHALL STAND, ONE SHALL FALL!",

**Mono: THERE CAN BE ONLY ONE!**

**SC276: THAT IS A QUESTION YOU SHOULD ASK YOURSELF, MEGATRON**

Junior roared in defiance as he charged forward against King Ghidorah. Back at the command center, Sunset and her friends saw how grim the battle was looking.

**SC276: What, this is an EqG fic?**

"We have to help them!

**Mono: Wait, what?**

Come on girls, if there's anytime to use our magic it's now!

**Mono: Sweet lord above, the Mane 7 are gonna do something! YES!**

**SC276: Humane-Seven-ex-Machina**

Mothra, teleport us to the rangers", Sunset cried out.

When they arrived, the girls readied their magic to fire at Ghidorah while he was still grappling with Junior.

**SC276: Dude, not now! Firing into melee is -4 to hit!**

Unfortunately, Ghidorah noticed them out of the corner of his eye. As the girls were ready to fire, Ghidorah smiled evilly and threw Junior into the blast as it went off!

**SC276: Congratulations, Dedede, you did the *first competent thing you've ever done*.**

Sunset's eyes widened with horror, "Oh no! Cut off the magic!

**Crazy56U: ...or you could not.**

Junior was thrown into the blast!", she cried as the magic died down.

**Crazy56U: ... ..or you could not...**

**Mono: AUTHOR, YOU FUCKING COCKTEASE! Just as the *main fucking characters* are finally about to do something important, you pull out at the last fucking second to shine the spotlight on those cardboard cutouts that you call "original characters"!**

**FUCK YOU AND FUCK YOUR STORY TO PLUTO!**

**SC276: It took you *THIS LONG* to feel like that?!**

As the dust cleared, there was Junior, but he was just standing there like a lifeless doll.

**Crazy56U: ...pretty sure he'd still be alive if you *hadn't* have done that, so (golf clap) good hustle.**

**Mono: Hooray, he's dead! Can we go now?**

**Crazy56U: We don't get nice things here. *You know this*.**

**Mono: *FUCK!***

**SC276: How is standing like that any different from how he usually acts?**

Ghidorah cackled with delight. Finally his most troublesome foe was vanquished,

**Crazy56U: ...except no.**

and by his own friends no less!

**Crazy56U: ...still no.**

**SC276: Really. Junior's the most troublesome. And not the guy that *beat you within an inch of your life in literally the previous chapter.***

Tears were rolling down each of the girls' faces when they saw Junior's condition.

**SC276: Um, if he got hurt by a blast of harmony, wouldn't that mean he was evil all along?**

Sunset tried speaking to Junior, hoping he was still alive, "Please Junior. If you're still there, do something! Anything! Please!", she cried as she held tightly onto Junior.

**SC276: Meanwhile, Dedede's not going to attack them, because remember, he's not actually *competent*.**

**Crazy56U: And, a-one, two, three, boop! (snaps fingers)**

Then, cracks started to form in Junior's armor suit.

**Crazy56U: "What?! GAMERA is evolving!"**

Two large yellow spikes formed on the shoulders, and light green gauntlet structures with blue orbs on the back of the palms formed on his lower arms.

**Mono: So he became a recolored Iron Man?**

**Crazy56U: Worse. A recolored Kamen Rider character. SC, you know more about Kamen Rider than me, tell me, does the joke work?**

**SC276: Well offhand, I don't think those physical changes indicate a Kamen Rider, but with the orbs, they could be a crap Zodiart OC from *Kamen Rider Fourze*.**

Light green exo-armor sprouted on his upper legs. And in a flash of light, Junior's old ranger suit was gone, replaced with a new armor that seemed to radiate power.

**Crazy56U: "Specifically, radiation! Everyone now has cancer! :D"**

**Mono: The weird part is that I'm not sure if I'm supposed to be happy now or not. On the one hand, his OC's got cancer. On the other hand, the Mane 7 now have cancer... this tangent got really dark really fast.**

**Crazy56U: But on the plus(?) side, the story is now interesting.**

**Mono: It took 13 chapters, but the interesting part has to start somewhere.**

One horn flanked by two smaller ones all pointing backward were on the helmet, which now had a yellow visor instead of a black one. Junior's chest armor was now yellow, with a blue core at the center of it.

