**Rad u paru.** Your instructor will give you a write-up from one of your classmates' homework assignments (Zadatak 7. *S kim putovati?*). It gives you your classmate's plans for the summer and a list of possible people they potentially want to travel with.

|   |                                                                 |

## 7.1 Zadatak 19. S kim ne ideš na odmor?

Check the [Google document](#) handout with Mario's and Davor's options for traveling that you already encountered in previous tasks. At this point, you already know who they plan to travel with. Now, read the following statements from Davor and Mario. Who do they not want to travel with? Read each argument and decide who they are referring to. In the first column write who says it. In the second column write to whom they are referring to by answering the question. The first one is done for you.

| Davor ili Mario? | S kim ne želi putovati? | RAZLOG [reason]                                            |
|------------------|-------------------------|------------------------------------------------------------|
| Mario            | S Jasnom i Katarinom    | S njima nije dobra ideja. Navečer vole izlaziti u klubove. |

|  |  | S njom je dosadno, uvijek je na mobitelu.                |
|  |  | S njim nije dobro putovati. Ne voli izlaziti u klubove.  |
|  |  | S njima nije zanimljivo. Ne vole biti na suncu.          |
|  |  | S njim nije zabavno. On voli skijanje, ne voli more.     |
|  |  | S njom nije dobro putovati jer ona ne voli prirodu.      |
|  |  | S njom nije dobro putovati. Ona voli izlaziti u klubove. |

## 7.1 Zadatak 21. Planiramo odmor

 **Grupni rad.** Choose one of the [city maps](#). Explore the city online and find at least four different locations that you would like to visit. Since you are working as a group, it has to be something you all like/are interested in.

### Part 1

While looking at the map, ask each other the following questions in order to find things you all like. Feel free to ask any other questions that might be relevant. These are just examples.

#### Pitanja

Želiš li vidjeti/posjetiti [...]?

Sviđa li ti se [...]?

Želiš li ići u/na [...]?

## Part 2

When you are done exploring the map, and you have collected the answers from everyone in your group, find an appropriate set of pictures online that will represent your choice. Under each picture, write the appropriate caption (i.e., what does it represent).

|                            |                            |
|----------------------------|----------------------------|

| Što je to?                 | Što je to?                 |
| copy-paste picture #3 here | copy-paste picture #4 here |
| Što je to?                 | Što je to?                 |

## Part 3

For each city attraction that you chose, write who you are going with and why. Be sure to mention what you will do there. Here is an example for one location:

Na primjer: *Želim putovati u Split. Mislim da je Marko dobro društvo za putovanje. Uvijek je spreman za akciju. S njim mogu posjetiti Dioklecijanovu palaču. Možemo ići na plažu, plivati i sunčati se. Navečer s Markom mogu ići na večeru ili u klubove. On je organizirana osoba. Kada putuje, uvijek puno istražuje o lokacijama koje planira posjetiti. Puno čita i uvijek zna gdje možemo jesti dobru hranu.*

\*istraživati (Present Tense: ja istražujem) - English: to do research/investigate.