**Mono: Yep, recolored Iron Man.**

Sunset couldn't believe her eyes!

**SC276: [Sunset] "I can't believe describing your armor's appearance resulted in you looking *stupider*."**

Their magic hadn't destroyed him at all! In fact, it may have even given Junior this new form.

**SC276: Gee, it's almost like magic wielded by good ponies *helps good guys*.**

"Thank you Sunset. I wouldn't have woken up if you hadn't spoken to me.", Junior said smiling under his helmet.

**Crazy56U: And so, Sunset Shimmer fucks up yet again.**

"So how did you get this new ranger form? And are you okay?", Sunset asked trying to stifle her sobs.

**SC276: Is that a question to be asking when the main villain's literally right there?**

"When you guys hit me with that magic, it didn't hurt me at all. It seemed to heal me, and make me even stronger!

**SC276: Which is why it looked like it killed him and she needed to call out to him to wake him up.**

As for how I'm feeling, I'm feeling pretty super right about now!", Junior boldly said, "Now time to end this Ghidorah!"

**SC276: This is literally a plot twist from *Smash King*, by the way.**

Ghidorah was frozen in fear! Instead of destroying Junior, that energy had only made him stronger!

**Mono: *WE KNOW!* Peppa Pig has a better narrator than this!**

**Crazy56U: And now I want to see King Gary beating Peppa Pig to death. ... ..this is officially the darkest riff we have ever done...**

**Mono: And that's considering there was a riff in which I shot you in the jaw. *Twice*.**

Blast! Junior then readied his newest attack, "It's over Ghidorah! Ultimate Atomic Blast!",

**Crazy56U: *WOULD YOU STOP GIVING PEOPLE CANCER?!***

**Mono: Honestly, that's the best sentence I've read all week.**

**SC276: I've been studying for finals and I agree, that is the best sentence I've read all week.**

he cried as he shot a blue beam of energy that hit Ghidorah dead on! Ghidorah knew he would not survive another blast like that, and immediately retreated back to his ship.

**SC276: *YOU FUCKING WIMP! YOU DON'T DECLARE A FINAL BATTLE AND THEN RETREAT! HAVE A FUCKING CHARACTER!***

As the rest of the rangers got to their feet, they were all in awe at Junior's new form. "Nice new duds man!", Rodan cheered.

**SC276: Because these guys are- oh I missed the part where they regained consciousness. I'm basically zoning this out as it goes.**

Junior only powered down, smiled, and fell on the ground asleep. It had been a long day, and a nice nap seemed WAY overdue.

**Mono: Yes, he was gonna take a nice long nap. In a wooden coffin.**  
**SC276: Like you're one to fucking talk, Gashat J.**

"Awww, he looks so cute like that!", Lea chirped.

**SC276: [Sunset] "Fuck you, bitch, I'M his love interest."**

Sunset smiled, and planted a kiss on Junior's forehead, "Sleep well Goji."  
Pinkie the mentioned something about "shipping",

**SC276: Careful, Pinkie, with how characterless you've been, you might pull something.**

while Rarity and Applejack were hugging Anguirus and Rodan respectively. Twilight and Fluttershy helped Lea to her feet,

**SC276: BEST FRIENDS~**

while Rainbow Dash helped Gamera out of the imprint he left in a wall. The day was hard, but it had a happy ending.

**Mono: Doubtful, the fic still exists.**

**SC276: Yeah, it basically just ended in the exact way every chapter ends.**

Author's Note:

Well guys, there you have it. Next chapter, I think I'll try something different.

**SC276: I don't think that's physically possible for you.**

Hope everyone is enjoying it so far, but please comment if you have any suggestions for improvement!

**SC276: I am getting so very tired of repeating myself.**

And if anyone noticed my transformers quote, I'm sorry, but I just couldn't help myself.

**SC276: I'm pretty sure your lack of impulse control is evident by how your fic seems to constantly be in fast-forward.**

For when Junior transforms and when he fights King Ghidorah  
<https://www.youtube.com/watch?v=ny24zPeQLks>

**Crazy56U: That's not the Pokemon music! BOOOOOO!**

**Mono: Well, in that case, allow me.**

**SC276:** So, these chapters have titles that we left off because *someone* wanted a surprise. This one is titled "Shipping." *Yep.* This is it.

**Mono:** Yay! Filler!

**Crazy56U:** So... is no one gonna point out how the fourteenth chapter is the shipping chapter?

**Mono:** I just realized it. I want to die now.

**Crazy56U:** Allow me. (pulls out a box cutter; stabs Mono in the throat) We're even, by the way.

**Mono:** ... \*writes a note; shoots himself in the head\*

**Crazy56U:** Huh. (reads note) ...well, that's not very nice. ... (picks up the note) That's literally what it says, what the fuck?

**Mono:** \*respawns\* What? Were you expecting me to talk with a hole in my throat?

It was the weekend, and Junior had nothing better to do than kill some time at the arcade.

**Mono:** Arcades? In this age? ...Are arcades still a thing?

**Crazy56U:** *Stop depressing the audience.*

**Mono:** The story has been depressing us the past 13 chapters and you're just now reacting?

He'd invited Anguirus and Rodan so they could have an all-out battle on some of the fighting games.

**SC276:** Um, I can only think of like two fighting games that allow three players at once, and none of them are in arcades.

However, they were busy with their girlfriends Rarity and Applejack.

**SC276:** [Gashat Sora] "We totally do romantic smoochy things. All the time."

It looked like he would be going it alone. As soon as he entered the arcade, Junior's eyes immediately went to one of his favorites: Super Street Fighter II.

**Crazy56U:** Specifically, Super Street Fighter II: Super Hyper Alpha Turbo Ultra Championship Edition HD Remix.

**Mono:** The Expanded Edition.

'Can't go wrong with an arcade classic!', Junior thought as he went towards the machine. As he got close, he noticed that the machine was already in use.

**SC276:** Which you didn't notice until you got within drawing distance.

**Crazy56U:** Uh oh, Homeless Johnny forgot what a toilet was again..

Sunset was already at the machine and playing as Chun Li. 'Wow she's good!

**Mono:** It helped that she was spamming one attack.

**Crazy56U:** Hey, she's using the "Crazy56U" method! *I suck as Street Fighter, that is the implied joke.*

**SC276:** Hey, I have a copyright on that method, you bootlegger!

**Crazy56U:** I WILL FIGHT YOU IN THE STREET! BECAUSE IRONY IS A CONSTANT PRESENCE IN OUR LIVES!

Hope she doesn't mind if I join in.', Junior thought. Junior put his coins in the machine. "Here comes a new challenger!", the machine blared.

**SC276: [Sunset Shimmer] "Um, I was almost at the end of the single-player mode--"**  
**[Gashat J] "What Junior wants, Junior gets."**

Junior selected his favorite character, Ryu,

**Mono: Awww, how sweet! The author only knows those two characters.**  
**Crazy56U: Really, the only two worth remembering. "M. Bison"? Who the fuck's that? Some kind of boxer?**  
**Mono: M.Bison...? Ah, him! Of course!**  
**Crazy56U: Why are you punishing me, Mono?**

and the fight was on! Sunset noticed him after he chose his fighter and smiled.  
'This oughta' be fun!', Sunset thought.  
Sunset started off with a spinning bird kick, but Junior countered with a shoryuken!

**Mono: How to write a Street Fighter match. Step 1) Make sure your fight includes the word "shoryuken". The End.**  
**Crazy56U: Final Smash! Overkill! Final answer! TOUCHDOWN!**  
**SC276: PERSONALLY I PREFER THE AIR**

Junior followed up with a hadoken and a quick combo. Sunset fired off a kikoken, but Junior jumped over it and pulled off a hurricane kick! Junior ended the match with a shinku hadoken,

**SC276: I'm not sure whether or not to be happy I don't know what that means.**

and Round 1 was his. Round 2 began, and the two players didn't pull any punches. Each landed hits of combos on the other until both of their life bars were almost empty.

**Mono: I can't fucking believe a game of Street Fighter is the most interesting thing in this fic so far.**  
**Crazy56U: Can the rest of the fic be this?**  
**Mono: We don't get nice things here, Crazy.**  
**Crazy56U: ...and that affects my question *how*?**  
**Mono: ...Point taken, I guess...?**

One hit would decide it all.

**SC276: ~ONE PUUUUUUUUUUNCH~**

Sunset tried to finish it with a spinning bird kick, but Junior used a hurricane kick knocking both of them out.

**Crazy56U: [Gamera] "Here I am!"**

"Well, we both lost that one. You landed your hit first, so name your prize.", Junior said.

**SC276: [Sunset] "(thinking) Does he not know there's a Round 3? Well whatever, if he's offering..."**

"Lea says you sing pretty well.

**SC276: When, during one of the slice-of-life parts you didn't write?**

**Crazy56U:**

You owe me one song.", Sunset said with a smirk.

**Crazy56U: (loud as fuck facepalm) ...ow.**

'Lea really had to say that.', Junior thought as he prepared to sing the one song he knew almost every girl liked.

**Crazy56U: (sighs; cracks neck) And iTunes pull- fuck it.**

**Mono: Ah, "Hammer Smashed Face" by Cannibal Corpse. Yeah, that always works when I'm trying to win over a girl. You know, that may explain why I never had a girlfriend...**

**Crazy56U: ...alrighty then, moving on. (clears throat)**

**Mono: Good idea. \*clears throat\***

**SC276: OK, I'm going to take this opportunity to take a mulligan on this, because I can *tell* the author's too stupid to interrupt it with narrative and throw everyone off. And also because this fic's so devoid of creativity it doesn't deserve a new song. (clears throat) *Henshin!***

*You are, my fire.*

**Crazy56U: *I was justified when I was five.***

**Mono: *\*also drops sign\* Crap, I ran out of song... ummm... \*grunts\*. There!***

**SC276: (music equipment explodes, is currently on fire)**

"That was so beautiful.", Sunset said in awe.

**Mono: Well, thanks. Never knew you were into that.**

**Crazy56U: Sunset likes being called a bitch. *Oh God.***

**Mono: Congratulations, Crazy! You made this riff *even more* disturbing!**

**SC276: [Sunset Shimmer] "Kinda makes we wish I was a Rang- wait."**

"You were quite the lovely audience your self!", Junior said,

**SC276: Given, y'know, the song was in the middle of an arcade where it couldn't be heard.**

"And for my prize, how about a date tonight? Say, at the movies?"

"It's a date!", Sunset said. Before she left, she kissed Junior on the lips.

**Mono: As Crazy56U would say: *Blow me.***

**Crazy56U: That asshole? (scoff) Okay, whatever...**

"Best. Saturday. Ever.", Junior said with a slight blush on his cheeks.

**SC276: You have low standards.**

Xenilla was enjoying a comic in the park. However, his quiet day was interrupted by a basketball sent flying his way.

**Mono: ...Wow, I think this is the first time the story dropped the ball instead of us.**

**Crazy56U: ...is that allowed?**

**Mono: I... honestly don't know. Let's find out. *\*shakes a Magic 8-Ball\** Hmmm...**

**"Stop shaking me, asshole." I *think* that's a maybe.**

Fortunately, he caught it before it could make impact.

**Mono: And it doesn't drop. Wonderful. *\*ball drops in the background\****

"Sorry about that!", a girl with cream-colored skin and red hair said.

**SC276: There probably *are* characters that have pony skin colors around here. It's just the author doesn't know who they are.**

Xenilla let out a chuckle, "No need to worry, no harm done. Here's your ball back Ms.?"

"Blade Dancer.",

**Mono: ...Hold on, lemme think of a name here... can't think of one. "Blank" it is.**  
**SC276: She doesn't get a name. I don't give enough of a shit anymore.**

the girl answered, "Didn't get your name by the way."  
"Xenilla. Nice to meet you.", Xenilla said.

**SC276: [Blade Dancer] "Boy and I thought *my* name was terrible."**

"Well Xeni,", Blade Dancer said slyly, "you free tonight?"

**Mono: ...Instant date, just add basketball?**

Xenilla blushed! He'd never seen any girl be this direct before!

**SC276: That's because it *doesn't happen!***

"Uh...y-yeah, I am.", Xenilla said nervously.  
"Great! Meet me at the movies tonight! See ya then!", Blade Dancer said with a smile.  
Xenilla was pretty much speechless. 'Well, I guess I got girlfriend now.', he thought to himself.

**Mono: Because as we all know: catching a basketball for a random girl immediately results in you getting a date.**

**SC276: [Lightning Dawn] "Wait, which theater- aaaaaaand she's gone."**

Later that night, Junior and Xenilla showed up at the movies with their dates in tow. "Well, looks like you two have lost your bachelor status!", Rodan joked when he arrived with Applejack.

**SC276: [Gashat Roadie] "Should've just been not the main character, 'cause *then* you get hooked up automatically!"**

"That goes for us too buddy.", Angirus said when he showed up with Rarity, "So, what are we watching tonight?"  
"Star Wars 7: *The Force Awakens!*", Junior said proudly.

**Crazy56U: *CARRIE FISHER DOES NOT FUCKING DESERVE THIS***

**Mono: *NOT EVEN THE STAR WARS PREQUELS DESERVE THIS***

**SC276: *NOT EVEN THE HOLIDAY SPECIAL-* No wait, actually...**

The four rangers and their dates all seemed pleased with the choice,

**SC276: Because since when have they given a shit about *our* opinions?**

and went in. Once they were in their seats, the rangers looked to their dates and smiled. 'Best night ever!', was the sole thought on their minds. Meanwhile, Gamera and Destoroyah were babysitting the Cutie Mark Crusaders.

**Mono: Oh, right. They existed in this fic too.**

**SC276: Meanwhile, fuck Gashat Leash.**

There was no trouble since Gamera had quite the way with kids,

**SC276: Good for him.**

and the fact the crusaders had taken a liking to Destoroyah. Lea, Twilight, Fluttershy, and Rainbow Dash were having a sleepover.

**Mono: Because all fucking EQG fics are apparently required to have one by law. Because "Hey! Rainbow Rocks did it! Derp-a-hurr!"**

Twilight kept asking about all the technology the rangers used,

**SC276: This is the first chance she's had to ask, because her curiosity had been locked away along with her personality.**

while Rainbow kept begging Lea to show off her giga mode. All while Lea was giving Fluttershy a makeover.

**SC276: By the end of the night, they would discover they were all lesbians.**

Meanwhile, Pinkie Pie seemed to be writing in journal titled "Couples I Ship".

**SC276: Shipping real-life people relative to your universe is creepy, but given how mischaracterized Pinkie's been lately...**

**Mono: [Pinkie] "\*writing down\* Rainbow and Fluttershy, Rainbow and Fluttershy, Rainbow and Fluttershy, Rainbow and Fluttershy, Rainbow and Fluttershy..."**

Author's Note:

Sorry if there was an absence of monster fights and megazords.

**Crazy56U: Why the fuck are you apologizing?**

**Mono: Seriously, this was the most fun chapter to riff so far!**

**SC276: It helps that it didn't in any way relate to the stupidest villain we've ever had to read about!**

But the title says it all. As for battles, I've decided to go through every chapter, and see if I can extend them.

**Ringmaster: This should really be pointed out: Supposedly, what we have here is the *extended version*. Considering how short most fight scenes in this are *now*, what were they like before? Just a set of parentheses saying (they fought)?**

**Crazy56U: ...*fuck*ing WHAT?!**

**Mono: Well, all I can say is thank god at least we got *something*.**

**SC276: Interesting word choice. Well, I suppose God *has* forsaken us...**

The song Junior is singing is "I want it that way", by the Backstreet Boys.

**Mono: And I don't know *how* FimFic's mod's never found this shit out...**

**Crazy56U: The Backstreet Boys are chaos demons, obviously.**

**Mono: ...Honestly, I think that's actually true.**

**Crazy56U:** I mean, how *else* do you explain this music video?

If you felt it should be different, please let me know in the comments section.

**Crazy56U:** ...I don't even have to say a word, do I?

**Giginss:** That was ten words right there Crazy. I think the answer is 'Yes'.

**Crazy56U:** Just for that, I'm posting another Rollergator picture, because fuck you.

**Mono:** Well, what can I say? Dull fight chapters that take a millisecond, the mane 7 being left out of the entire story, the fact that they almost *killed* one of their friends when they *finally* do something, the Kaizer chapters dragging on for way too long, using copyrighted songs, other things SC will probably mention in his rant, can we just go to next week now?

**SC276:** **FUCK. THIS. STORY.** I don't know if it's continuing to rip off MMPR, and I don't give a shit either way. There are a massive number of factors as to why this shit is shit, and a majority of them come from the misaimed focus and frantic pacing. We basically ran through the bulk of an entire *Sentai* season in this part alone. Even with the fucking "extensions," this is so bare-bones that it makes Papyrus look like he has muscles. In what I can only assume is an effort to be as short as possible so it stands a chance of being riffed, it removes all the slice-of-life parts of a Rangers or *Sentai* series, *and that ruins everything*. Superhero shows like this need moments where the characters are living and not fighting; it lets us get to know who they are as people and make us give a shit about them. The author is doing the equivalent of skipping the parts of a *Batman* story that involve detective work and being Bruce Wayne and just showing the showdown in the villain's hideout, which keeps us from learning *anything* about how Batman works if you're a first-time viewer. Sure, the fights are cool and all, but the only reason they're memorable is because the non-fight scenes before built up to them, and they wouldn't be nearly as memorable on their own. Because the author insists on having only fight scenes - and is shit on those as well - the only time characters get anything resembling development is if they're one of the way too many sixth rangers being introduced, followed by none at all once their introductory chapter is done. This also is what causes the Humane

Seven to be good for nothing but cheerleader girlfriends; because they can't transform and fight with the kaiju rangers (which I'm not capitalizing if the fic doesn't), they can only ever get the spotlight in the slice-of-life scenes that *don't exist*. Not that the actual main characters fare that much better - all the development and personality that Sora and Roadie get is "dating one of the Humane Seven," J only gets attention and not much at that because (I *assume*) he's the Red Ranger, Lightning Dawn is *fucking Lightning Dawn*, and Leash's only support is becoming *JESUS*. Honestly, my favorite character is Queen Legion because she's the only one with an actual *story* to her. I'd also root for Mothra, but she gave Camera a morpher out of fucking nowhere, so sorry lady, but screw her. As for Dedede, *fuck him the most*. He's more incompetent than our two previous Darknesses *combined*! What other explanation is there for sending one monster at a time when he knows that there's *four-plus* heroes, *MULTIPLE TIMES*?! He's supposed to be a galactic warlord, a force of devastation and darkness that is behind the backstories of pretty much every single sixth ranger in this story, and yet when he loses *like six mutants*, he's almost out of troops?! For fuck's sake, I can't think of a single *Rangers* or *Sentai* series that didn't have a constant supply of mooks around! Why isn't he getting reinforcements from any of his other territories?! Maybe if he had even a drop of Rita Repulsa in him, he might be able to generate more of a decent fight scene! Those are boring as fuck and that's not even counting the Megazord parts, cued by a weapon that makes no fucking sense and are over *even fucking faster* than the regular fights! This gets pretty damn close to being as bad as *Sonic - EGRainbowRocks*, but that one's problems manage to be more scarring in the long run. Fuck this story, fuck this author, I can do legions better and I currently am, *just you fucking watch*. (dresses up like Specter Knight and warps away)
